RAYNES PARK. LONDON, S.W.

1912

SPECIAL ANNOUNCEMENT.

It is gratifying to be able to announce that our progressive business has again enabled us to extend our premises. Established in the year 1836 by the founder of the firm, the late James Carter, at 237, High Holborn, it became necessary in course of time to provide enlarged premises to keep pace with the then extending business, when a capacious warehouse was built on the South Side of High Holborn. Towards the close of the last century the commodious block at No. 97, High Holborn, on the North Side, was taken over by our Firm, the frontage of which will be familiar to many of our Customers. Now again the exigencies of an increasing business have rendered it

necessary to make greater provision still, and the restriction of space in the centre of London has led us to erect specially designed buildings fitted with our own patent cleaning machinery at RAYNES PARK, in the South West of London. The specially designed buildings (1910-11), to which have been added (1911-12) Laboratories, Kitchens, Dining and Recreation Halls, are surrounded by the necessary grounds to conduct our experimental work in selecting, standardising, and Testing Seeds, which is such an essential part of our business.

We cannot issue this notice without adding an expression of our keen appreciation of the long-continued patronage of our Customers and grateful thanks for their many recommendations, without which such an extension of our business could not have taken place.

420 FEET-ERECTED 1910-1911.

280 FEET-ERECTED 1911-1912.

From the above illustration of our Raynes Park Establishment it will be seen that we have largely extended the building to the right. The new accommodation includes Seed Testing Laboratories, Kitchens and Dining Halls, Photographic Studios, &c., &c., also more commodious packing and despatch offices.

greatly facilitate prompt accommodation will and orders. correspondence The largely increased al attention to

ON THE RAISING, GROWING, CLEANSING, AND TESTING OF SEEDS.

FIRST GERMINATION OF CARTERS CHALLENGER BALSAM.

FIRST GERMINATION OF CARTERS HOLBORN STANDARD LETTUCE.

The prominence we have given to our Trade Mark "Tested Seeds" over so long a period has repeatedly given rise to the question, "What do you mean by Tested Seeds?" Believing that the raising, growing, testing, &c., of Seeds will be a matter of interest to our Customers, we take this opportunity of giving an illustrated explanation of some of the methods that were employed leading up to the introduction to the gardening world of such well-known Peas as Telephone, Stratagem, Daisy, Michaelmas, Anticipation, Mayflower, Harvestman, International, Quite Content, &c., &c., a process which frequently involves seven to eight years of patient observation and labour before a new introduction can be placed with confidence before the attention of our Customers.

We have selected culinary Peas as our illustration because they are more easily identified in a photograph, but analogous methods have to be pursued in the improvement of all varieties of Vegetables and Flowers, a work which we have made—and still continue to make—a special feature of our business. Indeed, it is now a matter of history that our House has been responsible for some of the most important improvements in Vegetables and Flowers far too numerous to mention here.

Lct us assume that one of our Experts has observed a promising seedling, produced from cross-fertilisation the previous year in our experimental grounds: its merits and characteristics are carefully noted in our Garden Registers. Possibly it may produce an extraordinarily large pod, like Quite Content, or it may be earlier, later, taller, more prolific and compact, &c., than any other variety shown in our comparative trials to be in commerce.

The produce of the plant is then carefully harvested and sown the following spring, when it again goes through the same routine, may be for six or seven years, to secure constancy and fixation of its special characteristics; the produce by this time may have increased to several bushels, when it is ready to be sown for a crop. Ground that is particularly suited to the variety is carefully selected, and the Seed is sown. In the early summer, when the plants are in maturity, our Experts, who have watched the character of the Pea ever since it was a seedling in our experimental grounds, examine every plant, eliminating any that show a weakness or lack of uniformity; the crop is then harvested, stacked and threshed, and eventually comes to our warchouse to be cleaned, hand-picked, and finally tested for germination. The subsequent processes of testing, &c., we have pleasure in illustrating with notes on the next pages.

A view of some of our seventy-five Cleaning and Pea-picking Machines, all driven by electric motors.

Number ten is familiarly ealled in our warehouse the "Dreadnought," and stands sixteen feet in height.

No weed, however nimble, or light seed can possibly escape its vigilance; it is fed by an electric elevator, and its duties are exacting.

In the first instance the seed travels into a large drum at the top of the machine, and is brushed by rapidly revolving specially prepared lambs' skins, all small portions of husk and earth that may adhere to the seeds at the time of harvesting being removed. The Seed then descends by gravitation (when all dirt, dust, and light seeds are drawn away by forced draught) on to sieves which, by an eccentric movement, take out all the "smalls." The whole combination is driven by a powerful electric motor, which also gathers the dust from and around the machine by suction, ready to be carted away and destroyed.

The Peas are now cleaned and graded, but some are stained or injured by inelement weather or by the attacks of insects, which probably weakens their germination; these must be picked out by hand.

Picking Garden Peas by Hand.

The founder of our Firm, JAMES CARTER was, we believe, the first to guarantee the germination of his Garden Seeds seventy-six years ago; the practice as amplified in the following illustrations is still conducted annually by our Firm.

IST TEST.—Garden Peas germinating on warm moist felt.

Carters Large-flowered Sweet Peas germinating on specially prepared paper.

2ND TEST. - Garden Peas being germinated in mould.

gardens of our Customers all over the World, making allowances for the various climates. and by the aid of our comparative tests (we try all British and Continental Seeds of repute) we assure ourselves that our Customers growing "the best and only the best" and "Tested."

CARTERS CRIMSON BALL BEET.

A ROUND SUMMER VARIETY.

The Roots are ready for use in the Summer Salads.

Carters Crimson Ball (see Photograph).—Round Beets are of the greatest value on account of earliness. The roots can be lifted during the height of the summer season when salads are in demand; and the fresh taste imparted by the highly-coloured slices are considered preferable to those from stored roots. The old-fashioned flat types were never in favour with cooks, because of their weak colour and stringy texture. In Carters Crimson Ball these defects have been remedied. 33 First Prizes reported last season.

We were awarded the First Class Certificate, R.H.S., for this fine Beet.

Price 1s. and 6d. per packet; 1s. 6d. per ounce.

Fine specimens of this variety have been exhibited in Gold Medal Collections during the past few seasons.

Corters Seedsmen by Appointment to His Majesty the King-High Holborn, London.

Carters Perfection (see Photograph).—We have again re-selected our Perfection. Beet, which is now a perfect and refined root. The best long Beet in cultivation; medium size, rich crimson lake colour, and splendid flavour; foliage shining and dark. Pronounced by the Royal Horticultural Society to be "perfection," and awarded First Prize at the Great Autumn Vegetable Exhibition, 1905. 43 First Prizes reported last season.

Price 15. and 6d. per packet; 15. 6d. per ounce.

BEET.—Continued.

Carters Dainty.—This is a small growing variety of more than ordinary merit, having long slender roots of a splendid deep crimson colour, and of the finest flavour possible; in naming it *Dainty*, we wish to convey the extremely refined quality of this variety; it does not attain to the size of our *Perfection* (see page 7).

Price 1s. 6d. per ounce; 6d. and 1s. per packet.

Drnamental Foliaged Beet.—An interesting species for decoration in the flower garden. The thick fleshy ribs are beautifully coloured either yellow, crimson, cream, or white, and the contrast with the shining green leafage is very effective.

Price 6d, and 1s. per packet.

Croton-leaved Beet.—A decided acquisition to the group of decorative Beets, the long, narrow, crimson-bronze leaves having an elegant appearance. For the ribbon border, or as a pot plant for table decoration, it is effective. The roots are edible.

Price 6d. and 1s. per packet.

Seakale Beet.—An improved type of a delicious vegetable, in reality a Beet in which cultivation has developed the leaves instead of the root. It is sown at the same season as Beetroot in April, in rows about 18 inches apart, and the plants thinned out to 15 inches apart. At the end of summer they may be lifted as required, the green portion of the leaves cut off and the fleshy stems boiled and served with sauce, like Seakale.

Price 6d. and 1s. per packet.

Carters Round.—A good early Beet	

The Cultivation of Beet.—The round varieties required for early use should be sown under cover in February. The main crop should be sown the last week in April on ground that has been well trenched and manured. Let the rows be about 18 inches apart, thin them to allow about 9 inches between the plants, and keep the soil well-stirred with the hoe during summer.

BROAD BEANS.

WHITE-SEEDED VARIETIES.

CARTERS NEW COLOSSAL WINDSOR BEAN.

Carters New Colossal Windsor Bean.—This immense Bean is, both in pod and seed, by far the largest Broad Bean ever raised. It was selected at our trial grounds, being the result of a cross made in 1905 between the old-fashioned Harlington Windsor and Carters Leviathan and is a certain prize winner. The seed is of abnormal size.

Price 2s. 6d. per quart; Is. 6d. per pint.

Carters Mammoth Windsor.—The longest podded Windsor Bean in existence, and the finest for exhibition. The pods of this superb strain often contain as many as five and singular beans. A grand selection		
Carters Market Garden Windsor.—Very superior to the ordinary type, having a white eye which makes it a great acquisition, giving it a much nicer appearance when cooked that the ordinary varieties. The eye retains its white colour to the last 1s. 3d. per pin	9

(WHITE SEEDED.)

A champion Exhibition variety.

57 First Prizes reported by customers last season.

We continue to re-select this well-known Broad Bean, the seeds being carefully saved from the finest pods taken from the most prolific plants, so that our customers may feel that they are growing really the very finest Broad Bean in cultivation. It cannot be excelled for Table or Exhibition.

Price 2s. 6d. per quart,

is. 6d. per pint.

Leviathan Broad Bean.

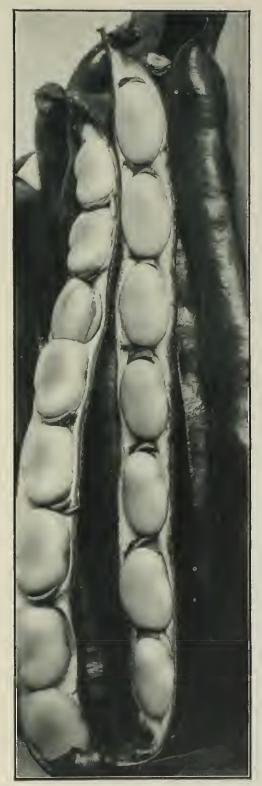

We live in an age of leviathans, and the name given the above Bean by its introducers, Messrs. Carter & Co., of High Holborn, is thoroughly des-criptive of what a trial here this season has proved to be. Sown the middle of February, on the same date and under the same conditions as two other well-known varieties usually acknowledged by kitchen gardeners to be the best of this class, it came in an easy first not only in size of pod, but also in the matter of earliness and continuous bearing. It certainly outclassed its rivals, commencing to yield pods large enough for cooking early in July, and it was from the same row we picked our latest dish on August 10th. I feel sure a trial of this variety will not fail to give satisfactory returns.—F. R. CASTLE. -- The Gardener, September 11th, 1909.

The Cultivation of Broad Beans.—Early Mazagan and Dwarf Fan Beans may be planted in November, and a second sowing made in February, the rows being about 15 inches apart; to be followed by the Long-Podded and Windsor varieties to secure a succession. The later sorts should be about 6 inches from plant to plant, and 3 feet This crop succeeds best on deep rich soil from row to row. in an exposed position. On light and dry soils it generally gets attacked by the black blight and spoils. When the points suffer from this pest it becomes imperative to pinch them out and burn

Corters Seedsmen by Appointment to His Majesty the King-High Holborn, London.

them.

CARTERS GREEN LEVIATHAN. REDUCED PHOTO.

BROAD BEANS.—Continued

Carters Green Leviathan (Green Seeded).

THE ROYAL HORTICULTURAL SOCIETY, reporting its trials at Wisley, says:-"Pods of great length, and one of the best of the long pod section; good crop."

We introduced this fine Bean as a fitting companion to its prototype, Carters Leviathan (White Seeded). we state that the Bean we now offer earries pods of equally enormous proportions, and has the additional advantage of a beautiful green colour which is retained when cooked, its merits will be at once recognised. Its flavour is most mellow and delicious.

Price 2s. 6d. per quart, 1s. 6d. per pint.

whose Gardens it has been our privilege to supply with Seeds for many years.

Our House during 1910-11 has been awarded Five Gold Medals, Two Silver Cups, Three Silver Gilt Medals, and Seven Silver Medals, and we are happy to state that our Customers have reported, from all parts of the World, thousands of Prizes gained with the produce of Carters Tested Seeds.

CARTERS JULY CLIMBING FRENCH BEAN, WITH STRINGLESS PODS.

CARTERS JULY CLIMBING FRENCH BEAN.

We had the pleasure to bring to the notice of our customers a climbing stringless variety, which we strongly recommended, and we have no reason to alter the opinion expressed then. It bears round pods so freely produced that we have counted as many as forty on a stalk. It holds well to the sticks and is the earliest Bean we know. THE ROYAL HORTICULTURAL Society reporting its trials at Wisley, says: - "Carters July Climbing French Bean. Flower white, height 3 feet, foliage dark green; pods long, thin, straight, averaging 6 inches in length, usually in pairs; good crop; pods stringless."

"An early fruiting Climbing French Bean. The pods are thick, medium sized, and very like the excellent Butter Beans in form. Not in July alone, but it keeps on fruiting over quite a long season, and is as good now in September as it was at first. The actual bean is very small, and the pods keep tender longer than any variety I have tried."—Mr. J. C. TALLACK, Head Gardener to E. M. Mundy, Esq.

Price 4s. per quart; 2s. 6d. per pint.

CARTERS CLIMBING FRENCH BEAN SUCCESSOR.

A large-podded Climbing French Bean, selected from our *Ten Weeks*. It is superior to that variety as the pods are almost half as long again, and very delicate eating. It comes in after our *July Climbing*, hence the name *Successor*.

Price 4s. per quart; 2s. 6d. per pint.

Carters Re-selected Climbing French Beans.

A highly selected stock; being more prolific, and of very robust habit.

Price 3s. 6d. per quart; 2s. per pint.

Carters Ten-weeks Climbing French Beans.

Price 4s. per quart; 2s. 6d. per pint.

Ordinary Climbing French Beans, 1s. 6d. per pint.

Hints on Culture.—Sow in pots under glass wherever wanted, transplant in prepared beds for training, or grow on in larger pots. For outdoor culture they must not be sown until May is well in—very similar to Scarlet Runners, only that they do not grow quite so robust and do not need such tall stakes.

CARTERS PERPETUAL DWARF FRENCH BEAN.

AWARD OF MERIT ROYAL HORTICULTURAL SOCIETY.

This remarkable bean is strongly recommended as being in every way a great acquisition; it is of very compact growth, the foliage of an attractive dark green, and the pods are of medium size; the most important feature is the prolonged period this variety continues to bear, and its remarkable quality for withstanding hot and dry seasons. Pods were picked in our gardens earlier than other varieties, and young tender beans were gathered after most other sorts were quite finished, notwithstanding the drought this past summer.

We exhibited about 50 pots of French Beans at an early August meeting of the R.H.S., the most favourably discussed variety being Carters Perpetual shown under Seedling No. 249.

The Right Hon, Viscount Midleton's Head Gardener says: "New Seedling Dwarf Bean No. 249. This variety had extra strong haulm, very dark green, pods long, thin, very straight, and a very heavy cropper."—Mr. QUAINTON, The Gardens, Peper Harrow Park, Godalming.

Priee 2s. 6d. per pint; 1s. per paeket

DWARF FRENCH BEANS.

Carters Stringless Dwarf French Bean, Holborn Wonder.—The great success which has attended our introduction of the first stringless Green-podded Bean, Carters Canadian Glory, has encouraged us to pursue our efforts in selecting stringless Beans for general use. Our Holborn Wonder will be found to be free from threads, is quite distinct and very prolific, and we confidently recommend it.

Price 3s. 6d. per quart, 2s. per pint, 1s. per packet.

CARTERS IMPROVED LONGSWORD FRENCH BEAN.

Carters Stringless Dwarf French Bean, Canadian Glory.—An Extra Early Dwarf Green-podded French Bean, possessing the invaluable quality of bearing pods absolutely without strings or threads. It is equally valuable eaten as a Flageolet or Haricot, as on the Continent.

Price 3s. 6d. per quart, 2s. per pint, 1s. per packet.

We were one of the first to make the merits of this fine dwarf Bean known, and its popularity to-day is probably unequalled. Our stock is the finest obtainable, and produces an abundance of very long fleshy pods, making it a great favourite both for table and

28 First Prizes reported by Customers last year.

exhibition.

Price 2s. per quart, 1s. 3d. per pint

Carters Improved Longsword.

—This is a variety which we can recommend either for forcing or for general use. It is very prolific and early, pods of good length, and of very delicate texture.

Price 3s. per quart, 1s. od. per pint.

The Cultivation of French Beans.—Sow in pots under glass for forcing from December to April, and about May in the open borders, followed by two or three successional sowings at intervals of a fortnight. The rows ought to be from 2 feet to 2 feet 6 inches apart. and the plants thinned to about 1 foot apart. They are rather delicate, and should not be sown out of doors until the warm weather sets in.

ALL SEEDS CARRIAGE FREE. FIVE PER CENT. DISCOUNT FOR CASH PAYMENTS.

CARTERS "RED GIANT" RUNNER BEAN.

THE LARGEST AND LONGEST PODDED RUNNER BEAN.

The largest giant podded Runner Bean ever introduced. This grand variety was offered by us three years ago as being even longer podded than our famous Scarlet Emperor; in consequence we had a great demand, and below we give a few of the opinions sent to us from various parts of the country. We are confident that, once grown, other varieties will speedily be displaced, as Red Giant is not only the largest podded but also the most prolific and early variety in commerce. We must, however, point out that it is not quite so smooth skinned as our Scarlet Emperor.

Priee 3s. per pint, 1s. per packet.

The Right Hon. The Earl of Galloway's Head Gardener says: - "Runner Bean, Carters Red Giant. This undoubtedly will prove to be an advance upon existing varieties. Sown in the open the produce was gathered the middle of August. Without special culture many of the pods were 10 inches in length, were straight and slender and rough to the touch, so characteristic of quality and fine appearance."—Mr. James Day, The Gardens, Garlieston, Wigtownshire.

The Right Hon. The Earl of Jersey's Head Gardener says:—"Runner Bean Red Giant. A wonderful fine bean, fine long pods which grow in very large clusters. I think will make a good show bean, being a lovely colour and growing so quickly and so straight. It has been thought a lot of here by all who have seen it. I intend growing more of it next year than this, as I consider it the best bean out at the present time. I think it has a grand future in front of it."—Mr. A. W. Perry, The Gardens, Middleton Park, Bieester, Oxon.

The Right Hon. The Earl of Mansfield's Head Gardener says: —" Red Giant Scarlet Runner Bean. This is a fine bean, has done exceedingly well here, of enormous size and free bearing, and first-class quality."—Mr. W. WARD, The Gardens.

The Right Hon. The Earl of Onslow's Head Gardener says:—"Carters Red Giant. I consider this bean equal to anything on the market. It produces handsome pods fit for exhibition, is a very heavy cropper, and its table qualities are first class."—Mr. II. W. BLAKE, The Gardens, Clandon Park, Guildford.

The Right Hon. The Earl of Sandwich's Head Gardener says:—"A prodigious eropper, good dark green pods from 12 to 14 inches in length. I have never seen any to equal them; a good exhibition bean."—Mr. F. HANSFORD, The Gardens, Hooke Court, Beaminster, Dorset.

The Right Hon. Viscount Midleton's Head Gardener says: -- "Red Giant Runner Bean. This fine Runner Bean has again this season proved its worth and kept its already high standard as a very fine setter and heavy cropper. The clusters have been very large and pods handsome, being very straight, many measuring 14 inches long. It is much larger than Scarlet Emperor and the tenderness of the pods is most noticeable, and I have no hesitation in saying that it is a most remarkable bean of recent introduction."--Mr. QUAINTON, The Gardens, Peper Harrow Park, Godalming.

Lady Wantage's Head Gardener says:—"Red Giant Runner Bean is conspicuous under ordinary cultivation amongst the best known varieties, including Scarlet Emperor, with pods 13 and 14 inches long; to all appearance seedless and as brittle as ice."—Mr. Wm. Fyfe, The Gardens, Lockinge Park, Wantage, Berks.

The Right Hon. W. H. Long's Head Gardener says:—"In Carters Red Giant there is an advance hitherto nattained in beans, both in regard to size of pod and attendant freedom. It is without doubt the exhibitor's 'stand by."—Mr. W. STRUGNELL, The Gardens, Rood Ashton, Trowbridge.

Sir Edmund Loder's Head Gardener says: -"Carters Red Giant Runner Bean has proved all I said of it last year, and this season it has been really better than last year, and it is becoming a popular favourite with all who grow for exhibition and require a good basket-filling bean at home."—Mr. W. A. Cook, The Gardens, Leonardslee, Horsham.

Sir Charles E. Hamilton's Head Gardener says:—"Carters Red Giant Runner Bean. This bean is most prolific and of strong constitution. The flavour and tenderness of the pods are unequalled. It is a most suitable variety to grow for exhibition work,"—Mr. T. A. BIRKINSHAW, The Gardens, Hatley Park, Sandy, Beds.

Admiral Brand's Head Gardener says:—"Having grown your Emperor for several seasons, I considered I had the best on the market, but Real Giant goes one better. It is a strong grower, very free in bunching, and the crop averaging I foot in length with many individual pods I5 inches; this without in any way thinning the crop. It is truly a marvel, pods as straight as a rule, a fine bean for the exhibition table."—Mr. W. BACK, The Gardens, Glynde Place, Lewes, Sussex.

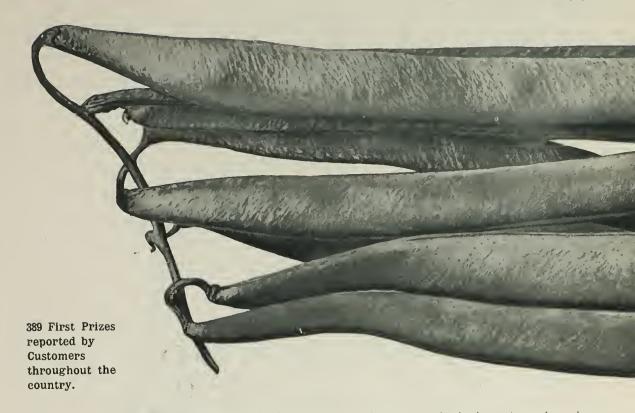

CARTERS Mammoth "RED GIANT" Scarlet Runner Bean.

Carters Address for all Correspondence, RAYNES PARK, LONDON, S. W. - 1912.

CARTERS SCARLET EMPEROR

THE LONG SMOOTH-

Carters Scarlet Emperor has fully maintained its great reputation; one conthusiastic gardener shows it to a neighbour and so its popularity increases each season, and our sales of this striking novelty have more than doubled each year. From our observations and the reports that we have received Carters Scarlet Emperor has been well represented and much discussed at exhibitions all over Great Britain.

Price 3s. per pint; 1s. per packet.

His Grace The Duke of Portland's Head Gardener says:—"I have given an extended trial to Carters Scarlet Emperor this season, and I am pleased to say that it has more than ever borne out the good opinion I had of it last season. It is a splendid eropper, with long narrow pods, with a splendid dark green colour. It also has much less of the coarse skin usual in Runner Beans."—Mr. James Gibson, The Gardens, Welbeck.

His Grace The Duke of Buccleuch's Head Gardener says:—"Carters Searlet Emperor Bean is a strong grower, flowers very freely, and is promising well."—Mr. Whytock, The Gardens. Dalkeith.

His Grace The Duke of Leeds' Head Gardener writes:—"Scarlet Emperor Runner Bean gave great satisfaction. It is a splendid Bean, and one of the first ready with us this year, and now (Oct. 19th), as I just looked through them, found a nice lot of good Beans fit for use."—Mr. J. Nicol., Hornby Castle Gardens, Bedale.

The Right Hon. The Earl of Eldon's Head Gardener says:—"I am more than pleased with your Scarlet Emperor Bean. I never saw anything like it before, it is exactly as you describe it in your catalogue."—Mr. J. King, The Gardens, Shirley Park.

The Right Hon. The Earl of Jersey's Head Gardener says:—"Your Searlet Emperor Runner Beans have done splendid. I have never seen any to equal them in height or size of pods; the best I know."—Mr. A. W. PERRY, The Gardens, Middleton Park, Bicester.

The Right Hon. The Earl of Lathom's Head Gardener says:—"Carters Searlet Emperor Runner Beans are the most refined Bean for exhibition with which I am acquainted."—Mr. BEN ASHTON, The Gardens, Lathom House.

The Right Hon. The Earl of Sandwich's Head Gardener says:—" Scarlet Emperor has been magnificent, I gathered beans 12 inches Iong under ordinary treatment."—Mr. HANSFORD, The Gardens, Hooke Court, Beaminster.

The Right Hon. Lord Middleton's Head Gardener writes:—" Scarlet Emperor Runner has done exceedingly well; a heavy crop of very fine pods."—Mr. J. Anderson, Birdsall House Gardens, Vorks.

RUNNER BEAN.

We again thank our Customers for the many kind letters of appreciation and reports of prize exhibits sent to us last autumn. Our stock is again highly selected and grown under our personal supervision, and we would warn our customers against the many substitutions now on the market.

Not only is this Bean of the utmost importance as a prize winner, but its smooth and tender texture places it far above all other scarlet runners. Its large, handsome pods, often measuring $15\frac{1}{2}$ inches, hang in great clusters, and it has been estimated that the produce from Carters *Scarlet Emperor* is twice as great in bulk as may be expected from the ordinary type of scarlet runner, and all of the most refined quality.

The Right Hon. Viscount Midleton's Head Gardener says:—"Searlet Emperor Runner Bean. This variety has done wonderfully well again this year, and although such an adverse season, it has set better than ever, having very fine large clusters, with long, straight, handsome pods, measuring over 12 inches. For the exhibition stand it eannot be excelled, and should rank in the estimation of those who have come in contact with it as the finest bean in cultivation."—Mr. QUAINTON, The Gardens, Peper Harrow Park, Godalming.

The Right Hon. Viscount Portman's Head Gardener says:—"Without doubt the finest Runner Bean ever introduced. It is a prodigious cropper, having straight pods from 12 to 15 inches in length, produced in abundance on each raceme."—Mr. Prinser, The Gardens, Buxted Park.

Sir Edmund Loder, Bart.'s Head Gardener says:—"A very fine variety which bears most profusely, and quite the finest Runner Bean. I have measured plenty 12 inches in length on stalks bearing a dozen beans. What would they be if thinned."—Mr. W. A. Cook, The Gardens, Leonardslee.

Sir Henry D. Ingleby, Bart.'s Head Gardener writes:—"Vour Scarlet Emperor Runner Bean has done wonderfully well with me; it is very free setting and a good cropper. I have had a quantity of pods 14 and 15 inches long, and they have been quite tender right up to the last."—Mr. 11. Fox, The Gardens, Ripley Castle, Vorks.

Admiral Walker's Head Gardener writes:—"Your Runner Bean, Scarlet Emperor, is indeed an eye opener. It was admired by all who saw it here, the attraction being the length of the pods, which were from 10 to 14 inches long, in bunches of six to eight pods, even in growth, good in colour, with a smoothness and an absence of curled-up pods not found in other sorts. Another recommendation is its long season in growth, I made my first gathering in July, and to-day (Oct. 19th) I gathered fine tender pods, when other sorts had finished a fortnight ago grown under the same conditions."—Mr. G. Davison, Beverley Hall Gardens, Yorks.

RUNNER BEANS.—Continued.

THE FINEST WHITE SEEDED RUNNER BEAN GROWN.

Carters Jubilee Runner (see Photograph—greatly reduced).—This extraordinary Bean still remains one of the best. Carters Jubilee Runner produces an enormous erop of immense pods, which are thick and unusually fleshy, the flavour being all that is desired.

"I had a pint of Jubilee Runner Beans from you last year, and I must say I never had Runners yield like them. They hung in bunches like grapes, and lasted so long."—Mr. W. K. SAUNDERS, Kingston-on-Thames.

Price per quart, 3s. 6d.; per pint, 2s.

Carters Holborn Masterpiece.—A very robust and hardy Bean of the Caseknife type.

Price per pint, 3s.

Carters Champion Scarlet Runner.—A great improvement upon the old type, producing a great profusion of large beans of splendid flavour.

Price per quart, 3s. 6d.; per pint. 2s.

4TH PRIZE. IST PRIZE AND SILVER CUP.

PRIZE.

3RD PRIZE

Four fine Exhibits of Vegetables at Hitchin Show, 1911, grown from Carters Tested Seeds

For contents of Carters Exhibitor's Collection, please see page 138.

Contens Seedsmen by Appointment to His Majesty the King-High Holborn, London.

RUNNER BEANS—Continued.

CARTERS ELEPHANT RUNNER.
Showing type of fruiting cluster. Reduced in size.

Carters Elephant Runner (see Photograph).—A large handsome type with fleshy pods, very long, and borne in the greatest profusion; very popular.

Price 3s. 6d. per quart; 2s. per pint.

The Czar. —White seeded; bears a profusion of large pods—Per quart, 3s.;	I	9

White-seeded Scarlet Runner.

Fleshy pods. Per quart, is. 3d.

The Cultivation of Runner Beans.—Runner Beans should be planted out of doors during May, followed by successional sowings at intervals of a fortnight; by this means an abundant supply is provided until the plants are destroyed by the autumn frosts. Care should be taken when planting that sufficient space is allowed between the rows (say 3 feet), and 12 inches from plant to plant in the rows, and the plants should be well watered in dry weather or the flowers will drop off. If slugs are troublesome during the young stage of growth, dust over with soot and lime.

CARTERS RUSSIAN KALE

CARTERS RUSSIAN KALE

(Chou de Russie).

Award of Merit and First Class Certificate after trial at Wisley, March 19th, 1907.

The only novel variety of Kale in the trial eonsidered worthy of the award. No other Kale in the whole trial of 54 stocks received the First Class Certificate.

This distinct and extremely hardy variety stood the exceptionally severe winter better than any other variety grown; the leaves are very curious, in form somewhat resembling a deer's antler, of singularly thick substance, and of a peculiarly green colour.

When cooked this is the most delicious variety of Kale which we have ever tried, the young shoots especially being particularly delicate in flavour. Our opinion is endorsed by a well-known writer in the *Gardeners' Chronicle*, who says: "I have had the pleasure of tasting its sprouts eooked, and can verify the opinion passed upon it. It is exceptionally good."

The Right Hon. Viseount Midleton's Head Gardener says:—"Foliage of a dark green nature, short and sturdy, producing large quantities of sprouts, when cooked are delicious. It stands the winter better than most of the better known kales, and should be grown everywhere."—Mr. QUAINTON, The Gardens, Peper Harrow Park, Godalming.

Price 1s. and 1s. 6d. per packet.

CARTERS WELSH KALE.

A hardy variety of very handsome appearance; of medium height, the leaves are long and densely curled, but are more narrow than our *Half Tall* Scotch variety. The flavour is particularly good.

Priee 1s. per paeket.

"I took First Prize for nine Record Onions at Sutton Bridge, and a friend I let have some, took First Prize for twelve at Peterborough, autumn sown from one small packet."—Mr. T. DAKIN.

CARTERS WELSH KALE.

BORECOLE, or KALE.

CARTERS DWARF EXTRA CURLED KALE.

CARTERS HALF TALL SCOTCH KALE.

Carters Dwarf Extra Curled

Kale (see Photograph).—Award of Merit, R.H.S., 1907, after trial at Wisley. A re-selected and crested form of the Early Kale so popular in the North. It will resist the most intense frost, and makes a delicious winter dish.

Price 1s. and 6d. per packet, 1s. 6d. per ounce.

Carters Half Tall Scotch

Kale (see Photograph).—A fitting companion to our well-known Dwarf Extra Curled type. The leaves are very dense and moss curled. Stands the coldest weather, and the greater the frost the more delicate the leaves eat. If the leaves at the top are cut during the early part of the winter, it will greatly encourage the growth of the young shoots upon the stem.

Price **15.** per ounce: **6d.** per packet.

Carters Mammoth Tall Scotch

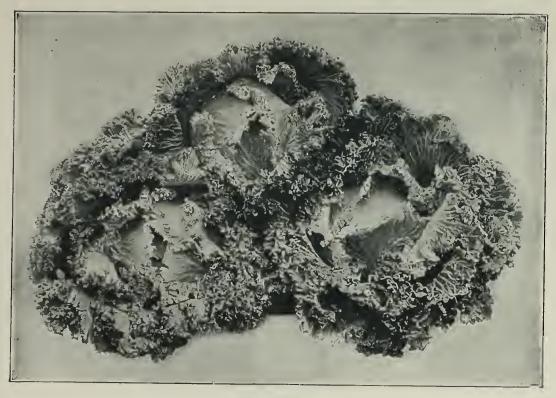

Kale.—A very robust variety, suitable for large establishments where quantities of winter green-stuffs are needed.

Price 1s. per ounce; 6d. per packet.

Carters Improved Garnishing

Kale.—This is not only a valuable winter vegetable, but also produces a variety of distinct and beautiful shades of colour in its variously tinted leaves that are useful for many decorative purposes.

Price 1s. and 6d. per packet; 1s. 6d. per ounce.

CARTERS DRUMHEAD KALE.

We received an Award of Merit from the Royal Horticultural Society for this Kale.

Carters Drumhead Kale.—A valuable winter vegetable with a solid cabbage-like head. Quite delicious when cooked. (See Photograph.)

"Quite distinct from any other Kale here. The leaves are broad and it is now hearting like a *Drumhead* Cabbage."—Mr. J. Whytock, Head Gardener to His Grace the Duke of Buccleuch.

"This is a delicions looking Kale which makes a good head, and is as delicious when cooked as it looks while growing."—Mr. W. A. Cook, Head Gardener to Sir Edmund Loder, Bart.

Price 1s. and 6d. per packet; 1s. 6d. per ounce.

Carters Purple Plume Kale.—Leaves of a rich purple, very tall and handsome; a useful vegetable as a winter dish or for garnishing.

Price is. and 6d. per packet; is. 6d. per ounce.

Asparagus Kale.—The long thin shoots produced on the plant in early spring make a delicious dish.

Price 6d. and 1s. per packet.

The Cultivation of Kale.—Sow the seed in March for early winter crop, and again in April for main winter crop. Transplant as soon as ready in summer, about 2 feet apart, into good soil, made firm and highly manured.

Varters See ismen by Appointment to His Majesty the King-High Holborn, London.

CARTERS SANDRINGHAM BROCCOLI.

FOR CUTTING FROM JANUARY TO APRIL.

Carters Sandringham Winter White (see Photograph).—A choice re-selected stock of Snow's Broccoli, which we strongly recommend to our customers. The heads, which attain a good size, are of a very compact growth and beautifully white.

Price 1s., 1s. 6d., and 2s. 6d. per packet.

Carters Mammoth Spring

White.—We have no hesitation in saying that this is one of the largest as well as the best varieties grown, and attains greater popularity each season. The heads are snow-white and of the finest texture.

Price 1s. and 1s. 6d. per packet; 2s. 6d. per ounce.

Carters Improved Early Purple Sprouting.—This variety is fit considerably earlier than the Purple Sprouting generally grown, and throws up a great profusion of Sprouts.

Price 1s. per packet; 1s. 6d. per ounce.

Carters Pyramid.—So named on account of the pyramidal habit it assumes; the large heads of purple sprouting growth giving it a pleasing appearance. Very hardy and vigorous.

Price is. and is. 6d. per packet.

Snow's Winter White.—A valuable midwinter variety, very constant excepting when the season runs out of its usual character, when the head may be later in reaching maturity.

Price 1s. and 1s. 6d. per packet; 2s. 6d. per ounce.

Carters Winter.—This will be found one of the most reliable varieties; good solid heads.

Price 1s. and 1s. 6d. per packet; 2s. 6d. per ounce.

FOR CUTTING FROM APRIL TO JUNE.

Carters Summer (see Photograph).—This variety is strongly recommended to growers of late Broecoli. It is extremely hardy and will withstand the most intense frosts. The heads are of superioquality, white; elose and compact.

Price is. and is. 6d. per packet; 2s. 6d. per ounce.

CARTERS SUMMER BROCCOLI.

Carters Champion.—We introduced this variety some years ago; it is of sterling merit and steadily grows in favour. Grows to a large size, and is of very hard, compact habit.

Price 6d. and 1s. per packet; 1s. 9d. per ounce.

The Rev. M. F. HILTON, Welton Vicarage, writes:—"I send photo of your *Champion Broccoli*. After trimming for cooking one weighed 84 lbs. and measured 45 inches round. My gardener finds your seeds reliable and satisfactory."

CARTERS AUTUMN BROCCOLI.

FOR CUTTING FROM SEPTEMBER TO DECEMBER.

Carters Autumn (see Photograph).--The earliest white closeheaded variety. Comes in after early Cauliflower and before winter Broccoli.

Price 1s. 6d. and 2s. 6d. per packet.

Per oz. Grange's Autumn White

Good solid heads of fine appearance per packet, 6d. & 1s. 1 6

Veitch's Self-Protecting. -Early variety, with good hearting

Walcheren.-One of the earliest; fine heads ... per packet, 6d. & 1s. 1 6

quality ... per packet, 6d. & 1s. 1 9

Carters Universal Protecting

(see Photograph). -Between a Broccoli and a Cauliflower, coming in during summer after the latest Broccoli and before the earliest Cauliflower. It produces large heads, compact and pure white. This is a remarkable introduction.

Stands longer than any other.

Price 1s. and 1s. 6d. per packet.

The Cultivation of Broccoli. - For the earliest crop a sowing is requisite the beginning of March, and a little protection may be necessary for the seedbeds. Successional sowings should follow up to June. Prick out into a prepared bed when strong enough, and when thoroughly established in summer transplant to permanent quarters, the earliest kinds first, to produce a constant supply of heads, according to the variety, until Cauliflowers are ready in July the following season. The soil should be deeply dug, well manured, and in good tilth and firm before transplanting.

CARTERS UNIVERSAL PROTECTING BROCCOLI,

CARTERS HOLBORN EXHIBITION BRUSSELS SPROUTS.

BRUSSELS SPROUTS

Carters Holborn Exhibition Brussels Sprouts.

(See Thotograph.)

A very fine strain, the result of many years' careful selection. Its points for size, colour, and productiveness are good all round. Besides being largely grown in private gardens, it is a special favourite with many of our best known market growers. It is of medium height with large solid sprouts.

Price Is. and 6d. per packet; 1s. 9d. per ounce.

THE ROYAL HORTICULTURAL SOCIETY'S report reads:—
"Carters New Exhibition. Plants 2 feet high, sturdy, producing a mass of medium sized hard sprouts from base to erown."

Holborn Exhibition Brussels Sprouts.

"I grew a splendid erop of Brussels Sprouts. There were several plants better than any illustration in any Gardening Catalogue or Paper, several gardeners saw them and said they had never seen anything better or more perfect in growth." — Mr₀ WICKS, Gardener.

"Those I had last season have done splendidly."—Mrs. SANDELL.

"I am very pleased to say that your Holborn Exhibition Brussels Sprouts I got from you last year were the best I have ever had. They were large sprouts from top to the bottom."—Mr. G. CARR.

CARTERS PERFECTION BRUSSELS SPROUTS.

Carters Address for all Correspondence, RAYNES PARK, LONDON, S.W.—1912.

BRUSSELS SPROUTS--Continued.

Carters Perfection Brussels Sprouts.

(See Photograph.)

A standard variety for general use, producing large and firm sprouts in great abundance. As a late Sprout it is much appreciated. It is a taller growing variety than our Exhibition strain.

Price 1s. and 6d. per packet;
1s. 9d. per ounce.

Aigburth. — Medium height; Sprouts of good size and colour.

1s. per ounce; 3d. and 6d. per packet.

Fresh Imported.—Small, close, compact Sprouts.

8d. per ounce; 3d. and 6d. per packet

Rosebery.—Large Sprouts; tall growing, and of good quality.

10d. per onnee; 3d. and 6d. per packet.

Scrymger's Giant. — Tallgrowing variety, producing Sprouts of good quality and large size.

10d. per ounce; 3d. and 6d. per packet.

The Cultivation of Brussels Sprouts.
—Sow the seed early in March for first erop, and again late in April for succession, transplant in summer into good ground made thoroughly firm, when the plants are large enough to handle, and keep stirred with the hoe through the dry weather. The Sprouts are fit for gathering after they have been under the influence of a hard frost, which makes them tender eating. Some growers make a sowing in August to get early Sprouts.

CARTERS SELECTED EARLY CABBAGES.

FOR SPRING AND AUTUMN SOWING,

CARTERS EARLY HEARTWELL CABBAGE.

Carters Early delicate flavour; cut in summer. Sown in August will be fit to cut in April and May. 37 First Prizes reported last Price 1s. and 6d. per packet; 1s. 6d. per ounce.

Carters Early Garden.—A highly-selected variety, with a sugarloaf head. Preferred by some growers to the round-headed type.

Price 6d. per packet; 1s. per ounce.

Carters Model.—As a succession to Carters *Heartwell* this is a useful variety. Its heads are firm and compact, and come close to the ground.

Price 6d. per packet; is. per ounce.

Carters Mammoth Beefheart.—The finest Garden Cabbage grown. It is some years since we introduced this variety, but each season it becomes more popular, and we confidently recommend this highly selected strain as being not only the largest, but one with the least tendency to bolt. Sown in spring it gives splendid heavy heads during summer and autumn, or when sown in August fine heads may be expected in the late spring. It is much more robust and hardy than many of the small varieties now recommended for early summer use. 131 First Prizes reported to us by our customers.

Price 6d. and 1s. per packet; 1s. 6d. per ounce.

CABBAGE.—Continued.

Carters Miniature Drumhead.—A small, globular shaped Garden Cabbage of delicate flavour and good colour. Although called Drumhead from its shape, it is quite distinct from the Field Cabbage; valuable for small gardens, where only one sort is grown. The plants may be set very close together.

Price 6d. and 1s. per packet; 1s. 6d. per ounce.

Carters Mammoth Beefheart (see Photograph and Description, page 31).

Carters White Prizetaker.— A good variety with short leaves and white heart; strongly recommended for autumn use; flavour exceptionally mild and melting.

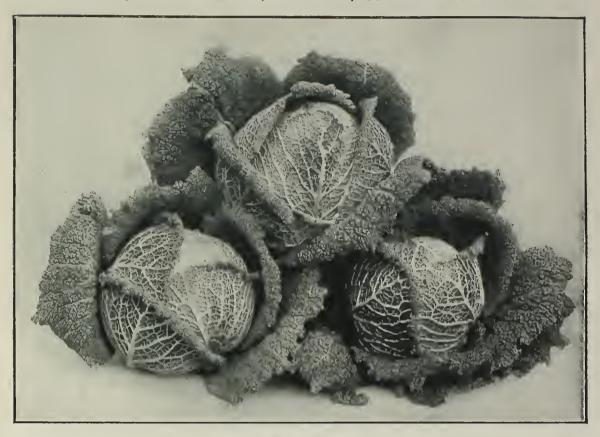

Price 6d. and 1s. per packet; 1s. 6d. per ounce.

Price 6d. and 1s. per packet; 1s. 6d. per ounce.	Per p	acket.	Per cz.					
Carters Red Pickling.—This is the most perfect type of Red Cabbage; the heads being very hard and compact and of a rich deep crimson, the colour also of the outer leaves being much darker than any other variety we know, and we feel confident that it will speedily								
displace the older sorts		0	1 6

8 ounces of Cabbage, in 8 finest sorts, for succession—our selection		•••	5 6					

The Cultivation of Cabbage.—By a little careful arrangement Cabbages can be had almost all the year round. An early variety sown in the spring will come into use in the summer; a main crop variety sown in the spring will come in during summer or autumn. Sowings made during July of a quick variety like the Colewort will come into use during autumn, whilst sowings made towards the end of August will be fit for cutting in the spring. July sowings of a Cabbage intended for spring cutting often bolt, whereas the same variety sown at end of August stands well. Cabbages require a rich, deeply dug, and well-drained soil; when planted out they should stand 15 to 20 inches apart, according to habit and growth of the variety.

SAVOY CABBAGE.

SAVOY, CHOU DE MILAN, COLEWORT, COUVE TRONCHUDA,

CARTERS GIANT GREEN SAVOY.

Carters Giant Green Savoy (see Photograph).—An improved type with crimped foliage; the individual leaves are very large, but retain their tender properties longer than any other variety. Price 6d. and 1s. per packet; 1s. 6d. per ounce.

Carters Early Dwarf Ulm,—A fine re-selected stock of this popular Savoy. Extremely early, good Price 6d. and 1s. per packet; 1s. 6d. per ounce. flavoured, and very hardy.

Carters Re-selected Tom Thumb .-- An exceptionally fine-grained type, with a compact heart. Very early and ornamental. Price 6d. and 1s. per packet; 1s. 6d. per ounce.

CARTERS GOLD MEDAL EXHIBIT, TAUNTON, 1910.

Exhibited by Mrs. Denison, Little Gaddesden, Berkhamsted (Mr. A. G. Gentle, Gardener).
The above magnificent exhibit comprised the following varieties:—Carters Red Elephant Carrot, Carters Improved Horn Carrot, Carters Perfection Beet, Carters Crimson Ball Beet, Carters Holborn Marrow Parsnip.

CARROTS FOR FORCING, FRAME, AND SUMMER.

CARTERS GOLDEN BALL.
CARTERS EARLY SCARLET HORN. CARTERS EARLY MARKET.
CARTERS IMPROVED HORN. CARTERS LONG FORCING.

Carters Golden Ball.—A most distinct and very early variety, specially adapted for foreing and frame work. The roots are almost as round as a turnip, flavour excellent and melting. Awarded First Prize as the best early Carrot, R. H.S. Great Autumn Exhibition, 1905.

Price 1s. and 6d. per packet; 1s. 3d. per ounce.

Carters Early Scarlet Horn.—A highly selected stock, of bright scarlet colour, one of the most useful in this section.

Price 1s. and 6d. per packet; 1s. 3d. per ounce.

Carters Early Market.—Fine early variety of good colour, quick in growth, valuable alike for Market Gardeners or private use.

Price 1s. and 6d. per packet; 1s. 3d. per ounce.

Carters Improved Early Horn.—A perfect type of stump-rooted Carrot, of excellent flavour.

Price 1s. and 6d. per packet; 1s. 3d. per ounce.

Carters Long Forcing.—A handsome long Carrot, with the same depth of colour and firmness of texture in its earliest stages as other Carrots possess in their later growths.

Price 1s. and 6d. per packet; 1s. 3d. per ounce.

Carters Long Forcing Carrot.—"This forcing Carrot is one of the most distinct and valuable that we possess, and when better known it is sure to be extensively grown. It is the quickest variety that I know of, and makes but very little top, and the quality is excellent. As a Carrot coming into use early in the year, and for exhibition, it is an acquisition."—E. B. in Gardeners' Chronicle.

CARTERS SUMMER FAVOURITE CARROT.

Carters Summer Favourite (see Photograph).—Awarded Royal Horticultural Society's Silver Medal. A splendid halflong, producing handsome, well-grown bright cochincal-scarlet Carrots very early in the season. The quality is superb, and as an exhibition variety coming into use early, it will be found invaluable for showing in the summer months. 156 First Prizes reported to us during the past few seasons.

Price 6d, and 1s. per packet; 1s. 3d. per ounce.

Carters Scarlet Perfection.-

Awarded a Special Certificate of Merit at the Vegetable Conference of the Royal Horticultural Society and awarded First Prize, R.H.S. Great Autumn Exhibition, 1905. A distinct and greatly improved form of Garden Carrot. It is midway in length between the Long Surrey and the well-known Intermediate, with the bright searlet colour of the Surrey. The flesh is solid, crisp, and fine flavoured. Invaluable alike for table, exhibition, and market purposes. 276 First Prizes reported by customers.

Price 6d. per packet; 1s. 3d. per ounce.

"I have pulled up Scarlet Perfection Carrot in thinning out the bed well over a pound in weight, straight as a dart and tender as butter."—E. J. CRAWSHEW, Esq., Burnham.

Carters Blood Red.—This Carrot is quite distinct, and has many good and new qualities. It has a depth of colour not hitherto seen in Carrots, the texture of its flesh, while solid and erisp, is most tender, and entirely loses the pithy heart found in many large-growing varieties. It has handsome long roots.

Price 6d. and 1s. per packet.

The Cultivation of Carrot.—For early forcing sow in January in frames, in February on warm border. Make successional and main crop sowings during March and April in deep well-conditioned soil to which manure has not been recently applied. Cover the seed very lightly in \(\frac{1}{2}\)-inch drills, and as soon as the plants are strong enough to handle, thin out from 4 to 9 inches, according to sort. Further sowings may be made up to the end of June.

Specimens have been exhibited at our establishment measuring two feet and a half in length (30 inches). It has been brought to this high standard of perfection by one of the best professional gardeners, from whom we gardens and on the exhibition table. Price 6d, and 1s. per packet; 1s. 3d. per ounce. 239 First Prizes reported by Customers. originally acquired the whole stock. A remarkable variety, and one which has already become prominent in first-class A veritable giant both in length and rotundity.

CARTERS **FORERUNNER** CAULIFLOWER.

NOVELTY.

The quickest Cauliflower ever grown. days earlier than others.

Large white head, solid, and good size. Sow in middle of February, transplant when first leaves drop, under glass, plant in open ground end of April or beginning of May, and the first heads will be ready by the middle of June. The leaves proteet the head from the summer sun.

THE ROYAL HORTICULTURAL SOCIETY, reporting its trials at Wisley, says; — "Carters Early Forerunner. A very early variety of dwarf, compact habit; sturdy, with rather small, solid, handsome, pure white heads."

Price is. 6d. and 2s. 6d. per packet.

CARTERS FORERUNNER CAULIFLOWER.

WHAT EXPERTS SAY ABOUT IT.
"Carters Forerunner Cauliflower was sown on February 1st with Snowball and another well-known carly variety. Planted in the open the third week in April, we commenced to cut compact heads on June 7th. None of the other varieties were near ready. I am much impressed with it, and can congratulate you on it as distinct and valuable."—EDWIN BECKETT, Head Gardener to the Hon. Vicary Gibbs.

"I grew your new Cauliflower in frames along with Snowball, and grown thus it was 8 to 10 days earlier, a closer

head, and in all respects a better form. A most valuable introduction. I had it also on early borders in the open."—G. WYTHES,

late Head Gardener to His Grace the Duke of Northumberland.

"Carters Forerunner Cauliflower is a marvel, I cut fine heads on June 6th, almost like Autumn Giant." Mr. W. HUMPHREY, The Gardens, Loampits.

Carters Early Emperor.—A superb strain for the early summer. A giant Cauliflower for outdoor work, coming in midway between Carters Forerunner and Carters Autumn Giant.

THE ROYAL HORTICULTURAL SOCIETY'S report reads:--"Carters Early Emperor. Plants dwarf, sturdy with semi-protecting foliage; heads medium to large in size, firm, and of excellent shape."

Price 1s., 1s. 6d., and 2s. 6d. per packet.

Carters Defiance Forcing (See small Photograph)— For frame or pot culture. In perfection during early summer.

Price 1s., 1s. 6d., and 2s. 6d. per packet.

CARTERS DEFIANCE FORCING CAULIFLOWER.

CARTERS EXTRA EARLY AUTUMN GIANT CAULIFLOWER.

Carters Extra Early Autumn Giant.—This magnificent Cauliflower is more dwarf, considerably earlier, and in every respect better than the old Autumn Giant. It produces enormous snow white heads, and is admitted to be the largest and the earliest of the giant forms that are of such value during September and October.

We have records of 238 FIRST PRIZES having been won by Customers.

Price 1s. 6d. and 2s. 6d. per packet; 3s. 6d. per ounce.

CARTERS MONT BLANC CAULIFLOWER.

Carters Mont Blanc (see *Photograph*).—Magnificent snow-white heads, well protected by the leaves; one of the best for soils of heavy or retentive nature.

The Cultivation of Cauliflower.—Sow in pans on a gentle heat in February and March, to be pricked out in April on a warm border. Sow in the open in April and May for succession, and again in August for winter and spring use under glass.

CARTERS SOLID IVORY CELERY.

CELERY.

Carters Solid Ivory Celery

(see Photograph).—One of the most remarkable features of Carters Solid Ivory Celery is its extreme dwarf compact habit, and beautiful white colour. If the heads are tied with a little rough matting, the same as with Cos Lettuces, it will assist not only in keeping the Celery perfect, but also to exclude superabundant moisture.

We have records of no less than 288 First Prizes awarded this variety during the past few seasons in open competition.

Price 1s. and 1s. 6d. per packet.

CELERY SEED FOR FLAVOURING SOUPS, per lb., 2s.

The Cultivation of Celery.—Sow in February on a mild hot-bed for earliest crop, to be pricked out on bottom heat when ready, and transferred to trenches in June. Sow in March in seed pans for main, and in April for late crop. The trenches should be bottomed with rich soil, and the plants liberally watered in August; earth up gradually during August and September, and commence lifting in November.

FORCED HEADS OF CHICORY.

It is only on the Continent one can appreciate the delicate piquancy attached to salads, as they seem to understand them better than we do here. Chicory is a leading ingredient in French salads, and the plant is so easily cultivated that it should be more popular here. The seed is sown in late spring, in a sheltered position on a nice soil, very similar to Carrots, the plants thinned out to about 9 inches apart, and left to grow on until the end of the summer, when the growth will die down, leaving a root somewhat like a Parsnip. These are taken into a shed and kept in a heap of soil away from frost, and transferred to a hothouse when needed to produce their blanched heads during winter. They may also be grown in boxes

For Hints on Cultivation, see page 108.

Price of seed, 6d. and 1s. per packet.

Price of roots for forcing, 5s. per dozen (only available in winter).

CULTURAL DIRECTIONS.

Mustard and Cress.—Two of the most popular salad plants in cultivation, being in season all the year round. They are both cultivated in a similar manner.

Cultivation.—Use boxes of good fine soil, make the surface flat, and sow the seed rather thickly over the top, just pressing it in to the surface, but without using any covering material. After sowing, water it well. Place the box in moist heat, and cover with boards or thick paper until the seed germinates. Use shallow boxes half filled with soil. Frequent successional sowings should be made all the year round. Good results may be obtained out of doors in the summer by preparing beds of fine soil in the same way as recommended for boxes, and covering the seed when sown with boards or mats until it germinates.

Use.—Cut as soon as ready with a sharp knife. (See Illustration above.)

Watercress may be successfully grown if sown in rows in a shady border and well watered. See page 108.

Wasters Correspondence, KAYNES PARK, LONDON, S.W -1912.

CARTERS MODEL CUCUMBER GROWING FOR SEED AT OUR NURSERIES.

Carters Model (see Photograph) is one of the handsomest Cucumbers grown, embodying the fine form and general characteristics of Tender and True with the prolific habit and strong constitution of the Telegraph. Perfect in outline, with scarcely any neck, and of fine flavour, this variety has become popular, both for exhibition and table purposes.

Price 1s. 6d., 2s. 6d., and 3s. 6d. per packet.

ONE HUNDRED AND SEVENTY-NINE FIRST PRIZES REPORTED BY CUSTOMERS DURING THE PAST FEW SEASONS.

Mr. James Lawson, The Gardens, Horticultural College, Swanley, says: "I cannot speak too highly of Carters Model Cucumber. It is still the best for all purposes."

"I find your Model Cucumber the best I have ever grown. I cut several hundred from 18 inches to 2 feet long from six plants."—Mr. G. Webb, Gardener to Marvin Lock, Esq.

Splendid specimens of this very fine Cucumber have been conspicuous in Gold Medal Exhibits at various Shows in the Country.

CARTERS IDEAL CUCUMBER GROWING AT OUR NURSERIES FOR SEED.

Carters Ideal (see Photograph).—Raised by that champion cultivator, Mr. E. Beckett, head gardener to the Hon. Vicary Gibbs. It is quite an aristocratic variety, both in colour, shape, and flavour. It gained a Cultural Commendation after growth at Wisley.

Price 1s. 6d., 2s. 6d., and 3s. 6d. per packet.

"Your Ideal Cucumber is now bearing beautiful fruit, and I am sure there is no better seed on earth than yours."—
Mr. G. DUNFORD, Harlow.

Carters Cardiff Castle.—Awarded a Cultural Commendation by the Royal Horticultural Society.

The fruit is of a rich emerald colour, perfect in form, growing to a length of about 18 inches. It is remarkably free-bearing and very early.

Price 1s., 1s. 6d., and 2s. 6d. per packet.

Carters Earliest of All.—Has produced perfect fruit in a trial, nine days in advance of all others.

It is of good colour, and handsome form.

Price 1s., 1s. 6d., and 2s. 6d. per packet.

Carters Improved Telegraph.—Our highly selected stock is the finest obtainable of this popular variety. Unquestionably one of the best winter Cucumbers; indispensable for forcing, and a great cropper.

Price 1s., 1s. 6d., and 2s. 6d. per packet.

Carters Royal Osborne.—This grand introduction of ours has now become thoroughly established and as an all-the-year-round variety the professional gardener will find it one of the best. It is very prolific and of a rich deep green colour.

Price 1s., 1s. 6d., and 2s. 6d. per packet.

The Cultivation of Frame Cucumber.—Sow in a pot or pan during February or March in heat for summer use, keeping the seed-pan shaded from strong light until the seedlings appear, then transplant to well-prepared hot-bed or other position, when the plants are sufficiently established. If intended for cold-frame culture the plants must not be put out until all danger of frost is past. Sow again in September for winter use on a hot-bed.

The Cultivation of Ridge Cucumber.—Sow on gentle heat in April, and plant out in June into a raised mound in a sunny spot, or sow where intended to grow in early June or sooner if weather is warm.

CARTERS IMPROVED SWEET CORN.

Several fine cobs were exhibited in Two Gold Medal and Two Grand Prix Collections of Vegetables at the Franco-British Exhibition, 1908.

This Maize is a favourite vegetable dish in Canada, and we are now able to offer an improved type, aeclimatized and saved in this country. The demand is increasing as it is more widely known. The cobs are cooked and served whole, and the peculiar sweet nutty flavour is so appreciated that after a trial it will, no doubt, find a permanent place in the Kitchen Garden.

Price 1s. per paeket.

KOHL RABI, or KNOL KHOL.

Carters Earliest White. Carters Earliest Purple.

Price 6d. and 1s. per packet.

CULTURAL DIRECTIONS.

DESCRIPTION.—A useful vegetable, not nearly so much cultivated in this country in gardens as it would be were its merits known.

Use.—As a substitute for Turnips, especially in hot dry seasons. The bulb grows entirely out of the ground.

VARIETIES.—There are two varieties in general cultivation, the white and the purple.

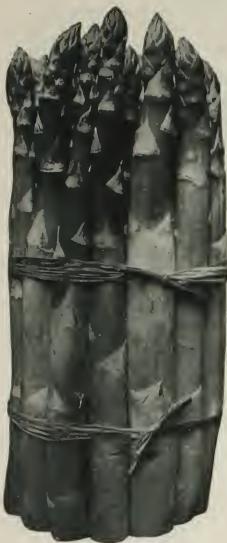

Cultivation.—Prepare a breadth of good well-manured soil. Drill the seeds in rows about 15 inches apart in May, and thin out to about 9 inches apart. They are ready for use when they attain the size of a small Turnip.

"The *Quite Content* Pea I had from you is a marvel; I have plenty of pods 7 inches long and the envy of all who see them. I think I have had about 70 people to see the peas, including head gardeners."—Mr. T. LAY.

"I have much pleasure in sending you a sample of *Quite Content* Peas from the seeds which I had from you. I am, indeed, pleased with them, there is such a splendid crop, and they are admired by everyone."—W. SILK, Esq.

Carters Address for all Correspondence, RAYNES PARK, LONDON, S.W.-1912.

CULINARY ROOTS AND PLANTS.

ASPARAGUS ROOTS.

Asparagus Roots should be planted in their beds directly they are received, as they deteriorate by being kept out of the ground.

Extra strong forcing roots can be supplied in December, and planting roots the end of March if the season is warm and forward; otherwise early in April.

CARTERS OVAL OR PLAIN-LEAVED ENDIVE.

We have been awarded Two First Class Certificates by the Royal Horticultural Society for our stocks of Endive.

Our Endives were included in the First Prize Collection of Vegetables exhibited at the Vegetable Conference of the Royal Horticultural Society.

The Cultivation of Endive.—Sow for early crops in middle of May, and for succession to beginning of August; transplant from the seed-bed into warm situations, and give protection to the late crops required for spring use. A simple method of blanching is to put an inverted pot over each plant and cover it with leaves or straw.

"With the productions from an Exhibitor's Collection of Seeds I made twelve entries at our show, and secured cleven First Prizes and one Special."—Mr. T. RANDALL, Cotgrave.

HERBS AND SUNDRY PLANTS.

The following price **6d.** and **1s.** per packet. Our assortment of 12 varieties, 5s.; 6 varieties, 3s.

Artichoke, Globe.-Sow on a gentle hot-bed early in March, plant out during May, or may be sown outdoors in April.

Balm.—Used for making balm tea for medicinal purposes, and in some districts for making wine.

Basil, Sweet | For seasoning, and flavouring soups.

Borage.—Grown for salads, and also used for claret cup.

Cardoon. - Sow in April or May on a sunny border; transplant into well-manured trenches in August or September, earth up and blanch in the same way as for Celery. The midrib of the leaf used in salads and soups.

Celeriac or Turnip-Rooted Celery, see pages 41 and 108.

Mixed

Chili, Small Red

Capsicum, Long Red Sow in heat end of February or beginning of March, prick out into small pots for growing on in greenhouse or frame, or they may be transplanted to a .. warm border.

Chervil.-Sow in March or April for summer, and again in July for winter use; thin out to about 6 inches apart. Excellent for garnishing and valuable for soups and salads.

Corn Salad or Lamb's Lettuce.—Sow in March and April for summer use, and during August for winter salads, in drills 8 inches apart and thin plants to 4 or 5 inches apart.

Chicory, Carters Improved.—Sow in April and May in good soil; thin out to about 6 inches apart. A splendid acquisition for salads.

Dandelion.-Very useful for winter salads. Sow in May, and thin to from 9 to 12 inches apart.

Egg Plant, Purple Sow during March in heat, pot off when 3 or 4 inches high, and when established harden off and place in White greenhouse for fruit to colour.

Fennel.—Used for fish sauce and for garnishing.

Lavender. - Grown for its aromatic flowers.

Marjoram, Pot ! Used for stuffings and Sweet Knotted, for flavouring soups.

Potato Seed.—Will produce some seedlings of great merit.

Purslain, Golden) The young shoots and leaves are Green | used in salads.

Rampion-Sow on very fine soil in April or May. The leaves are used for salads and by some cooked as Spinach, and the roots used as Radishes.

Rosemary.—Used for garnishing, and in some districts an infusion of the leaves is held to be very beneficial for relieving headache.

Sage.—One of the best known of savoury herbs for sauces and stuffings.

Savory, Summer (Used for flavouring soups, and a sprig will be found to impart a piquancy if inter ... | boiled with Peas and Beans.

Seakale.—Sow in drills during March and April from 12 to 15 inches apart, and thin out to 8 inches apart. Transplant in the following spring to well-manured ground, Per oz., **9d.**

Sorrel, Broad Leaved ! Leaves used in soups, salads, Common ...) and sauces.

Thyme.—For sauces, stuffings, and soups.

Whitloef.—Throws off great profusion of tender leaves, very useful for salads.

Wormwood.—Used as a tonic when infused as tea, very bitter.

LEEK.

266 FIRST PRIZES reported to us by customers.

Carters Holborn Model

(see Photograph).

The best both for exhibition and table.

The stems are remarkably solid, not quite so long as Carters Selected Musselburgh, of the elearest white colour, whilst the flavour is exceedingly delicate.

Price is. and is. 6d. per packet; 2s. 6d. per ounce.

HOLBORN MODEL LEEKS IN IRELAND.

BELFAST GARDENER'S ACHIEVEMENT. - In a recent issue of the Evening Telegraph we referred to a Leek measuring 3 ft. 6 in. in length which had been dug up at Bangor (Wales), and which was regarded as quite a monstrosity of its kind. We have just had delivered to us, however, two specimens of this indispensable domestic vegetable grown by Mr. A. M'Clure, gardener to J. J. Kirkpatrick, Esq., J.P., Kincraig, Belfast, which give the Welsh giant an easy beating in point of all-round measurement. One of the Leeks is exactly 4 ft. and the other 3 ft. 7 in. long, and the larger one measures 7 inches in eircumference at the base. While we question if anyone could be found gifted with a digestive apparatus sufficiently strong to properly assimilate the specimens referred to, we cannot but congratulate Mr. M'Clure on having achieved such a notable record in the department of agriculture,

CARTERS HOLBORN MODEL LEEK was a very prominent feature in the vegetable collections, which were awarded Three Gold Medals and Two Grand Prix at the Franco-British Exhibition, 1908.

CARTERS HOLBORN MODEL LEEK.

CARTERS SELECTED MUSSELBURGH LEEK.

LEEK .- Continued.

Carters Selected Musselburgh

(see Photograph).—A splendid selection of this well-known and popular variety; grows to large size, and is recommended for exhibition.

Price 1s. and 6d. per packet; 1s. 9d. per ounce.

Carters Welsh.—Fine large variety; great advance upon Welsh ordinary 3d. & o 6 o 9

Henry's Prize. — Late variety; of large size; very hardy 0 6 1 0

The Cultivation of Leek.—Sow February to April, and transplant into trenches of weil-manured soil, say I foot in depth, and 20 inches between the plants. In warm weather liberal dressings of liquid manure will be of service, and the plants should be afterwards carefully earthed up to blanch the stems. For exhibition, sow in January in boxes under glass, and transplant early into rich soil.

"Your seeds gave great satisfaction last year."— Mr. D. Inglis, Gardener to His Grace the Duke of Buccleuch.

"I am pleased to tell you, last year I took eleven firsts, nine seconds, and two third prizes from your seeds with numerous congratulations."—Mr. G. ALLAWAY.

Monthly Operations in the Garden, with Hints on the Cultivation of the Principal Flowers and Vegetables. Post Free, 6d.

CARTERS GIANT WHITE COS.

THIS GRAND LETTUCE IS SELF-FOLDING, AND REQUIRES NO TYING.

Carters Giant White Cos.—This remarkably fine lettuce becomes more popular every season, and is without doubt the best and finest flavoured Cos Lettuce in cultivation. Owing to the self-folding habit it possesses, no tying is required. The heads are very solid and crisp eating. It does not run to seed as quickly as other Cos varieties.

ONE HUNDRED AND FIFTY-ONE FIRST PRIZES REPORTED BY CUSTOMERS DURING THE PAST FEW SEASONS.

Price 6d., 1s., and 1s. 6d. per packet; 2s. 6d. per ounce.

Carters Jumbo Cos (see *Photograph*).—A distinct summer Lettuce of enormous size. During the hottest period of the year we have seen this Lettuce standing as firm as a rock, and many of the heads when fit to eat weighed from 5 to 6 lbs. each.

The Royal Horticultural Society, reporting its trials at Wisley, says:—"Foliage deep green; hearts immense, solid. Excellent flavour. Stood the drought well. Ready July 1st. The largest Lettuce in the collection (39 varieties)."

Our Lettuces were included in the First Prize Collection of Vegetables exhibited at the Vegetable Conference of the Royal Horticultural Society, and also in the Gold Medal Exhibit in 1904.

Price 6d., 1s., and 1s. 6d. per packet; 2s. 6d. per ounce.

CARTERS HOLBORN STANDARD LETTUCE.

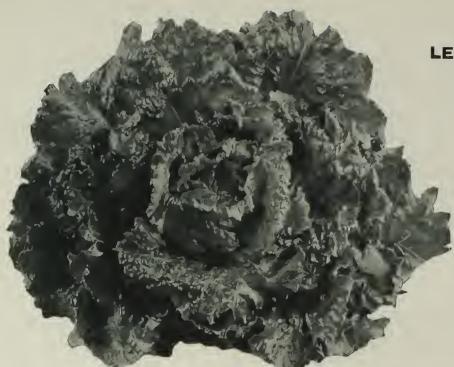

Carters Holborn Standard (see Photograph above).—A Lettuce of extraordinary size and duration. It forms well-developed heads in its early stages and is one of the very last to start for seed. Its leaves are crumpled and crisp, while it is very tender and of excellent flavour, and will provide an abundance of salad during the hottest of English summers. Eighty-one First Prizes reported during the past few seasons. The ROYAL HORTICULTURAL SOCIETY, reporting its trials at Wisley, says:—"Carters Holborn Standard; hearts large, solid, crisp, good flavour, with crumpled outer leaves tinged with brown. This variety stood the drought well without running to seed."

Price 1s. and 1s. 6d. per packet.

Carters Perpetual.—Award of Merit, Royal Horticultural Society. This is a large handsome Cabbage Lettuce, equally suitable for forcing and for open ground. Its great attraction to us is its resistance to drought. It produces very fine heads of a lively green colour and retains its crisp and tender flavour to the last, its deeply crumpled leaves giving it great substance. Sixteen First Prizes reported by customers last season. The ROYAL HORTICULTURAL SOCIETY, reporting its trials at Wisley, says:—"Carters Perpetual.—Foliage beautifully curled; a fine stock."

Price 6d., 1s., and 1s. 6d. per packet; 2s. 6d. per ounce.

Carters Address for all Correspondence, RAYNES PARK, LONDON, S.W.—1912.

CARTERS HARBINGER FORCING LETTUCE.

CABBAGE
LETTUCE.—Continued.

Carters HarbingerForcing (see Photograph).—Valuable on account of its extreme earliness. It is not a hearting variety, but being of quick growth produces a quantity of tender leaves which are so much in request for

Price **6d.** and **1s.** per packet; **2s. 6d.** per ounce.

early salads.

Carters Endive-Leaved.—This Lettuce is quite distinct. Its leaves are deeply serrated and laeiniated, which gives it the appearance of Endive—indeed, a prominent gardener suggested that it might be used in early summer salads, and few could tell but that it was Endive.

THE ROYAL HORTICULTURAL SOCIETY, reporting its trials at Wisley, says:—" Carters *Endive-Leaved*. Leaves beautifully cut and divided; a very handsome variety."

Price 6d. and 1s. per packet.

Carters Green-Fringed

(see Photograph).—Of a very delicate and peculiar shade of green, inner parts of the leaves being white; the edges are prettily fringed and serrated, the appearance being very striking and pleasing; useful summer variety.

Price 6d. and 1s. per packet.

CARTERS GREEN FRINGED LETTUCE.

CABBAGE LETTUCE.—Continued.

CARTERS ROUND-LEAVED CABBAGE LETTUCE.

Carters Round-Leaved (see Photograph).—A hardy flat-shaped variety that can be sown at almost any season; the heads are very compact and firm, solid and white; slow to run to seed. In our own gardens we have repeatedly seen this variety standing firm, when others have bolted.

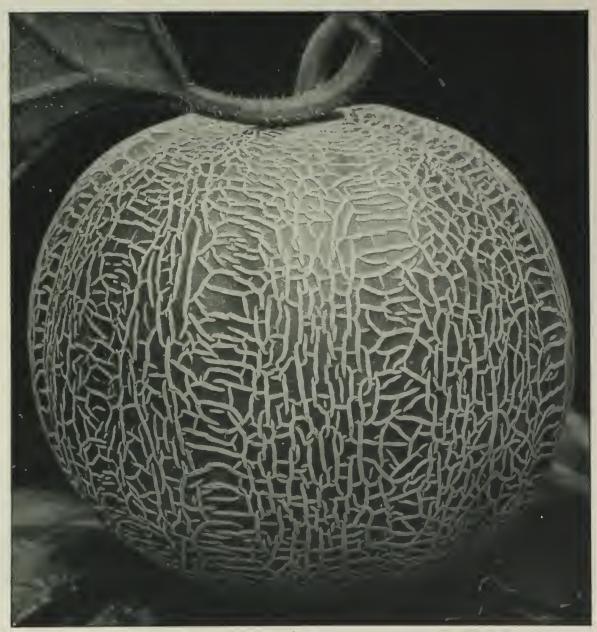

Price 6d. and 1s. per packet; 2s. 6d. per ounce.

Carters Longstander.—A distinct and valuable variety of great size. From its peculiar habit of growth it is less liable to decay and damage than any other cabbage variety. The colour of the leaf is pale green, and of the most delicious flavour and tenderness.

Price 6d. and 1s. per packet; 1s. 9d. per ounce.

Per oz,s, d. Per oz,s,	d.

per pkt., 6d. and 1s. — varietics per pkt., 3d. and 6d. o	10

The Cultivation of the Lettuce.—Sow in pans on a gentle heat in February, and prick out into a well-manured and warm border. Sow again during March in a protected situation out of doors for early use, and in succession to the end of August for late crops. Young and tender plants may be grown in boxes or frames, and pulled and caten when small; in this form they make a delicate salad. Water liberally in dry and warm weather.

NEW

CARTERS BARNETT HILL FAVOURITE MELON.

The many gratifying reports received from our customers have amply proved our confidence in introducing this grand new Melon and the demand is equally confirmatory of its merits. It is superbly netted, orange-yellow in colour, with white flesh and a splendid flavour; it is free setting and a perfect exhibition variety.

The raiser, Mr. A. Mitchelson, states that the Melon has a strong constitution, is a free setter, juicy and splendid flavour, above the average size, with a rich orange colour, handsomely netted, and is a grand exhibition variety.

Price 2s. 6d. and 3s. 6d. per packet.

Extract from Gardeners' Chronicle, August 7th, 1909:—MELON BARNETT HILL FAVOURITE.—The fruit of this variety much resembles Blenheim Orange. It has a rich yellow and handsomely netted rind, but white flesh. When the variety was first sent to the Committee last year for opinion, it was decided to try it at Wisley. Plants have been cultivated there this year, and a fruit was tasted at Wisley by a deputation from the Committee on the 27th ult. The fruit then proved to be so good it was unanimously recommended for an Award of Merit. This was granted at the full meeting of the Committee.

CARTERS EARL'S FAVOURITE MELON.

AWARDED A FIRST CLASS CERTIFICATE, ROYAL HORTICULTURAL SOCIETY.

TWENTY-NINE FIRST PRIZES REPORTED LAST SEASON.

This is without doubt the finest green-fleshed Melon grown; it is a strong grower, free setter, and the fruit is large and beautifully netted, whilst the flavour has been pronounced by many lovers of this luscious fruit to be the very best possible. Price 1s. 6d., 2s. 6d., and 3s. 6d. per packet.

"I thought you would like to see a sample of your Earl's Favourite Melon. They were grown in a cool frame by myself, an amateur. I cut 42 Melons off six plants. There is little doubt this is the best green-flesh Melon grown."—

R. P. Hughes, The Old House.

The Cultivation of Melon.—Sow for first erop in January, and plant when ready into pits or on slabs filled with good maiden loam and well rotted manure, adding a dressing of fine soil to the surface and bringing the plants as near the light and glass as possible. It is essential that a regular temperature be secured rather than a high degree of heat. Keep a moist buoyant atmosphere during growth and give air freely when fruit is ripening, checking the supply of water to develop flavour. The frame varieties are sown later, and kept under glass until the season is sufficiently advanced for them to be put out on a warm heap of soil in the frame.

CARTERS BLENHEIM ORANGE MELON.

The finest flavoured and most popular scarlet-flesh Melon in cultivation.

FIRST CLASS CERTIFICATE, ROYAL HORTICULTURAL SOCIETY.

Carters Blenheim Orange.—This Melon is remarkably prolific, has a grand constitution, is a very fine setter, and may be described as a perpetual bearer, ripening in a short space of time. The fruit is superbly netted, the flesh deep and solid, and a special and distinctive feature is the evenly-defined and thin rind. Seventy-two First Prizes reported by customers during the past few seasons.

Price 1s. 6d., 2s. 6d., and 3s. 6d. per packet.

CARTERS HARDY FRAME MELON.

It is many years since the Royal Horticultural Society awarded us their First Class Certificate for a Melon that could be easily grown without heat. In **Carters Hardy Frame** we offer a variety specially suitable for amateurs who do not possess the convenience necessary for cultivating the more tender Melons. The fruits are large, ribbed, and the flesh a rich scarlet colour.

"I should like to recommend your Hardy Frame Melon. This has been a great success; it bears profusely, sets well, and is very little trouble, and the fruits are of good size and satisfactory flavour. It should become a boom to all those growers who only have frame room at their disposal."—Mr. W. A. Cooκ, Head Gardener to Sir Edmund G. Loder, Bart.

Everyone who has a frame is recommended to give it a trial.

Price is. and is. 6d. per packet.

Carters Holborn Favourite.—Fruit of the largest size, roundish ovate; rind lemon colour, heavily netted; flesh, greenish white; flavour, sweet, melting, and juicy; habit of plant, strong and vigorous; a free setter and a great bearer.

Price 1s., 1s. 6d., and 2s. 6d. per packet.

Carters British Queen.—Best white-flesh Melon. This grand cream-flesh Melon is a cross between *Hero of Lockinge* and *Royal Ascot*, and was awarded the First Class Certificate of the Royal Horticultural Society. Pronounced by the Committee to be the very best flavoured white-flesh Melon ever submitted. Also awarded a Gold Medal, Royal Caledonian Horticultural Society, in association with other fruit exhibited from the Royal Gardens, Windsor.

Price 1s., 1s. 6d., 2s. 6d., and 3s. 6d. per packet.

Carters Green Gage. - A "perfect" green-flesh Melon; flavour delicious. Price 1s., 1s. 6d., and 2s. 6d. per packet.

Carters Amberwood and Read's Scarlet Flesh. Beauty.—A very handsome green-flesh Melon, the result of a cross between Hero of Lockinge Price 1s., 1s. 6d., and 2s. 6d. per packet.

Carters Emerald Gem.—Very prolific. Price 1s., 1s. 6d., and 2s. 6d. per packet.

The following sorts can also be supplied:-

Hero of Lockinge.—Pale flesh ... Gd. & I o largestre Hybrid.—White flesh ... Gd. & I o Syon House Perfection.—Green flesh Gd. & I c

CARTERS MUSHROOM SPAWN.

(SPECIAL "MILLTRACK" BRAND.)

Cultural Hints.

To grow Mushrooms successfully, the following requirements are essential: - Procure fresh stable manure (straw litter manure, not peat litter), shake out well, leaving as little straw as possible; the better the manure the better the bed will bear. After shaking out stack your short manure closely like as for the preparation of a hot-bed, and there let it remain for a week to have a good heating, then turn it over and place what has been outside the heap into the centre; repeat this turning at intervals of three days, four turnings should be sufficient, and if dry, use water enough to moisten it gradually at each turning, this will get the material into right condition for the beds, as moisture is one of the most important points to study and the right texture of the material depends almost entirely upon this proper state of moisture.

If you get your material right in this respect, whatever shape you make your beds, whether flat beds or ridges, you will not be likely to experience any trouble afterwards. It should be remarked here that the ideal temperature is 55° to 60°, but Mushrooms do come at a much lower temperature but very slowly; but a higher temperature than 60° should be avoided if possible.

CASH PRIZES FOR 1912.

James Carter & Co., Seedsmen to His Majesty the King, High Holborn, and Raynes Park, London, S.W., undertake, upon being furnished with certified evidence, to duplicate First, Second, or Third Money Awards made to the exhibitors who show the products of Seeds and Potatoes from purchases made by the exhibitor from this Catalogue above 10s. in value, and obtained direct from Messrs. Carters establishment during the twelve months ending June 30th, 1912. The said duplication will be limited to the value of the purchase but exhibits of exceptional merit will be treated with liberality at the option of Messrs. Carter.

The products to be of the exhibitor's own growth, and in case of any dispute as to purchase, &c., an invoice of the seeds purchased must be produced if required, and the specimens are to be staged in accordance with the regulations of the Society. This offer does not apply to special prizes offered by Firms and other Patrons.

Example.—If 10s, or 20s, are offered by the Society as Prizes for, say, the best dish of Peas, James Carter & Co. will award an equal amount if their customer gains one or other of them, providing his purchase extends to 10s, or 20s., and that he has carried out the above conditions.

Customers intending to claim the advantages of these Special Prizes must notify the fact to us a week before the day of the Show, stating the names of the Vegetables, Potatoes, or Flowers they intend to stage, when we will send neatly named cards, which must be exposed to view on the exhibits during the whole time of the Show, or if not we may withhold the prizes. We shall also send the applicant a sheet on which to record his prizes to save the Secretary unnecessary work.

IMPORTANT.—If this announcement does not appear in the Prize Schedule of the Horticultural Show in the intending Competitor's district, the offer must be considered cancelled. We are always pleased to hear from our Customers of their intention to compete, and in the event of their winning open prizes, we may decide to give them an honorarium for the trouble.

These Prizes are open to Messrs. Carters Customers, but not available to Market Growers, Seedsmen, Nurserymen, or Horticultural Traders.

PRIZES IN OPEN COMPETITIONS.

We have received the following records of Prize-winnings from our customers gained in open competition with the produce of our Vegetable and Flower Seeds at Horticultural Exhibitions in various parts of the Country, enabling us to compile an extraordinary list of successes. We regret that space will not permit extended reports, but we are always pleased to hear of our customers successes.

NEW AND STANDARD VARIETIES FOR SPRING SOWING.

CARTERS HOLBORN (see Photograph).—Equally valuable for exhibition and for table purposes. Perfect in shape, it grows to a large size, and is distinct in colour of skin from other Globe varieties. It is a capital keeper, and the delicate flavour nearly approaches that of the imported Spanish Onions sold by grocers and fruiterers. May also be sown in the autumn. Price 1s. and 6d. per packet; 2s. per ounce.

Carters Early Wonder.—A small globe Onion, maturing with great rapidity, thus leaving the ground vacant very early for the next crop; its keeping qualities are also remarkable.

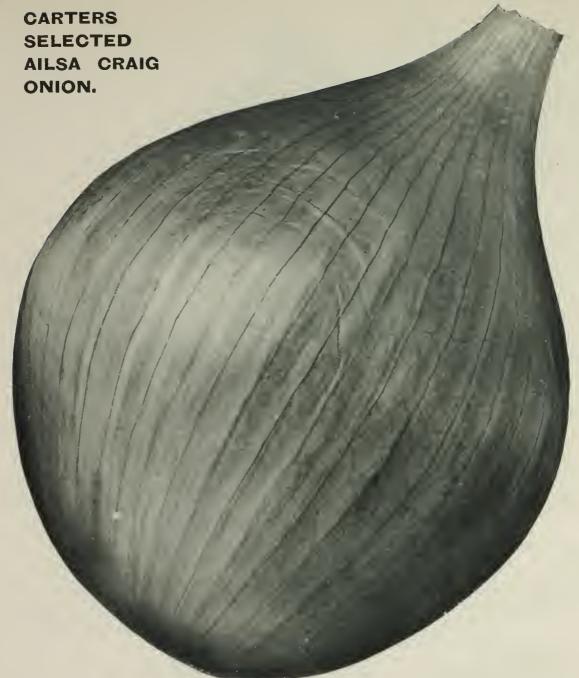

CROP FAILED.

Carters Tennis Ball.—This magnificent Onion is specially adapted for early sowing; the flavour is mild and delicate, and as an exhibition variety in summer it is invaluable. Price Is. and 6d. per packet; 2s. per ounce.

Carters Long Keeper.—Will remain sound the year round if properly kept. "I am sending some examples of your Long-keeping Onion, grown in 1900, and it is now October 5th, 1901. Gardeners about here hardly believe it."—J. L., BLACKHEATH.

Price 1s. and 6d. per packet; 2s. per ounce.

Carters Silver Ball.—A pretty, medium-sized white globe Onion of fine texture and mild flavour It makes a nice contrast on the exhibition table. Price 1s. and 6d. per packet; 2s per ounce.

Carters Selected Ailsa Craig (see Photograph above).—We offer a very fine strain of this popular Onion, which, on account of its enormous size, is in great demand amongst exhibitors of vegetables. It is a good keeper, and is much liked and recommended on account of its acceptable, delicate, and pungent flavour. Suitable for autumn or spring sowing. Three Hundred and Twelve First Prizes reported during the past few Seasons.

Price 6d., 1s., 1s. 6d., and 2s. 6d. per packet; 3s. 6d. per ounce.

Carters Record Onion increases in favour each season, and is already exceedingly popular. It can be sown either in the autumn or spring; but if large bulbs are desired, autumn sowing is recommended. It will be remembered that a specimen, illustrated in the *Gardening World*, turned the scale at $4\frac{1}{2}$ lbs.; this was probably the heaviest Onion ever grown.

THE LARGEST ONION GROWN.

"I grew *Record* Onions last year up to $2\frac{1}{2}$ lbs. in weight."—Mr. O. CLARIDGE, Oundle.

"I grew over 1½ tons of *Record* Onions from the ounce of seed I had from you last year."—Mr. HENRY SPICE, Market Gardener, Boston.

Price, 6d., 1s., 1s. 6d., and 2s. 6d. per packet; 3s. 6d. per ounce.

We hold records of 441 First Prizes having been gained by Customers.

Giant Lemon Rocca, 6d. and Is. per packet; Is. 6d. per ounce.

The Cultivation of Onion.—The ground cannot well be too rich for this crop, nor the soil in too fine a condition. February and March are the chief seasons for sowing. The soil must be made firm before the operation is undertaken in either beds or drills. The seed should be sown thinly and covered lightly, the drills 12 inches apart, and the young Onions thinned out to about 6 inches apart, according to the variety. In very dry weather a good watering is very beneficial. Growers of Onions for exhibition generally transplant, and this is also a sure means of checking the onion grub, so troublesome in some districts. Some of the larger growing varieties are generally sown in autumn and transplanted in spring, when under fair conditions enormous exhibition specimens are obtained.

CARTERS CRESTED BOUQUET PARSLEY.

A DISTINCT SUPERB PARSLEY.

Carters Crested Bouquet (see Photograph).—A Parsley of very attractive appearance, both in the garden and on the table; of very dwarf compact growth, all its strength being thrown into the exquisite curls of its leaves, giving it a pretty crested appearance; without doubt the most perfect variety in cultivation. The Royal Horticultural Society's report at Wisley reads:—"Carters Crested Bouquet Parsley. A beautifully deep curled variety of sturdy, compact habit."

Price Is. and Is. 6d. per packet; 2s. 6d. per ounce.

Carters Fern-Leaved Parsley.—Exquisitely perfect in form and colour; quite fern-like, and highly ornamental; for garnishing purposes it is ideal.

Price 6d. and 1s. per packet; 1s. 6d. per ounce.

Carters Parsleys gained Three Awards of Merit, R.H.S., 1908.

The Cultivation of Parsley.—Sow the seeds thinly in beds any time from February until the end of June. In dry seasons it is an advantage to water the beds, as the seeds will sometimes lie a long while dormant.

CARTERS PERPETUAL PARSLEY.

Carters Perpetual (see Photograph).—A distinct and valuable curled variety that does not annually run to seed. It has stood with us upon the same land for four years before seeding.

Price 6d. and 1s. per packet; 1s. 6d. per ounce.

Carters Emerald Green.—Award of Merit R.H.S. This excellent stock of Parsley is becoming very popular, and was picked out by the Committee of the R.H.S., 1908, as being worthy of an Award of Merit. The colour is of a very rich deep green; habit taller and more branching than our celebrated Champion Moss Curled it is also very quick in developing and should prove of great value to market growers.

Price 6d. and 1s. per packet; 1s. 6d. per ounce.

Price 6d. per packet; 1s. per ounce.

CARTERS MALTESE PARSNIP

PARSNIP.

CARTERS MALTESE PARSNIP.

A SUPERB GIANT PARSNIP FOR EXHIBITION OR TABLE USE.

Carters Maltese (see Photograph).—We HOLD RECORDS OF 389 FIRST PRIZES HAVING BEEN TAKEN DURING THE PAST FEW SEASONS.

We are confident in stating that this highly selected strain cannot be surpassed, either for size or flavour; the roots which attain to a very large size being quite as tender and sweet flavoured as most varieties which do not reach one-half the size.

Price 3d. and 6d. per packet; 9d. per ounce.

"Your seeds turned out splendidly last year; I had wonderful crops, some of the *Maltese* Parsnips weighed 4 lbs. 2 ozs. each and were quite sweet and succulent, not a bit strong in consequence of the size."—Mrs. Phillips, Rathfarnham.

"I am pleased to tell you that I have been very successful with your seeds. On Thursday last I took 25 First and 12 Second Prizes. I think your Maltese Parsnips can't be matched for Exhibition. I grew them 5 feet long, beautifully clean. Your Model Leek is also a splendid one for Exhibition."—Mr. A. E. Burge, The Gardens, Manor House, Charmouth.

The Cultivation of Parsnip.—Sow the seed early in March as soon as the season will permit. The ground should be well manured and deeply trenched; the drills about 15 inches apart, and the plants thinned out the same distance apart.

CARTERS HOLBORN MARROW PARSNIP.

CARTERS HOLBORN MARROW PARSNIP.

A SWEET DELICATE-FLESHED VARIETY.

Carters Holborn Marrow

(see Photograph).—A truly refined Parsnip. When lifted it leaves the ground clean, smooth, and well shaped. It is not so large in growth as our *Maltese*, but its flavour is unusually marrow-like and delicate. Our picture very inadequately depicts its merits.

6d. per packet; is. per ounce.

THE ROYAL HORTICULTURAL SOCIETY, reporting its trials at the Experimental Grounds, says:—"Roots thick, handsome, and not too large, but just the size and shape a Parsnip should be."

"The Holborn Marrow Parsnip is the most delicious I ever tasted, and it deserves all you say about it."—J. FREEMAN, Esq., Chard.

"I use no other seeds than yours for my showing purposes, and am pleased to be able to tell you that I have had very excellent results up to the present. I have recently taken up a carrot grown from your *Red Elephant* seed 2\frac{3}{4} lbs. in weight."—L. W. H. Wheeler, Esq.

SEEDS FOR ABROAD.

Collections carefully arranged and suitably packed for all climates. By our special patent process of exhausting the dampness (not only from the seeds themselves, but also from the Packing Paper) the heat and

moisture of the Tropics is negatived, and the germ lies dormant until the tin is unpacked and the Seed sown.

FURTHER PARTICULARS OF SEEDS FOR ABROAD, see page 263.

EARLIEST GARDEN PEAS.

Height 1 foot to 15 inches.

Carters
Eight Weeks,

or
Border Work.

The earliest

Border Pea in

the World.

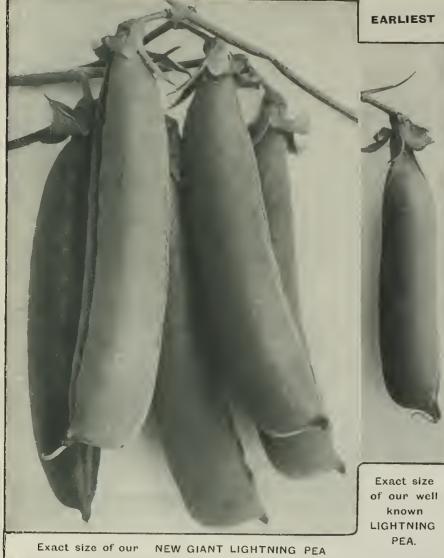

Carters Eight Weeks proved again to be the earliest Pea of all in our Gardens last year.

Carters Eight Weeks (Green Round, 15 inches).—The Earliest Dwarf Pea in the world. A very hardy Marrowfat, possessing all the good points of the best type American Wonder, which was one of its parents. As both a forcing and an early border variety it has become a boon to gardeners whose demands are heavy early in the season. The seed is slightly dented, and of the same colour as its other parent William the First. The pods are freely produced, and well filled with sweet-tasting peas. It is a splendid forcer.

Price 2s. per pint, 3s. 6d. per quart, 1s. per packet.

Carters Forcing Pea (Wrinkled Marrowfat, 1 foot).—A valuable Marrowfat Pea for under-glass culture. Its stocky growth is rarely more than 1 foot in height. It commends itself not only to professional gardeners who are required to produce Peas nearly the year round, but also to amateurs having a greenhouse or vinery doing practically nothing during the winter months, and who can, with this sturdy Pea, raise supplies for their table very early in the year.

Price 1s. 6d. per pint, 2s. 6d. per quart.

"GIANT"
LIGHTNING and
CARTERS
"GIANT"
BLUE
EXPRESS
PEAS.

New Large-podded Early Round Peas.

It is now many years since our House first introduced Carters Lightning (white round) and Carters Express (blue round), two Peas which soon became popular as the earliest of the white and blue round section.

After several years' patient labour we have had pleasure to introduce the above magnificent Peas, "Giant" Lightning and "Giant" Express. There is no doubt that these types will speedily displace the smaller podded varieties, as in addition to the increased size of pod the haulm is stronger, the cropping properties are much heavier, and the flavour is superior to the older varieties.

In large establishments where Peas are required very early, these grand *Giant* introductions will be much appreciated, as it is well known that the round Peas are hardier and generally can be sown earlier than the wrinkled marrowfat varieties.

Carters "Giant" Lightning (White Round, 3 to 4 feet).—The new large-podded early white round Pea. Hardy. See Photograph above.

Price 2s. per pint, 3s. 6d. per quart, 1s. per packet.

Carters "Giant" Express (Blue Round, 3 to 4 feet). Identical in size with "Giant" Lightning. The new large-podded early blue round Pea. Height, 3 to 4 feet.

Price 2s. per pint, 3s. 6d. per quart, 1s. per packet.

CARTERS EARLY MORN PEA.

A superb First Early Giant Marrowfat. For full particulars, see opposite page.

Carters Seedsmen by Appointment to His Majesty the King-High Holborn, London.

EARLIEST GARDEN PEAS.—Continued.

Height 1 to 4 feet.

Carters Early Morn Pea (Wrinkled Marrowfat, 3 feet, see Photograph opposite).—This grand introduction maintains its position as one of the best early Marrowfat Peas ever raised. Although so early the seed should not be sown until the soil is in a fit state to receive it in April, as it is a rapid grower. The pods are very large and well filled, and are often ready to pick during June.

Price 2s. per pint, 3s. 6d. per quart, 1s. per packet.

Carters Blue Express (Blue Round, 2½ feet).—A re-selected stock of an early round-seeded variety and a very productive bearer, the pods well filled with fine flavoured Peas, of a distinct colour when boiled.

Priee 1s. 9d. per pint, 3s. per quart.

Carters Daylight (Wrinkled Marrowfat, 21/2 feet).—A fine Marrowfat, as early as Lightning, with exhibition pods.

Price 2s. per pint, 3s. 6d. per quart, 1s. per packet.

- Carters Lightning (Round Seeded, 2½ feet).—A re-selected stock of the earliest white round-seeded Pea.

 Price 2s. per pint, 3s. 6d. per quart, 1s. per packet.
- **Carters Diamond** (White Wrinkled, 1 foot).—An extra early White Wrinkled Gem, as early as William Hurst, with larger pods, and very prolific. A grand Pea for border work.

Price 1s. 9d. per pint, 3s. per quart.

Carters Dwarf Favourite (Wrinkled Marrowfat, 1½ foot).—For gardens where space is an object this is the Pea to grow. It has rich deep-green pods well filled with delicious Marrowfat Peas. Very prolific.

Price 1s. 9d. per pint, 3s. per quart.

Carters Superior (*Blue Round*, 4 *feet*).—A highly-selected early blue-seeded Pea, with large pods. Closely follows *Blue Express*. An excellent Pea for market work.

Price 1s. 6d. per pint, 2s. 6d. per quart.

Carters Springtide (Wrinkled Marrowfat, $2\frac{1}{2}$ to 3 feet).—A first early Marrow, as early as Lightning, with dark green well filled pods.

Price 1s. 6d. per pint, 2s. 6d. per quart.

Carters American Wonder.—Re-selected (Wrinkled Marrowfat, 18 inches).—An early dwarf Marrow. Our stock of this variety is highly selected, and is in every way far superior to the older stock, having pods nearly as large again; handsome in appearance, with peas of very fine flavour.

Price 1s. 6d. per pint, 2s. 6d. per quart.

The Pilot.—Carters re-selected (*Round Sceded*, 3 feet).—This well-known variety has been earefully selected by us, and is without question the most perfect stock on the market; it produces large, well filled, deep coloured pods, about the size of *Gradus*.

Price 2s. per pint, 3s. 6d. per quart, 1s. per packet.

Gradus (Wrinkled Marrowfat, 4 feet).—An early large podded Marrow Pea. Large deep green pods, good flavour.

Priee 1s. 9d. per pint, 3s. per quart.

William the First.—Carters re-selected (Round Seeded, 4 feet).—Long handsome pods, quite hardy.

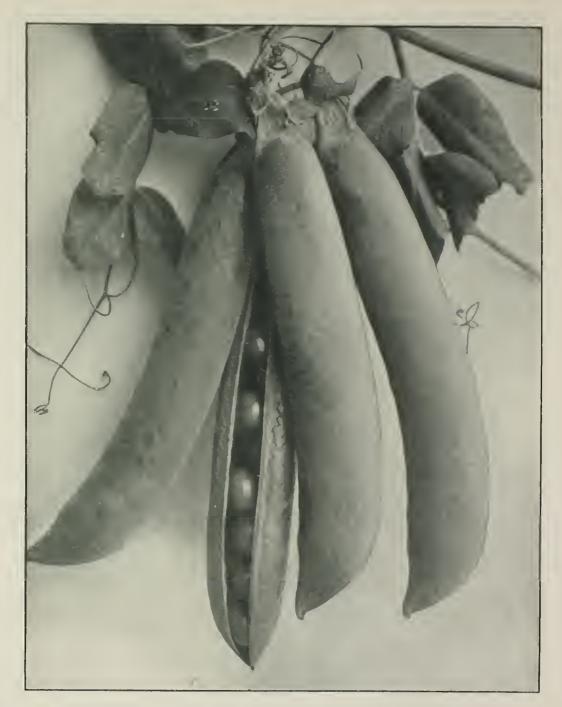

Price 2s per quart.

Carters Correspondence, RAYNES PARK, LONDON, S.W. - 1912.

CARTERS MAYFLOWER (Wrinkled Marrowfat, 18 inches).—A superb Dwarf first early Marrowfat Pea. A cross between Daisy and William Hurst. This is a grand thing, with long pointed pods twice the size of William Hurst and much more freely produced; being one of the most prolific dwarf peas grown. The bine is robust, possessing the same healthy character as its most famous parent Daisy, with pods of similar colour to that variety. Seed wrinkled. Everyone should try this fine introduction, which is but very inadequately shown in the photograph.

Price 2s. per pint, 3s. 6d. per quart, 1s. per packet.

NOVELTY

PEA -Carters Re-selected (Wrinkled Marrowfat, 1½ foot). This fine new Pea
has been highly selected by us, and the stock we now offer is saved from deep green
giant-podded plants only. It is very early, closely following Eight Weeks. Its deep
green pods are long and curved, and of most excellent flavour. Is. per packet (about 250 seeds).

CARTERS COLLECTION OF GREEN PEAS June to November see page 101.

CARTERS LITTLE MARVEL PEA (Wrinkled Marrowfat, 18 inches).—This is one of the best amongst the Early Dwarf section, bearing a very heavy crop of blunt-ended dark pods, tightly filled with large Peas of excellent flavour. An improvement upon the English Wonder class. First early green wrinkled.

Price 2s. per pint, 3s. 6d. per quart, 1s. per packet.

FOR COLLECTIONS OF PEAS, please see pages 101 and 103.

"In noting these one may include some of the earlier varieties as well as later ones, and one of the best, if not the best, for early crops, is *Eight-weeks*, sent out by the Holborn firm; those who have grown it speak very highly of it. A pea suitable to follow this is *Little Marvel*, a wrinkled Marrow, 18 inches in height; this is so highly esteemed by gardeners that they grow successional crops through the season."—The Gardeners' Magazine, October 28th, 1911.

"I have strongly recommended your Little Marvel Pea; without a doubt it is the best as an early variety I have had from you the last 20 years I have traded with you."—G. DAKIN, Gardener to C. Wright, Esq.

NOTICE.—For our Collection Green Peas-June to November—see page 101.

CARTERS SNOWDROP PEA.

See next page for description and reports.

Carters Seedsmen by Appointment to His Majesty the King-High Holborn, London.

EARLIEST GARDEN PEAS-Continued.

Height, 15 inches to 4 feet.

NOVELTY.

Carters Snowdrop (Wrinkled Marrowfat, 4 feet). Award of Merit R.H.S. A cross between Early Morn and Express (Seedling No. 208).—This first early Pea can best be described as an early Ne Plus Ultra, having pods similar in shape and colour to that variety; it is a few days later than our Early Morn, growing rather

taller, but possessing the robust constitution of its other parent (Express); for early sowing we can strongly recommend.

Price 1s. per packet (about 250 seeds). Stock limited.

The Right Hon. Earl of Mansfield's Head Gardener says:—"Carters Snowdrop Pea. A most excellent early pea, height about 4 feet, strong grower, very free bearer, pods medium size, well filled with good peas of excellent quality; ean strongly recommend it."—Mr. W. WARD.

The Right Hon. The Earl of Kimberley's Head Gardener says:—"A good early heavy eropper, as early as Early Morn, pods well filled, robust constitution."—Mr. W. N. THURSTON, Witton Park, North Walsham, Norfolk."

The Right Hon. Viscount Midleton's Head Gardener says:—"Snowdrop Pea. Height 4 feet. This is a very strong, robust variety for early work; the pods are rather blunt, but are very elosely packed, and is a good succession to Early Morn. The flavour is quite distinct, and is excellent quality for the general use of a large garden."—Mr. QUAINTON, The Gardens, Peper Harrow Park, Godalming.

The Right Hon. W. H. Long's Head Gardener says:—" Pea Carters Snowdrop is a promising new first early, producing freely large Ne Plus Ultra like pods, which are filled with large seed of superior colour and flavour. It grows with us about 4 feet in height."—Mr. W. Strugnell., Rood Ashton, Trowbridge.

The Hon. Vicary Gibbs' Head Gardener says:—"Snowdrop, one of the best, good shape pods, splendid variety for small gardens."—Mr. Edwin Beckett, Aldenham House, Elstree, Herts.

Admiral Brand's Head Gardener says:—"Snowdrop, a very fine early pea with abundance of fine dark square pods, containing 9 peas in most pods; this, 1 consider, fills a want in giving the true marrow flavour of the old Magnum Bonum. It has a splendid constitution, and will certainly rank as one of the best early peas."—Mr. W. BACK, Glynde Place, Lewes, Sussex.

Carters Edward VII. (Wrinkled Marrowfat, 3 feet). In the trials of the Royal Horticultural Society we were granted an Award of Merit for this superb early Marrow Pea. It is a first-class representative of the forward section of Marrowfats, but has Ne Plus Ultra shaped pods of a beautiful lustrous green, filled with fine, large, sweet-eating peas.

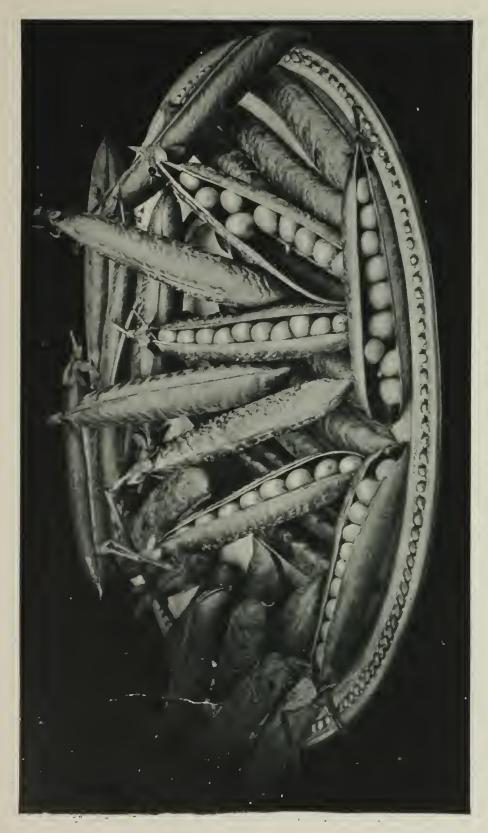

Price 1s. 6d. per pint, 2s. 6d. per quart.

Carters King of the Earlies (*Wrinkled Marrowfat*, 18 inches). This early Pea is a cross between our well-known *Daisy* and another first early sweet Marrowfat, and was raised at the Royal Gardens, Windsor. It produces a robust haulm from 15 to 18 inches in length, covered with giant pods.

Price 1s 9d. per pint, 3s. per quart.

Collections of Peas, please see pages 101 and 103.

A STERLING FIRST EARLY.

Carters Daffodil (Wrinkled Marrowfat, 18 inches). A dwarf and very prolific Marrowfat Pea with the highest possible commendations, being of the rich deep colour of the Stratagem type, and a decided improvement upon British Wonder and the new types of English Wonder. It is a first early of bushy habit, and about 18 inches, obviating the necessity for sticks, and rendering it serviceable for borders. Its pods are larger than most of the well-known Peas of the early dwarf class, while the quality and flavour of the Pea is delicious.

Price 2s. per pint, 3s. 6d. per quart, 1s. per packet.

Carters for all RAYNES PARK, LONDON, S. W. - 1912.

CARTERS "QUITE CONTENT" MARROWFAT PEA. A GIANT-PODDED MAIN CROP.

Please see illustration on next pages.

Awarded the FIRST CLASS CERTIFICATE of the ROYAL HORTICULTURAL SOCIETY, 1906.

Pods longer and larger than any other Pea in cultivation.

SOME HONOURS, FIRST PRIZES, AND REPORTS.

FIRST CLASS CERTIFICATE, ROYAL HORTICULTURAL SOCIETY.
GOLD MEDAL, SHREWSBURY. GOLD MEDAL, WOLVERHAMPTON.

During the past few seasons this grand Exhibition Pea has taken 308 First Prizes at all the important shows throughout the country.

His Grace The Duke of Portland's Head Gardener says:—"I have tried Carters Quite Content Pea, which is without doubt the largest podded Pea I know of."—Mr. James Gibson, The Gardens, Welbeck.

His Grace The Duke of Buccleuch's Head Gardener says:—"Quite Content is all you claim for it, and was the most popular Exhibition Pea this last season."—Mr. WHYTOCK, The Gardens, Dalkeith Palace.

The Right Hon. The Earl of Onslow's Head Gardener says:—"The Pea Quite Content is excellent in every way."—Mr. II. W. BLAKE, The Gardens, Clandon Park, Guildford.

The Right Hon. The Earl of Lathom's Head Gardener says:—"Carters Quite Content Pea is truly a magnificent Pea for exhibition and of excellent table quality."—Mr. B. Ashton, The Gardens, Lathom House.

The Right Hon. The Earl of Lytton's Head Gardener says:—"In all ways a splendid pea, very large pods, well filled, excellent flavour, quite indispensable for all exhibitors."—Mr. A. E. CRESSWELL, Knebworth House, Knebworth, Heits.

The Right Hon. Viscount Portman's Head Gardener says:—"A tall-growing variety. Pods large and straight, containing from 10 to 12 seeds in each."—Mr. II. C. Prinsep, The Gardens, Buxted Park.

The Right Hon. Viscount Midleton's Head Gardener says:—"Quive Content Pca. I have never seen this fine exhibition Pea do better than it has done this year. It has been my heaviest cropper, pods of enormous size, many containing II Peas, chiefly in pairs. It is a Pea that requires plenty of room as its growth is so strong, and if planted on trenched ground will pay for the extra amount of labour by the erop it will produce."—Mr. QUAINTON, The Gardens, Peper Harrow Park. Godalming.

The Right Hon. W. H. Long's Head Gardener says:—"The exhibitor can ill afford to be without this pea among peas (Quite Content). We have seen some enviously fine dishes exhibited on many occasions this year."—Mr. W. STRUGNELL, Rood Ashton, Trowbridge."

Sir Edmund Loder's Head Gardener says:—"Quite Content has been better than ever, wonderfully large pods eausing every person who sees it to exclaim 'What a marvellous pea!" I have seen it at several first-class shows, and it has always been to the front."—Mr. W. A. Cook, The Gardens, Leonardslee.

Price 3s. 6d. per pint, 2s. per ½-pint, 1s. per packet.

- "I won First Prize at Tavistock with 50 of your Quite Content Pea,"—COLONEL H. F. COLERIDGE.
- "I am pleased to say that I have taken First Prize at Great Veldham with your Quite Content Pea."—Mr. R. J. LUCKING, Gardener to J. F. Benson, Esq.
- "I took First Prize the last two years at the Keymer Flower Show with your Quite Content Pea."—

 Mr. WALTER ANTHONY.
- "I must tell you I took First Prize with your Quite Content Pea against strong competition at our Show,"—Mr. G. VINES.
- "Having given Carters' Quite Content Pea a trial this season, I would like to state that I found it very satisfactory; it is a strong grower, and produces pods of very large size in pairs, each pod containing 9 to 11 fine peas of excellent flavour, and it is a capital eropper."—Mr. J. DYMOCK, Gardener to G. D. Faber, Esq.
- "Have been a showman for the last 18 years, but never before have I had such a dish of Peas on the show table. I had pods $7\frac{1}{2}$ inches long containing 11 peas in each pod."—

Mr. J. W. SURRIDGE.

For further particulars of this fine Marrowfat Pea, please see pages 86 and 87.

Carters Quite Content (Maincrop Marrowfat. Height, 5 to 6 feet).—This grand Pea, which has caused such a stir in the Horticultural world, is the outcome of a cross between Alderman and Edwin Beckett. In general character it resembles the former, but the pods are considerably larger than either parent. In our own trials it has amply demonstrated its wonderful superiority, and when exhibited in the open class at Shrewsbury, 1906, it easily secured the FIRST PRIZE, and was pronounced by leading experts to be without doubt the finest Pea ever seen. It is exceedingly prolific, and the pods hang mostly in pairs.

Price 3s. 6d. per pint, 2s
For expert opinion of this fin

We would respectfully draw our customers' attention to the following:—"The true and original Pea Quite Content, as sent out by Messrs. James Carter and Co., is a maincrop variety, height 6 feet, foliage and pod deep green, pod 7 inches to 7½ inches long, hanging mostly in pairs, and is quite distinct from all other Peas. We are requested to make this statement, as we are given to understand that a Pea, which has not all the claims of Carters Quite Content, has been widely distributed this season by others, either by accident or design, thereby causing much correspondence and annoyance to the growers and Messrs. Carter alike. Messrs. Carters Quite Content was distributed this season in their sealed packets, and has each year been earefully re-selected."—The Garden, September, 1508.

per half-pint, 1s. per packet.

Carters Seedsmen by Appointment to His Majesty the King-High Helborn, London.

SECOND EARLY GARDEN PEAS,

.Height, 11/4 to 5 feet.

CARTERS DAISY (Wrinkled, 15 inches, see Photograph on opposite page).—First Class Certificate, Royal Horticultural Society.—This grand dwarf Marrowfat Pea has been before the public for some years, and still stands at the head, as confirmed by the great independent trial of Peas conducted by the Royal Horticultural Society of England in 1902. Their experiment comprised over 80 varieties, and CARTERS DAISY gained the First Class Certificate given by the Society. CARTERS DAISY PEA is an early maincrop, growing about 15 inches high. The haulm is very robust and the crop of giant, well-filled pods of good colour is enormous.

Price 2s. per pint, 3s. 6d. per quart, 1s. per packet.

Mr. J. Mayne, of Bieton Gardens, Devonshire, in the Gardeners' Chronicle writes:—"Carters Daisy Pea.—So many satisfactory accounts have been given in these pages of this variety of Pea that it may seem superfluous again to write its praise, but having grown it for several seasons I can confidently recommend it as one of the best second early dwarf varieties at the present time. It is of robust growth, reaching nearly 3 feet in height last year, but in ordinary summers the plants do not get much above 2 feet, and are literally crowded with fine pods nearly 6 inches long, each containing from 8 to 10 fine Peas of excellent flavour. I have been much impressed by the length of time the pods will hang without getting dry, having saved the crop for seed. The pods are usually borne in pairs, and the raisers are certainly to be congratulated upon giving us such a good Pea. I advise those who have not yet grown this Pea to procure a quart of seeds from the raisers and sow as soon as the state of the soil will allow, and I will vouch for it they will not be disappointed."

Carters Evergreen (Delicatesse) (*Wrinkled*, 2½ feet). Award of Merit, R.H.S., 1908.—A larger and deep green podded selection of our well-known *Petit Pois* (*Delicatesse*) which we introduce to our customers' notice as being selected for its regular and heavy cropping properties.

Price 2s. 6d. per pint.

NEW

Giant Delicatesse (*Wrinkled 3 to 4 feet*).—Remarkably prolific and hardy; possesses same prolific habit as our *Delicatesse*, hence its title, but pods are twice the size. It is as its name suggests a giant *Delicatesse*.

Price 2s. 6d. per pint.

FRENCH PEAS.

Carters Petit Pois (*Delicatesse*).—This Pea has gained a great renown among the continental connoisseurs, who regard it as a delicacy. It is a second early wrinkled, with haulm about 3 feet; very prolific; long curved pods hanging in pairs.

Price 1s. 3d. per pint, 2s. per quart.

Carters Giant Edible Podded.—Our friends on the Continent have assiduously developed the Edible Podded Pea section, and have thus obtained a delicious vegetable not sufficiently well known in this country. The variety we now offer grows about 5 feet high, with very broad fleshy pods.

Price is. 9d. per pint, 3s. per quart.

CARTERS INTERNATIONAL PEA.

For description, see opposite page.

NOVELTY.

Carters International (Wrinkled Marrowfat, 5 to 6 feet, see Photograph on opposite page). Award of Merit R.H.S., 1908.—This magnificent Pea is the result of a cross between our well-known Early Morn and Duke of Albany. It is quite distinct both in shape of pod and habit; the pods are of a rich deep green, containing 11 Peas of excellent

size and flavour; this is undoubtedly the largest curved podded Marrowfat Pea at present offered to the public, and we are anticipating a large demand. Second early.

Pods of this variety (under Seedling No. 211) were exhibited at the Royal Agricultural Society's Show at Newcastle, and at the Royal Horticultural Society's Show at Holland House, and attracted much favourable attention.

Price 2s. 6d. per pint. Stock limited.

We give a few reports on Carters International Pea (Seedling No. 211):—

His Grace The Duke of Buccleuch's Head Gardener says :- "International Pea is a good exhibition Pea, pods 6 inches long, containing 10 Peas, equal sized, good colour, fine flavour. This Pea has cropped better than some other good Peas this adverse season."-Mr. JAMES WHYTOCK, Dalkeith, N.B.

The Right Hon. The Earl of Sandwich's Head Gardener says :- "I consider the International Pea a grand second early, very heavy eropper; pods large, averaging nine and ten Peas in a pod of first-class quality."—Mr. HANSFORD, The Gardens, Hooke Court, Beaminster.

The Right Hon. The Earl of Kimberley's Head Gardener says: -- "International Pea. Very good quality, growing 5 feet high; the pods a dark green and well filled; heavy cropper. A Pea worth growing."—Mr. W. N. Thurston, Witton Park, North Walsham, Norfolk.

The Right Hon. The Earl of Mansfield's Head Gardener says: - "Carters International. This is a first-class Pea for second early, of fine strong haulm, very free cropper, large pods of fine large Peas, about nine to the pod; excellent in quality, is well worth a place in any garden; tall grower."-Mr. W. WARD.

The Right Hon. The Earl of Abingdon's Head Gardener says: - "International Pea is one of the best Peas I know of; good cropper and splendid quality, running Quite Content very close,"—Mr. W. Brown, Wytham Abbey, Oxford.

The Right Hon. The Earl of Galloway's Head Gardener says :- "International Pea. A very promising variety, which arrives at maturity early, has large well-filled pods; quality all that can be desired."—Mr. JAMES DAY, The Gardens, Garliestown, Wigtownshire,

The Right Hon. Viscount Midleton's Head Gardener says :- "International Pea, Height, 6 feet. This variety has done remarkably well with me this season, having extra strong growth, the pods being very dark green, long and eurved, chiefly in pairs, average 10, of excellent flavour. This is a very heavy cropper for a second early, and for exhibition purposes eannot be excelled, coming next to Quite Content in my estimation. Can speak very highly of it as one of the best in cultivation."— Mr. QUAINTON, The Gardens, Peper Harrow Park, Godalming.

The Right Hon. Viscount Portman's Head Gardener says: - "This is an excellent second early variety growing about 6 feet high; the haulm is robust, and plant a good constitution; foliage large, light green mottled; pods large, after the Duke of Albany type, but earlier. A tall Pea of first-rate quality."—Mr. PRINSEP, The Gardens, Buxted Park, Uekfield.

Sir Edmund Loder's Head Gardener says :- "This Pea has done extraordinarily well this season. It is quite distinct, and has gained a good name hereabouts. I have given a few seeds to small growers, who were charmed with it. It had 10 and 11 Peas in a pod, of a beautiful green, had a true Marrowfat flavour; bears in pairs, and most prolifie. It has certainly come to stry."-Mr. W. A. Cook, The Gardens, Leonardslee, Horsham.

Admiral Brand's Head Gardener says :- "International, surely the last word as far as size and quality are concerned, free cropping, hanging mostly in pairs, with fine dark marbled foliage, withstanding mildew well. Height, 5 feet. This is a Pea that must push its way to front rank; indispensable to exhibitors, many of the pods over 6 inches in length."-Mr. W. BACK, Glynde Place, Lewes, Sussex.

"A fine bearer and a strong grower; the flavour of the Peas should attract particular notice as the best or that class."-Mr. JAMES LAWSON, The Gardens, Horticultural College, Swanley.

CARTERS BUTTERCUP PEA

(Round Blue, 11 to 2 feet.)

A hardy type of *Daisy*. Pea; may be described as an early Maincrop; fine robust habit, long well-filled pods, produced in pairs, averaging 10 Peas in each; remarkably free bearing. The large deep green seed, which is almost round, retains the sweet marrowfat flavour when cooked.

Price 2s. per pint;
3s. 6d. per quart;
Is. per packet.

Hints on Cultivation.—Early round Peas may be sown out of doors any time from November onwards, but the spring is generally the season when the largest quantities of both early and Main Crop Marrow Peas are put in, extending to June for the latest crops. They thrive best in ground that has been deeply trenched and manured for a previous crop; the seeds should be planted from 1½ to 3 inches deep, in either single or double rows, and the taller varieties must be staked when they are from 4 to 6 inches high; the tallest kinds should not be less than 6 feet apart in rows, and the dwarf varieties half this distance. Peas will stand a good deal of drought if the roots find their way into some nice rich material.

REDUCED IN SIZE.

CARTERS COMMONWEALTH (Wrinkled Marrowfat, 2 feet).

We have a most perfect re-selected stock of this popular Maincrop Pea. It is a strong grower and a prolific bearer of large Strongly recommended. exhibition pods of a fine deep colour, besides being a first-class table Pea.

Price 2s. per pint, 3s. 6d. per quart, 1s. per packet.

Cortes of Address for all RAVNES PARK, LONDON, S. 14. - 1912.

CARTERS HARVESTMAN PEA.

A Superior Maincrop.

For description, see opposite page.

NOVELTY.

Carters Harvestman (Wrinkled Marrowfat, 5 feet). Award of Merit, R.H.S., 1908—This grand Pea, which is a cross between Express and Duke of Aibany (Seedling No. 214), possesses all the qualities of Duke of Albany, but the pod is

distinct in shape, more regular in growth, not quite so tall, and altogether superior. Its appearance and cropping qualities are far ahead of either *Duke of Albany* and *Duchess*, or any of a similar class, and we are confident that there is a great future before it. For market or garden it is a most profitable Pea. Main crop.

Price 2s. 6d. per pint. Stock limited.

His Grace The Duke of Buccleuch's Head Gardener says:—"Harvestman. Good main crop Pea, splendid cropper, with large well-filled pods of good colour, and fine flavoured Peas. Height, 5 feet."—Mr. JAMKS WHYTOCK, The Gardens, Dalkeith, N.B.

The Right Hon. The Earl of Mansfield's Head Gardener says:-- 'Carters Harvestman Pea. This Pea I have found to be an excellent one. Both as a free cropper and for quality, I think it difficult to beat. Pods are of good size and well filled with large Peas. Height, about 5 feet; strong grower."—Mr. W. WARD.

The Right Hon. The Earl of Abingdon's Head Gardener says:—"Harvestman is a real good cropper and fills out well. Anyone requiring a Pea for crop and quality combined, this is the one to grow."—Mr. W. Brown, The Gardens, Wytham Abbey, Oxford.

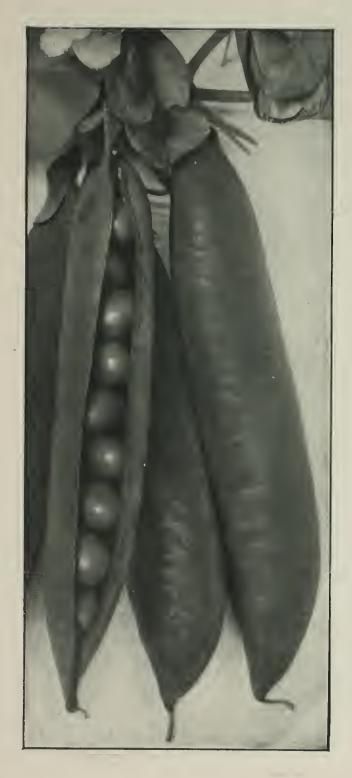

The Right Hon. The Earl of Sandwich's Head Gardener says:—"Pea Harvestman. A fine bearer and strong grower, with excellent flavour, a good all-round Pea."—Mr. F. Hansford, The Gardens, Hooke Court, Beaminster, Dorset.

The Right Hon. Viscount Midleton's Head Gardener says:—" Harvestman Pea. Height, 5 feet. This season the haulm has been strong, and for a main crop is superior to the Duke of Albany both in productiveness and succession of bearing. The pods are generally in pairs, and average nine, which are of delicious flavour. This is a very fine main crop variety, and I can speak highly of it."—Mr. QUAINTON, The Gardens, Peper Harrow Park, Godalming.

Sir Edmund Loder's Head Gardener says:—"This is a variety of much merit and of compact growth, superior to either of its parents; bears profusely, and the pods are packed with fine large Peas of delicious flavour."—Mr. W. A. COOK, The Gardens, Leonardslee, Horsham.

Admiral Brand's Head Gardener says:—"Ilarvestman. A fine maincrop Pea of the Duke of Albany type, but a great advance in the length of time it stands up, giving a good succession of pods. Height, 4½ feet. This should surely find its way where crop and quality are the main points. The pods are larger than the Duke, not quite so curved, hanging in pairs, from 18 inches to the top of haulm; constitution excellent."—Mr. W. BACK, The Gardens, Glynde Place, Lewes, Sussex.

We were awarded the Silver-Gilt Knightian Medal for a Large Collection (150 varieties) of Culinary Peas exhibited at Royal Horticultural Society's Hall, Vincent Square. Extract from the Gardeners' Chronicle, of July 24th, 1909:—"Messrs. James Carter & Co., High Holborn, had a very representative collection of edible Peas in dishes, there being some 150 kinds. They were all sown on the same date in the open. The earliest were getting ripe whilst very late ones, such as Rearguard, required yet some three weeks to fill the pods. Fine samples of Quite Content. Harvestman, Duke of Albany, International, Superlative, Leviathan, Stratagem, Early Morn Centenary, Telegraph, Daffodil, and others were plentiful. There were many seedlings in the exhibit."

Carters Exhibition (Wrinkled

Marrowfat, 5 feet). Main crop. Seed large, green, and wrinkled. A magnificent Pea, the result of a selection from Carters Model Telephone, the selection having been made for the purpose of obtaining an Exhibition Pea possessing all the good points of that celebrated variety, but bearing even a larger and richer coloured pod.

We claim that in every respect we have been successful, this superb variety bearing immense rich deep-green pods, perfect in shape, and well filled with large green Peas of excellent flavour, being unequalled for Exhibition purposes, as also for general garden work.

MAINCROP GARDEN PEAS.

Height, 1½ to 5 feet.

- Carters Dwarf Monarch (Wrinkled Marrowfat, 2 feet).—A deep green wrinkled Marrow, with a square ended pod of the Autocrat type, but earlier; producing pods in pairs which contain eight and nine peas of a splendid deep green colour, and of finest flavour; wonderfully prolific.

 Price 2s. per pint, 3s. 6d. per quart, 1s. per packet.
- Carters G. F. Wilson (Wrinkled Marrowfat, 3 feet).—An old and popular late Marrow, with a robust and healthy growth. Standing all sorts of weather changes better than some others.

 Price 1s. 6d. per pint, 2s. 6d. per quart.
- Carters Re-selected Duke of Albany (Wrinkled Marrowfat, 5 feet).—A great advance on the original stock the pods being straighter and longer, and should be grown by all who know the original variety. The Royal Horticultural Society, reporting its trials at Wisley, says:—"Carters Duke of Albany Re-selected. Duke of Albany received an A.M., July 5th, 1901. This is a fine true stock of this now well-known excellent variety."

Price 1s. od. per pint, 3s. per quart.

- Carters Pride of the Market (Height, 1½ to 2 feet).—A fine maincrop blue Marrowfat Pea, belonging to the same family from which our Stratagem was selected. Being a strong grower it requires to be thinly sown.

 Price 1s. 6d. per pint, 2s. 3d. per quart.
- Carters Majestic (Wrinkled Marrowfat, 2 to $2\frac{1}{2}$ feet).—A splendid mid-season Marrowfat Pea; this highly selected strain possesses splendid cropping properties and is valuable alike for the table and exhibition.

 Price 2s. per pint, 3s. 6d. per quart, 1s. per packet.
- Carters Model Telephone (Wrinkled Marrowfat, 5 feet).—A re-selection for robustness and delicacy of flavour from Telephone, a maincrop wrinkled Marrow, which bears to-day a world-wide reputation. It is remarkably prolific, bearing large pods of very attractive appearance; for soils of a light nature we strongly recommend this variety. Peas wrinkled, 9 to 11 in a pod, delicious when cooked.

 Price 2s. per pint, 3s. 6d. per quart, 1s. per packet.
- Carters Model Telegraph (Round Seeded, 5 feet).—A selection from our original Telegraph, which is well known. Very valuable as a table Pca, on account of the size and fine dark colour of the pods. The seed is round and of a deep green colour, which is retained when cooked.

 Price 1s. 6d. per pint, 2s. 6d. per quart.
- Carters Wonder of the World (Wrinkled Marrowfat, 3 feet).—A good useful Pea, always gives satisfaction.

 Price 2s. 6d. per quart.
- Alderman (Wrinkled Marrowfat, 5 feet).—Very fine Pea of splendid quality; large deep green pods.

 Price 2s. 9d. per quart.

Best of All (Wrinkled Marrowfat, 3 feet).—Splendid cropper. Price 2s. 6d. per quart.

Centenary (Wrinkled Marrowfut, 5 feet). - A large-podded Marrowfat. Price 3s. 6d. per quart.

Doctor McLean (Wrinkled Marrowfat, 3 feet).—Re-selected, a fine Marrow Pca. Price 2s. 6d. per quart.

Doctor McLean (Wrinkled, 4 feet).—Original stock. Price 1s. 6d. per quart.

Duke of Albany (Wrinkled Marrowfat, 5 feet). - Original stock. Price 2s. 3d. per quart.

Dwarf Defiance (Wrinkled Marrowfat, $2\frac{1}{2}$ feet).— Closely resembles Stratagem. Price 2s. 6d. per quart.

Hundredfold (Round Green, 5 feet).—Hardy, deep green pods. Price 1s. 6d. per quart.

Peerless (Winkled Marrowfat 3 feet).—Large long pointed pods, deep colour. Price 2s. 6d. per quart.

Perfection Marrow (Wrinkled Marrowfat, 3\frac{1}{2} feet).—A taller and more branching type of Stratagem.

Price 2s. 6d. per quart.

Satisfaction (IVrinkled Marrowfat, 3 feet). -- A long-podded type of Veitch's Perfection. Price 2s. per quart.

Telegraph (*Round Seeded*, 5 *feet*).—Original stock. A fine strong growing variety, quite hardy, well known for market work. Price 1s. 9d. per quart.

Telephone (Wrinkled, 5 feet). - Large pods, prolific; suitable for light soils. Price 2s. per quart.

Veitch's Perfection (Wrinkled, 3 feet).-- A fine stock of this well-known Pea. Price 2s. per quart.

Yorkshire Hero (Wrinkled, 3 feet). - Small pods but prolific bearer. Price 2s. per quart.

Triumph (Wrinkled, 2 to 2\frac{1}{2} feet).—Pods of medium size. Price 2s. per quart.

LATER MAINCROP GARDEN PEAS.

Height 21 to 6 feet.

Carters Anticipation (Wrinkled Marrowfat, $2\frac{1}{2}$ feet).—Anticipation grows to a height of about $2\frac{1}{2}$ feet, and sown at the usual season it comes into bearing early in July. The foliage is of a medium shade of colour, the habit robust, with immense straight pods containing Peas of an exquisite flavour when cooked. A grand dry-weather Pea and resister of mildew.

Price 2s. per pint, 3s. 6d. per quart, 1s. per packet.

Carters Battleship (*Wrinkled Marrowfat*, 5 feet).—The blunt-ended pod of this robust Marrowfat Pea is one of its peculiarities. The fine dark green pods, which hang in pairs, are filled with large Peas of a rich flavour and a bright green colour when served at table; the haulm is exceedingly strong, and stands both drought and mildew better than most others.

Price 2s. per pint, 3s. 6d. per quart, 1s. per packet.

The Royal Horticultural Society, reporting its trials at Wisley, says:—"Carters Battleship. Height, 5 feet. Haulm and pods pale green; pods in pairs; heavy crop."

Carters Danby Stratagem.—(Re-selected Stock) (Wrinkled Marrowfat, 2½ feet).—Award of Merit, Royal Horticultural Society.—A distinct improvement on the original Stratagem, having longer, straighter, and broader pods, very freely produced. The haulm is very robust, and extends to a height of 2½ feet, bearing a profusion of immense pods, many 6 inches in length, and frequently containing ten large full-flavoured Marrow Peas.

Price 2s. per pint, 3s. 6d. per quart, 1s. per packet.

Carters Improved Omega (Wrinkled Marrowfat, $2\frac{1}{2}$ feet).—A highly selected long-podded type of this popular Pea.

Price 2s. per pint, 3s. 6d. per quart, 1s. per packet.

Captain Cuttle (Wrinkled Marrowfat, $3\frac{1}{2}$ feet). A very useful late maincrop, very prolific.

Price 3s. per quart.

Champion of England (Wrinkled, 5 feet).—Prolific and hardy, small pod.

Price 1s. 9d. per quart.

Continuity (Wrinkled Marrowfat, 3 feet).—A fine prolific variety of good flavour. Price 2s. 6d. per quart.

Forty-fold (Wrinkled, 5 feet).—An improved type of Champion of England.

Price 1s. 9d. per quart.

Glory of Devon (Wrinkled Marrowfut, 3 feet).—Prolific, long large pods. Price 2s. 6d. per quart.

King of the Marrows (Wrinkled Marrowfat, 6 feet).—Much improved type of Forty-fold.

Price 1s. 9d. per quart.

Omega (Wrinkled Marrowfat, 2\frac{1}{2} feet).—Pods similar to Ne Plus Ultra. Pricc 2s. per quart.

Rex (Wrinkled Marrowfat, 5 feet).—Large pale-podded King of the Marrows type. Price 2s. 6d. per quart

Royal Jubilee (*Wrinkled*, 3 to 4 feet).—Large fine Pea. Price 2s. 6d. per quart.

Sharpe's Queen (Wrinkled Marrowfat, 3 feet), -- A popular maincrop. Price 2s. 3d. per quart.

Stratagem (Wrinkled Marrowfat, 1\frac{1}{2} to 2 feet).--Original stock of this fine Pea. Price 2s. 6d. per quart.

Carters Victoria (Wrinkled, 6 feet) -- A fine productive Pea. Price 2s. per quart.

NEW LATE MARROWFAT PEA.

CARTERS DREADNOUGHT.

(Wrinkled Marrowfat, 3 feet.)

This remarkable Pea has been selected by us as a grand addition to the late Maincrop Section. It is the practice of our house to make comparative tests of all the new Peas introduced by growers both at home and abroad. After careful comparison we have failed to find a Pea that pleases us more as a variety to come in between the Maincrops and the very late Peas than *Dreadnought*. It has large bold pods well filled with Peas of delicious flavour.

We have been instrumental in introducing many Peas which have become standard varieties, such as Telephone, Telegraph, Stratagem, Pride of the Market, and Daisy, known all over the world, and we undertake to prophesy that this novelty is destined to take an equally permanent place, not only among amateurs, exhibitors, and connoisseurs at the table, but also as a profitable market Pea. Its large deep green well-filled pods, and its resistance to mildew and drought, are its distinguishing characteristics.

We have given it the name of *Dreadnought* at the suggestion of an esteemed horticulturist

Price-

4s. per quart, 2s. 3d. per pint, and 1s. per packet.

NOVELTY

CARTERS LATEST GIANT.

(Wrinkled Marrowfat, 4 feet.)

This splendid late Marrowfat Pea is the outcome of a cross between Gladstone and Exhibition in 1903, and has been exhibited in our Trial Grounds and at various Royal Horticultural Society Shows under Seedling No. 241. It is an all-round grand selection, possessing the free podding and strong habit of Gladstone, but bearing handsome wellfilled pods very much larger than that excellent variety. The pods invariably contain eleven large deep - coloured Peas. It is fit for exhibition and unequalled for market. It is well described by the name Latest Giant.

Price **2s. 6d.** per pint. Stock limited.

The Right Hon. Viscount Midleton's Head Gardener says:—"Lutest Giant Pea. Height, 4 feet. This is a Pea of a very strong and robust constitution, haulm very dark green, the pods are long and handsome, each containing nine, chiefly in pairs. It is more desirable than the parents, as it comes in so much later, though it has the cropping proportions of Gladstone Pea. It really means that fine Marrowfat Peas can be obtained in October, which should prove a boon to many large establishments."—Mr. QUAINTON, the Gardens, Peper Harrow Park, Godalming.

GREEN PEAS-JUNE TO NOVEMBER.

We have offered a selection of choice Garden Peas with so much success during the past few seasons that we again quote the group as improved and representing the best collection calculated to produce Peas for five months, if sown at varying periods, during the spring and summer. It would be difficult to give precise dates for putting the seed into the ground, as so much depends upon soil and situation.

Successional sowings of these Peas should be made at any time between the dates named.

Name.	Description.	Height.	When to Sow.	Expect Ready to Pick.	PRICE	, Carriage Free.
CARTERS EARLY MORN. The best Early Marrowfat Pea; it has large pods, and is as early as the small white round varieties; the demand increases each year; of splendid flavour. (See Catalogue, page 77.)	First Early Marrowfat.	3 ft.	End of Mareh.	During June.	Per packet Is.	. Per pint, Per qua 2s. 3s, 6d

A CELEBRATED LATE MARROW.

CARTERS MICHAELMAS PEA.

The Latest Garden Pea in cultivation.

For full particulars, see opposite page.

Carters Seedsmen by Appointment to His Majesty the King-High Holborn, London.

LATE GARDEN PEAS.

GARTERS MICHAELMAS (Wrinkled Marrowfat $2\frac{1}{2}$ feet. See Photograph on opposite page). This grand Pea quite oversteps the boundary hitherto set by the times and seasons, and is absolutely distinct. Late varieties of Peas of past fame have been late mainly by reason of their strawy character. The constitution of Carters Michaelmas Pea is not run through in Straw, but we have fixed a dwarf bushy growth of $2\frac{1}{2}$ fect, which holds back its natural force and throws it into the pods; consequently, while being very prolific, its colour in pod is of the deepest green, and its pods are large and well filled. We have proved this Pea to possess a reserve of strength which will enable it to resist the drought and the mildew to a degree hitherto unknown in a Pea.

THE ROYAL HORTICULTURAL SOCIETY, in their report of trials at Wisley, say:—"Carters Michaelmas. Height, 2½ feet; haulm and pods very dark green; very sturdy; pods in pairs; heavy crop."

Price 2s. per pint, 3s. 6d. per quart, 1s. per packet.

Sir Edmund Loder's Head Gardener says:—"Carters Michaeimas is still to gather—September 21st—and what I said last year I maintain now, we shall have Peas till after Michaelmas, and this variety produces Peas of the very best quality."—Mr. W. A. Cook, The Gardens, Leonardslee, Horsham.

- The Gladstone—Carters re-selected stock (Wrinkled Marrowfat, 4 feet). A fine late variety, bearing long sickle-shaped pods, dark in colour, very prolific. Fine for exhibition. Height, 3½ feet.

 Price 2s. per pint, 3s. 6d. per quart, and 1s. per packet.
- Ne Plus Ultra—Carters re-selected (*Wrinkled Marrowfat*, 6 feet). This is a highly selected stock of an old and favourite variety, it is exceedingly prolific, bearing blunt-ended pods with peas of very fine flavour. A splendid Pea for late crops. Height, 6 feet.

Price 1s. 6d. per pint, 2s. 6d. per quart.

Autocrat (Wrinkled Marrowfat, 4 fcet).—Excellent cropper, deep green pods. Per quart, 2s. 6d.

British Queen (Wrinkied, 6 feet).—One of the latest varieties; resists mildew; pale pods.

Price 2s. per quart.

Emperor of the Marrows (Wrinkled, 6 feet).—An old variety of good flavour. Per quart, 1s. 9d.

Latest of All (*Wrinkled*, 3 feet).—A very prolific Pca, a later type of Autocrat. Pods like Ne Plus Ultra.

Price 2s. per quart.

Ne Plus Ultra Original Stock (Wrinkled, 6 feet).—A fine late Pea. Fine flavour.

Price 1s. 6d. per quart.

COLLECTIONS OF PEAS.

Recommended to produce a good succession of fine flavoured Peas, as they include only approved sorts, which have been thoroughly tested in our Gardens.

Corters Seedsmen by Appointment to His Majesty the King-High Holborn, London.

SIX NEW AND DISTINCT RADISHES.

All invaluable for early frame work.

(See Photographs on opposite page.)

No. 1.—Carters Forcing Olive.

Splendid rieh eolour, very quiek growing, having small top; flavour sweet and delicate

Price 8d. per ounce, 3s. 6d. per pint, 3d. and 6d. per paeket.

No. 2.-Carters Early Round White Tipped.

A decided acquisition, the flavour of the small tender roots being as fine as one could possibly wish.

Price 8d. per ounce, 3s. 6d. per pint, 3d. and 6d. per packet.

No. 3.—Carters Extra Early Scarlet.

An exceedingly quick-growing globe-shaped Radish, with a showy appearance in the dish, and a peculiar nutty flavour.

Price 8d. per ounce, 3s. 6d. per pint, 3d. and 6d. per packet.

No. 4.—Carters Extra Early White Olive.

This radish has been specially selected for its erisp texture and fine flavour. It produces very little top and matures with remarkable rapidity.

Price 8d. per ounce, 3s. 6d. per pint, 3d. and 6d. per packet.

No. 5.—Carters Delicatesse.

An attractive breakfast dish. Its peculiar shape, crisp flesh, and nutty flavour give this fine selection a distinct advantage. Suitable for forcing.

Price 8d. per ounce, 3s. 6d. per pint, 3d. and 6d. per paeket.

No. 6.—Carters Icicle.

So named because of its unique transparent whiteness, attractive appearance, and freshness early in the season. The earliest long white Radish, of extraordinary erispness and tenderness. We offer this as a companion to our *Long Forcing Scarlet* Radish.

Price 8d. per ounce, 3s. 6d. per pint, 3d. and 6d. per packet.

Attractive bunches of the above varieties of Radishes formed part of Two Grand Prix and Gold Medal Exhibits at the Franco-British Exhibition, 1908.

Monthly Operations in the Garden, with Hints on the cultivation of the Principal Flowers and Vegetables. Post Free, 6d.

Carters Long Forcing Scarlet (see Photograph).—A great advance on the old varieties. The very best long searlet Radish for early work. Flesh crisp and tender.

Price 3s. 6d. per pint, 8d. per ounce, 3d. and 6d. per paeket.

Carters Early Round White.—A small very quiek growing variety, having a very sweet and delicate flavour.

Price 3s. 6d. per pint, 8d. per ounce, 3d. and 6d. per packet.

Carters French Breakfast.—There are so many inferior strains of this very popular Radish (introduced by our house from Paris years ago) that we recommend all connoisseurs of a fine appetising breakfast dish to grow only the real original type.

Price 2s. 6d. per pint, 6d. per ounce, 3d. per packet.

Carters Triumph.—A new turnip-shaped Radish, mottled and striped. This is an altogether novel feature in Radishes; they are prettily mottled and splashed with carmine on delicate white flesh, which makes them, when on table, as attractive to the eye as they are to the palate.

Price Is. per ounce, 3d. and 6d. per packet.

Carters Seedsmen by Appointment to His Majesty the King-High Holborn, London.

RADISH.—Continued.

SUMMER AND WINTER VARIETIES.

For particulars of new early Radishes, with Photographs, see pages 104 and 105.

Carters Crimson Marble.—A choice selection, symmetrical in form; flesh white, crisp, and solid; colour rich vermilion-crimson; fine mouse-tail root.

Price 2s. 6d. per pint, 6d. per ounce, 3d. per packet.

Carters "Knickerbocker."—A veritable giant, frequently growing to a length of 8 inches, and several inches in thickness. For exhibition purposes it is invaluable.

Price 2s. 6d. per pint, 6d. per ounce, 3d. per packet.

Carters London Long Red.—The particular fancy of the London Markets.

Price 2s. 6d. per pint, 6d. per ounce, 3d. per packet.

WINTER VARIETIES.

Turnip-Shaped China.—A scarlet variety of the *China Rose* Winter Radish. It may be sown at intervals from spring until autumn, and the roots obtained from late sowings can be kept in store for winter consumption. The root is round, of a fine scarlet colour, $2\frac{1}{2}$ to 3 inches in diameter; flesh pure white, of an agreeable and mild flavour. Price 6d. per ounce, 3d. per packet.

Long Black Spanish.—For autumn sowing; large and distinct.

Price 2s. 6d. per pint, 6d. per ounce, 3d. per packet.

China Rose, Oval Shaped.

Price 2s. 6d. per pint, 6d. per ounce, 3d. per packet.

The Cultivation of Radish.—Sow on a moderate hot-bed in January, February, and March; also every month during summer in well-prepared places in the open. The Radish thrives best when quickly grown in a rich deep moist soil. A sowing in frame, or on a warm border in October, is desirable for winter use. Water thoroughly during hot weather.

SALSAFY

OR VEGETABLE OYSTER.

Carters Mammoth.—A greatly improved form of the ordinary Salsafy ... 6d. per packet 1 3

SCORZONERA.

The roots are caten cooked like those of the Salsafy, the leaves can be used as a salad.

Carters Improved Scorzonera 6d. per packet 1 c

Cultivation of Salsafy and Scorzonera.—The ground should be well trenched and manured during Autumn. Sow during March and April in drills about 15 inches apart. Thin out the plants to from six to eight inches apart for Salsafy but allow rather more room for Scorzonera. The roots should be taken up in November and stored in the same manner as Carrots.

Carters Address for all RAYNES PARK, LONDON, S.W.-1912,

Everyone should enjoy the pleasure of a salad several days a week, at all events during the summer season, with but trifling expense. It is a wholesome addition to more substantial diet, rendering it grateful to the palate, and it is a pity that it is so rarely brought to table in an average household. We will enumerate a few of the almost unknown salad plants, with some notes on their cultivation.

American Land Cress may be sown at any time during spring and summer out of doors. It is a useful variety tasting something like water cress.

Price 6d. per packet.

Beet.—See pages 6 to 8.

Celeriac, Carters Improved (or turnip-rooted Celery).—Pure white root, refined flavour. It is becoming popular in this country, owing to the more frequent contact nowadays of the English people with continental dishes. Seeds should be sown in pans in March, and the plants set out in shallow trenches to mature.

Price 6d. and 1s. per packet.

Chervil is used for seasoning soups and mixing in salads. It is grown from seed sown in spring and in summer for successional crops. The soil should be rich and light, and the bed $4\frac{1}{2}$ feet wide, with an alley on each side. Sow seed in shallow drills across the bed, 9 inches apart, and rake over the surface. When the leaves have grown an inch or two, cut off for use as required.

Price 6d. per packet.

Chicory.—The majority of people know Chicory as an adulterant of Coffee, but few are aware of the part it plays in the salad bowl, to which it adds a pleasing flavour. Chicory is so easily grown and so useful, that it should receive more attention from amateurs who desire to grow salads. This plant is sown in late spring in the open ground, and thinned out to about a foot apart to grow through the summer, well watered in dry weather. With the change to a colder season, the leaves decay and nearly all drop off. The roots are then lifted, and a few at a time placed in boxes of rich sandy soil, leaving crown well above the surface. After a good watering these boxes are stood in a perfectly dark place, and in a few weeks, according to the heat, some nicely blanched leaves will be fit to gather. More roots, kept in a cool place until wanted for bringing along in heat, may be similarly treated.

Price 6d. per packet.

Whitloef is a distinct variety of Chicory, largely grown in the suburbs of Brussels, and chiefly noted for the quality of its leaves

Price 6d. per packet.

Chives is a hardy perennial found in rocky pastures. It is grown in gardens for its leaves, as a substitute for early onions. Propagate by dividing the roots into clumps in spring and autumn and plant from 8 to 12 inches apart. In order that the leaves be tender and succulent they should be often cut.

Plants price 6d. each.

Clary, used for flavouring soups.

Price 6d. per packet.

Corn Salad or Lambs' Lettuce.—This is a hardy annual, and in great demand as a salad plant on the Continent. In France it is preferred, admired, and relished in winter and spring instead of Lettuce, but it is not nearly so highly appreciated in Britain as it deserves. But when Endive is scarce Corn Salad is of great service, and for early use should be sown in frames or in boxes and placed in slight heat. For summer use it may go on the border or in lines in a sunny spot, amongst the ordinary low-growing vegetables.

Price 6d. per packet.

Cress. - See page 43.

Cucumber. - See pages 44 to 46.

Dandelion.—The common Dandelion is a useful salad plant, especially when Endive and Lettuce are scarce in winter. The roots are grown in a similar manner to Chicory, and large quantities of the blanched leaves are sold in the markets for this esculent. Price **6d.** per packet.

Endive.—See page 50.

Lettuce.—See pages 54 to 58.

Mustard.—See page 43.

Nasturtium, of which the green seeds make a delightful salad. This plant is both a dwarf and a climber, and very ornamental as well as useful. The flowers are often used in salads, occasionally for decorating, and the leaves and young green plants are frequently pickled.

Price 3d. and 6d. per packet.

Purslain is a succulent plant and raised from seed, which may be sown in light garden soil in March on a warm sheltered border in a bed, and attended to in the same way as for Chervil.

Price 6d. per packet.

Radish. - See pages 104 to 107.

Rampion.—A plant producing a spindle-shaped root of light colour and of agreeable flavour. It may be raised from seed if sown in a bed in an open warm aspect, and in soil of a rich compost, of a light open texture. Water well in dry weather. Should the season prove mild, the plants will be ready for use in November.

Price 6d. per packet.

Shallots.—The Shallot is much in favour as a relish for soups and for pickling. Offsets are often planted in the autumn, but the main crop is usually got in early in the year. The bulbs may be planted at any suitable time during this period, 12 inches between each row, and 6 inches from set to set. The bulbs should be firmly pressed in just beneath the surface of the soil, and here they remain. As the growth matures in spring, gently draw away the soil round the bulbs when they have become established, and if they look siekly, apply soot to the surface soil for maggots, and use the hoe for weeds. Lift, dry, and store crop as soon as ready, probably the end of June. For exhibition, twenty-five cloves or bulbs should be placed on a large plate, and see that they are firm, of medium size, ripe, of good colour, and nice small necks. There are two types, the Mammoth and the ordinary Shallot.

Shallot Seed. Jersey Red Skinned.

Price 6d. and 1s. per packet.

For price of bulbs, see page 49.

Tomato. -- See pages 110 to 113.

Watercress.—Watercress may be successfully grown from seed if sown in a shaded border and kept well watered when started.

Price 6d. per packet.

SPINACH.

THE CARTER SPINACH.

A SUPERB LONG-STANDER, WITH RICH DEEP GREEN LEAVES.

The Carter Spinach (see Photograph).—This fine Spinach was sent for trial to the Royal Horticultural Society, and was given an Award of Merit. Our photograph illustrates in a remarkable manner the solid substance of the leaves; and the whole plant, which is very fine in colour, is of far greater duration than ordinary Spinach.

Price 2s. 6d. per pint; 6d. per ounce; 3d. per packet.

The Cultivation of Spinach.—Sow Round Spinach in succession from January to June, and Priekly or Winter Spinach the first week in August to stand the winter. Sow New Zealand Spinach in March in heat and transplant about the end of May, setting the plants about 3 feet apart.

ACTUAL

SIZE OF

FRUIT.

CARTERS "SUNRISE" TOMATO. FIRST CLASS CERTIFICATE, R.H.S.—INDOOR CULTIVATION.

During 1905 an extensive trial of Tomatoes was made by the Royal Horticultural Society, 71 varieties being sent in from all the leading houses. The only First Class Certificate was given to Carters "Sunrise," and the following note is attached to the report:—"Tomatoes have reached such perfection that it is now very difficult to raise a variety superior to those already in commerce. In this trial only one stood out as being of exceptional value, viz., 'Sunrise.'"

FIRST CLASS CERTIFICATE, R. H. S.-OUTDOOR VARIETY.

"F.C.C. confirmed as Outdoor variety, after growth at Wisley, Oct. 10th, 1907."

It is some time since such a high honour has been granted to a Tomato.

The chief points in Sumrise are—

Its Earliness .- It ripens several days earlier than most varieties.

Its Prolific Character. - See Photographs.

Its Cropping Properties.—See Photographs and Testimonials.

Its Healthy and Robust Constitution.—No trace of Disease.

Its Solid but Delicate Flesh.—Contains very few seeds and practically no eye

Its Evenness of Size as a Dessert Fruit.

Its Bright Scarlet Colour and rich Acid Flavour.

Its equal value for Indoor or Outdoor Cultivation.

Carters "Sunrise."—The finest Tomato for Indoor and Outdoor culture.

Price 2s. 6d. and 3s. 6d. per packet.

Carters Seedsmen by Appointment to His Majesty the King-High Holborn, London.

CARTERS SUNRISE TOMATO GROWING IN THE OPEN.
First-class Certificate as Outdoor variety, R. H. S., Wisley, 1907.

CARTERS "SUNRISE" TOMATO.

FOR INDOOR OR OUTDOOR CULTIVATION.

His Grace The Duke of Northumberland's late Head Gardener says:—"The fruits of Sunrise Tomato I exhibited at the Royal Horticultural Society's meeting on March 6th were sown in September and commenced fruiting in December—grown in 6-in. pots. It is a splendid winter fruiting variety."

His Grace The Duke of Buccleuch's Head Gardener says: We grew fifty plants of Sunrise Tomato in pots here. It is a good cropper, sets very freely, and bears fine medium-sized fruits of splendid quality and flavour."—Mr. J. WHYTOCK, The Gardens, Dalkeith.

The Right Hon. The Earl of Carlisle's Head Gardener says: "I may say I gave Sunrise Tomato a trial last season and was highly pleased with it. It sets very freely and produces enormous trusses of highly-coloured medium-sized fruits of good quality."—Mr. A. E. SUTTON, Castle Iloward.

The Right Hon. The Earl of Jersey's Head Gardener says: "Sunrise Tomato has cropped grandly outside this season. It has been quite the best one here."—Mr. J. HAWKES, The Gardens, Osterley Park.

The Right Hon. The Earl of Lathom's Head Gardener says:—" A marvellous cropping variety, and destined to become the Tomato for market growers especially. I never saw its equal for cropping and the fruits are just the size the market growers require - medium, with good appearance and no waste."—Mr. B. ASHTON, The Gardens, Lathom House.

The Right Hon. The Earl of Onslow's Head Gardener says: - 1 have grown your Sunrise Tomato since first it came out, and I consider it the best Tomato ever sent out. It is carlier than most, no trouble to set, nice even size, and very heavy cropper, above all, the quality is unsurpassed." - Mr. H. W. BLAKE, The Gardens, Clandon Park, Guildford.

The Right Hon. The Earl of Sandwich's Head Gardener says:—"I have grown your Sunrise Tomato out of doors as well as in this scason, with marvellous success, and consider it a perfect Tomato either for in or out door culture."—Mr. F. HANSFORD, The Gardens, Hook Court, Beaminster.

The Hon. Vicary Gibbs' Head Gardener says:—" We have just finished Sunvise. It is a capital Tomato, a wonderful setter, fine quality and flavour. They are the finest lot I have ever seen."—Mr. E. BECKETT, The Gardens, Aldenham House, Elstree.

The Right Hon. Viscount Portman's Head Gardener says:—" There is no doubt but that this is an excellent variety. The fruits are produced in abundance when the plants are quite small. When ripe they are of even size, good colour, and with smooth skins. Either for market or private gardens this will prove to be one of the best."—Mr. 11. Prinsep, The Gardens, Buxted Park.

The Right Hon. Viscount Midleton's Head Gardener says:—"Sunrise Tomato. I have never had such a heavy crop as I have had this season, especially outside on a wall facing south. I have counted as many as five large trusses, many carrying a dozen good-sized fruit, and all finished to a splendid colour, considering what wretched conditions prevailed for successful cu'ture. They have also carried large crops inside, fruiting all up the plants from six inches from the border to the top of the house."—Mr. QUAINTON. The Gardens, Peper Harrow Park, Godalming.

Price 2s. 6d. and 3s. 6d. per packet.

Carters RAYNES PARK, LONDON, S.W.-1912.

CARTERS DUKE OF YORK TOMATO.

CARTERS PLUM TOMATO.

TOMATO.—Continued.

Carters Outdoor .- This variety readily fruits under the warmth of a south wall, or along the front of a greenhouse, in any situation where the full influence of the sun is felt and away from cold winds. In shape the fruit is not so round as our Duke of York or Sunrise.

Price Is., Is. 6d., and 2s. 6d. per packet.

NEW

Coreless. - We were quite impressed by this main crop Tomato last summer in our gardens at Raynes Park, it is quite a good bright red variety, almost round, solid, and free from green core.

Price 1s. 6d. and 2s. 6d. per packet.

Carters Perfection .- Quite distinct from any other variety named Perfection. It is very handsome in form, distinct in colour, exceedingly prolific, and of exquisite flavour 108 First Prizes reported. Price Is., Is. 6d., and 2s. 6d. per packet.

Carters Blenheim Orange.-We raised and introduced this extraordinary Tomato, a curious cross between the red and yellow. Gathered when quite ripe they are luscious and juicy, and the nearest approach to the flavour of a plum. It contains very few seeds.

Price Is., Is. 6d., and 2s. 6d. per packet.

Carters Dedham Favourite. - Well known and deservedly popular.

Price 6d., Is., and Is. 6d. per packet.

Carters Greengage-Introduced by us, and the first of the golden section of any value. Awarded a First Class Certificate by the Royal Horticultural Society.

Price 6d., 1s., and 1s. 6d. per packet.

Carters Market Favourite.—Price 6d., 1s., and 1s. 6d. perpacket.

Carters Sandwich Island .- Price 6d. and 1s. per packet.

Carters Red Cherry.—A very prolific variety, about the size of a cherry. Price 6d. and 1s. per packet.

Carters Yellow Cherry.—Companion variety to our Red Cherry. Colour, bright yellow. In our opinion this yellow variety equals any of the red kinds for flavour that we have tasted. Price 6d. and 1s. per packet.

Carters Plum (see Photograph).—Plum-shaped, of prolific habit and good flavour. Price Is. and Is. 6d. per packet.

Carters Peach.—A curious variety, quite distinct from any other sort grown, quite peach-like in appearance. Price 6d. and 1s. per packet.

Carters Red Currant.—Smallest growing variety, hanging in long trusses, very pretty for decorative purposes. Price 6d. and 1s. per packet.

The following can also be supplied, price 6d. and 1s. per packet:

CHALLENGER. HAM GREEN FAVOURITE. LARGE YELLOW. CHEMIN ROUGE. HAREFIELD GOLDEN GEM. STIRLING CASTLE. HATHAWAY'S EXCELSIOR. TROPHY. COMET

LARGE RED. HACKWOOD PARK.

Cultivation. - Sow seed in February and March, and transplant into pots to harden off; afterwards plant out against a south wall in good soil; or they may be planted in a warm border, and carefully staked to keep the plant and fruit from straggling on the earth. If cultivated in pots the treatment should be the same, with the addition that liberal waterings of manure and rain-water will be found necessary, especially during the hottest part of the summer.

CARTERS EARLY LONG FORCING TURNIP.

Carters Early Long Forcing (See Photograph).—Quite a distinct Turnip for Frame or Outdoor work. Pure white flesh, and of most delicate flavour. It matures very rapidly, and is fit for table sooner than any other Turnip.

Award of Merit, Royal Horticultural Society, for Roots sown in cold frame, March 6th and exhibited, May 8th.

Price 3s. 6d. per pint; 8d. per ounce; 3d. and 6d. per packet.

The Cultivation of Furnip.—Sow Carters Little Marvel or Carters Jersey Lily for early use the first week in March on a gentle hot-bed under glass, and later in a warm situation in the open border. For main succession crops, sow every three weeks in the open ground until the beginning of July. For winter use, sow early in August and again in September.

"I am very pleased with your Seeds, and they have been a good success. Thanking you very much. The vegetables were very much admired by the spectators. Hoping it will lead to bringing you new customers. I have strongly recommended your Seeds,"—J. Bentley.

W. MARSH, Gardener to the late Rev. J. Mirehouse. -

[&]quot;I would like to say just a word in praise of your Seeds. Everything I sowed did remarkably well, especially Peas. I started gathering Peas the second week in June and went on antil nearly the end of October, my three last rows were a picture. Glory of Devon being my latest and best Pea."—

A NEW EARLY WHITE TURNIP.

Carters Little Marvel.—A cross between Early White Milan and Jersey Lily. This is a highly re-selected stock, the tendency to flatness in some of the roots having been entirely eradicated, the tops are small and compact. It is undoubtedly the quickest white globe shaped Turnip in cultivation. Flesh crisp and solid and, as aptly described by one of our customers, "is a Little Marvel." Very distinct in both habit and foliage, and is a splendid Table Turnip. Twenty First Prizes reported last season.

THE ROYAL HORTICULTURAL SOCIETY, reporting from their trials at Wisley, says:—"Carters Little Marvel Turnip. White, round, handsome; foliage short and sturdy. A very early variety that should be valuable for forcing."

This remarkable cross-bred Turnip closely follows the *Milan* and is considerably forwarder than *Jersey Lily*. It has become popular with gardeners for early work as it is as good as it looks.

Price 3s. 6d. per pint, 8d. per ounce, 3d. and 6d. per packet.

"A NEW TURNIP-LITTLE MARVEL. This new introduction from Messrs. Carter & Co., High Holborn, is a great gain in earliness and quality, and will be a most valuable root for first crop in the open. So far I have only had roots grown in frames, and when forced they were superior to the *Early Milan* variety. I grew the *Milan* by the side of the new *Little Marvel* to test its earliness, and in this respect it is equal to the older variety. It should be a useful root for first crop in the open, or for a quick crop required in a short time, and it can be grown for a summer crop."—G. Wythes, in *The Garden*.

The Right Hon. Viscount Midleton's Head Gardener says: —" Little Marvel Turnip. Foliage dwarf; white, round, handsome shaped roots; very solid, very quick maturing its growth, and should stand forcing well."—Mr. QUAINTON, The Gardens, Peper Harrow Park.

TURNIPS FOR THE GARDEN.

Carters Jersey Lily (see *Photograph*).—The most perfect in outline, and the best White Garden Turnip grown. In shape as round as an orange, of exquisite flavour, with single tap root, and very distinct small top.

185 FIRST PRIZES REPORTED BY CUSTOMERS DURING THE PAST THREE SEASONS.

Price 3s. 6d, per pint, 8d. per ounce, 6d. and 3d. per packet.

Carters Purple-Top Strapleaf.—A variety with plain strap-like leaves and flesh of fine texture; colour of top of root a rich reddish purple. A perfect model in form, and highly valuable for exhibition.

Price 2s. 6d. per pint, 6d. per ounce, 3d. per packet.

Carters Golden Rose.—One of the hardiest and best Winter Turnips; flesh of a rich golden-yellow colour, with single tap root; flavour most delicate and melting. Awarded a Special First Class Certificate at the Vegetable Conference of the Royal Horticultural Society.

Price 2s. 6d. per pint, 6d. per ounce, 3d. per packet.

Carters Crimson-Top Table Swede.—A choice stock of Swede Turnip with orange flesh, and specially adapted for growing as a winter table vegetable.

Price 1s. 6d. per pint, 3d. per ounce.

Carters Seedsmen by Appointment to His Majesty the King-High Holborn, London.

Carters White Milan (see Photograph).—This is an exceptionally fine selected stock, strongly recommended for early garden work. It is as quick as a Radish, clean in growth, and of very fine flavour. Price 2s. 6d. per pint, 6d. per ounce, 3d. per packet.

Carters Address for all Correspondence, RAYNES PARK, LONDON, S.W.-1912.

VEGETABLE MARROW.

MOORE'S CREAM.
CARTERS TRAILING WHITE.

PEN-Y-BYD.

Muir's Prolific.

Carters Long Green Striped.

Carters Trailing White.—One of the quickest growing varieties we know of; the fruit will extend to a great length whilst retaining all the tenderness of small young Marrows.

Price 6d., 1s., and 1s. 6d. per packet.

Carters Long Green Striped. - A giant prolific variety, the very best for gardens that lie in a bleak and exposed position. Price 6d. and 1s. per packet.

Muir's Prolific.—A distinct variety, with small globular fruit, creamy white in colour, and solid flesh.

Price 6d. and 1s. per packet.

Pen-y-byd (The best in the world).—A round fruiting Marrow, creamy-white in colour; very superior. Price 6d. and 1s. per packet.

Moore's Vegetable Cream.—Very fine variety, of creamy colour and of delicious flavour.

Price 6d. and 1s. per packet.

IMPROVED CUSTARD MARROW.

Improved Custard (see Photograph).—Curious and ornamental fruit, of fine delicate flavour. Price 6d. and 1s. per packet.

FRENCH INTENSIVE CULTURE.

One of the great advantages of the French method of intense cultivation of vegetables under bell glass or in frames is that the produce is ready for the kitchen or the table, in succession and at periods of the year, when under ordinary cultivation it would not be available. Garden produce out of season is always an attraction. For instance, Celery Self-blanching which requires no banking up is ready in July and August. The following selection is base I upon the experience of French maraîchers both in France and in this country.

SEED POTATOES.

THE ADVANTAGES OF PLANTING A RELIABLE CHANGE.

It is generally admitted that one of the most fruitful elements of the potato disease is supplied by a repeated growth year after year of the same stock of potatoes on the same land.

Another danger frequently recurring is the gradual undermining of the constitution of the potato by injudicious selection, alternately resulting in a weak-y impoverished stock that too readily succumbs to the earliest attacks of the potato murrain.

Too much importance cannot be attached to this subject, and a change of seed is positively essential if a thoroughly reliable and superior crop is expected.

Our stocks have been grown and selected with the utmost vi ilance, and under normal conditions of soil and situation will produce first-class crops.

Our crops are especially grown for seed purposes, that is to say, they are not over-fed for the sake of producing enormous tubers. They are kept true to name and description, and are not lifted until thoroughly ripe.

We go to this trouble and expense with a view to make our potatoes as disease resisting as the season will permit.

We grow potatoes in England and Scotland, on the chalk in Kent, on the sand in Bedfordshire, on the rich warp-lands in Lincoinshire, so that we possess the advantages of supplying a distinct change of seed to every customer.

We do not list several of the rank-growing new varieties which need too much space in ordinary gardens, neither do we catalogue others in which we can find no merits.

Onc of the constantly recurring questions put to us by our customers each year, is "which may be considered the best varieties of potatoes for First Early, Mid-Season and Main Crop, respectively?" To answer this, it would be necessary to be acquainted with the characteristics of the soil in every garden and the tastes of every grower. Some potatoes take more kindly to a particular soil than others, but those who have tried several of our well-known varieties have proved which potato suits their soil and culinary requirements, and acting on the axiom of "find a friend to keep a friend," continue to grow the same variety year after year.

This practice is a good one providing that a constant change of seed tubers is maintained, though it tends to increase the list of popular varieties from the number of which it is difficult to make a selection of the best.

Many years of close observation, however, of potato culture under varying soil and climatic conditions, together with the results of our own trials at Raynes Park and Forest Hill, and the confirmatory reports we receive from time to time from customers in all parts of the country, have enabled us to mention the three undermentioned varieties as the best and most suitable for general purposes.

THREE BEST POTATOES.

First Early.—" Carters Early Favourite." Award of Merit, R.H.S. (See page 122.)

Mid-Season.—"Carters Royalty." Awarded Silver Medal for best white potato at the National Show. (See page 124.)

Main Crop.—"Carters Longkeeper." Award of Merit, R.H.S. (See page 127.)

(Particulars and prices will be found on the following pages.)

CARTERS HAND-PICKED SEED POTATOES.

During March and April our season's supplies become much reduced, and we are often quite sold out of particular varieties. It is always our endeavour to send something likely to give satisfaction in place of any we may not have available.

CARTERS POTATOES FOR EXHIBITION.

AWARDS.

First and only Award of Merit granted by the Royal Agricultural Society of England, 1910, for a collection of over 100 distinct varieties of Potatoes exhibited 10½ months after lifting.

ROYAL HORTICULTURAL SOCIETY.--First Prize, Silver Gilt Knightian Medal, Open Competition to trade Growers.

Two Silver Gilt Knightian, Silver Gilt Banksian, Silver Knightian, and two First Prizes Open Competition awarded to the produce of Carters Seed Potatoes, 1909 and 1910.

FRANCO-BRITISH EXHIBITION.—First Prize, the highest possible award in the competitive class (12 different varieties), open to all French and English growers at the Franco-British Exhibition, was won with a magnificent exhibit from The Rt. Hon. Earl of Lathon (Mr. Ben Ashton, gardener), grown from the produce of Carters Seed Potatoes, Class 35.

NATIONAL POTATO SOCIETY.--The 50-Guinea Challenge Cup won three years in succession. Exhibitor, The Rt. Hon. Earl of Lathom (Mr. Ben Ashton, gardener).

The Llewelyn Cup two years in succession with the produce of seed obtained from Carters.

COLLECTIONS OF SEED POTATOES.

For the use of Exhibitors and others we offer the following Collections:—

CARTERS SELECTED EARLY POTATOES.

For Frame and Early Border Use.

CARTERS EARLY FAVOURITE

The best First Early for general use (see page 120).

Carters Early Favourite (Oval Shape,

White Flesh, see Photograph).—A smooth-skinned Potato with medium haulm, a first-class cooker from light and medium soils. This Potato is of great service where space is limited, for it can be dug in an ordinary season in July.

Price per peck of 14 lbs., 5s. Trial box, 1s. 6d.

Flesh).—A perfect type of forcing or frame Kidney Potato for a gentleman's garden. The haulm is compact, and the tubers come in remarkably quick when grown in frames or pots. They are beautifully shaped.

Price per peck of 14 lbs., 4s. 6d. Trial box, 1s. 6d.

Sir John Llewelyn (*Oval*, *White Flesh*).—An early white Potato, raised in Wales, many days earlier than some stocks of *Early Ashleaf Kidney*. Haulm fairly tall, eyes shallow. Award of merit R.H.S. It has proved a good cropper on various soils.

Price per peck of 14 lbs., 3s. 6d. Trial box, 1s. 6d.

Carters Excelsior (Round, White Flesh).

One of the best carliest round varieties with which we are acquainted. Compact in growth, and a good table Potato on all kinds of soils.

Price per peck of 14 lbs., 4s. 6d. Trial box, 1s. 6d.

Carters Advancer (Pebble Shape, White Flesh).—Smooth skin, medium haulm. In the trials of the Royal Horticultural Society a few years since this variety was one of the very few that were selected for fine appearance and good cropping qualities. A heavy producer on all good garden soils, and particularly valuable on light soils.

Price per peck of 14 lbs., 4s. 6d.
Trial box, 1s. 6d.

CARTERS ADVANCER.

CARTERS EARLY AND MID-SEASON POTATOES.

CARTERS IMPROVED EARLY ASHLEAF POTATO.

It is necessary that Seed Potatoes procured during winter, and not required for planting for some time, should be taken out of the bag or package in which they are received, and laid out in an airy shed, protected from frost, or the eyes will commence to sprout and a weakly growth follows. It is the custom with professional gardeners to lay out the tubers of early varieties in the light to induce sturdy sprouts, and each Potato is carefully planted with this growth on it.

CARTERS SECOND EARLY AND MID-SEASON POTATOES.

The Best Mid-season Potato for General use is "Carters Royalty."

Carters Royalty (Oval, White Flesh). This grand mid-season Potato was AWARDED THE SILVER MEDAL FOR THE BEST WHITE POTATO AT THE NATIONAL POTATO SOCIETY'S SHOW. It produces a medium haulm and is very productive on all soils, the tubers seeming to retain their whiteness, dryness and fine flavour when cooked under all methods. In the Cheshire County Council Agricultural Experiments it came out first in its class, beating fifteen others.

Price 14s. per bushel or $\frac{1}{2}$ cwt.; 4s. per peck; 1s. 6d. per trial box.

Mr. A. G. Gentle. Gardener to Mrs. Dennison, Winner of the Silver Gilt Knightian Medal of the R.H.S., says: "I speak highly of your *Royalty* Potato, it is a very heavy cropper and a splendid cooker."

"I have ordered Royally Potatoes again as they have done us so well. The peck I had from you last year yielded nearly 400 lbs. weight."—Mr. M. T. REYNOLDS, Haslemere.

Carters Seedsmen by Appointment to His Majesty the King-High Holborn, London.

CARTERS MID-SEASON AND MAINCROP POTATOES.

First Prize and Silver Cup National Potato Society.

Carters Snowball (*Round*, *White Flesh*). This fine mid-season is now almost too well known to need description. Its popularity for the show table is now supreme, whilst its fine eating character is firmly established. It is almost round in shape, rough skin, medium haulm and withal a splendid cooking Potato. 34 First Prizes reported last season.

Price 15s. 6d. per bushel or $\frac{1}{2}$ cwt.; 4s. 6d. per peck; 1s. 6d. per trial box.

We export large quantities of Seed Potatoes, for which special quotations are given.

Our customer writes from "Riversmead Farm," P.O. Norvals Point, South Africa:-

"It may please you to learn the consignment of Scod Potatoes reached us in really magnificent condition, due to the exceptionally careful packing."—Alfred Harmsworth.

CARTERS MID-SEASON AND MAINCROP POTATOES.

CARTERS MONARCH POTATO.

"I was delighted with your Seed Potatoes last year. I had 200 lbs. from 14 lbs. of seeds, and I feel sure you will be pleased to hear that they were absolutely free from disease."—GEO. H. PRIDDY, Esq., Bristol.

CARTERS KING OF THE RUSSETS POTATO.

"The seeds you have sent have always given the greatest of satisfaction. I have won many prizes from your seeds. I won a first with your potatoes in a strong class."—Mr. W. Bright, Gardener to the Rev. E. A. Donaldson.

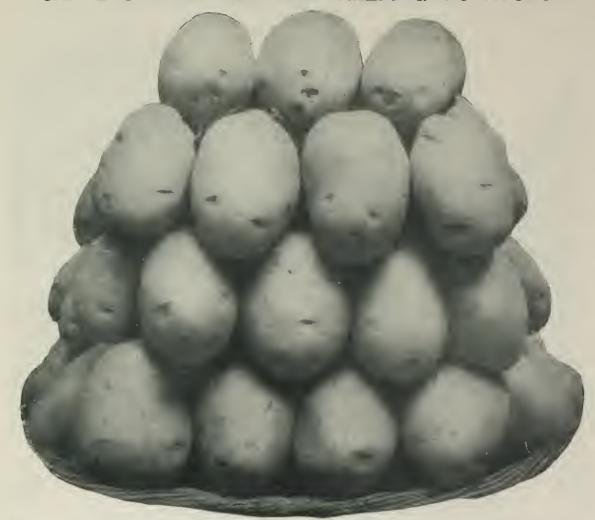

CARTERS GOLDFINDER POTATO.

"I had a splendid crop of your Goldfinder Potato, admired by all who saw.it; and won with a fine stand of vegetables at our show, the produce of your seeds. Your Quite Content Pea being 'quite conspicuous.'"—JOSEPH C. FORDY, Esq., Warkworth.

	Bush	ı. or	Pe	er ck lbs.)	Tı	er ial
Carters Monarch (Round, Pale Yellow Flesh).—Honoured with the highest credentials from the Royal Horticultural Society after critical trials both for cropping, shape, and cooking properties. It succeeds on all classes of soil, and is particularly valuable on heavy retentive soils where others fail		d.	<i>s</i> .	d.	s.	d.
Carters King of the Russets (Round, White Flesh).—A pink-skinned keeping Potato with a white and floury flesh. Strongly recommended as a heavy cropper on medium soils	14	0	4	0	I	6

CARTERS MAINCROP AND KEEPING POTATOES.

Carters Long Keeper (Oval, Pale Yellow-fleshed) (see Photograph above).—The best Maincrop Potato for General Use. Award of Merit, Royal Horticultury. Society. This is a splendid variety, and its valuable qualities are greatly appreciated by all who grow this choice Potato We cannot do better than quote the remarks below for some of its chief characteristics.

Price 14s. per bushel or \frac{1}{2} cwt.; 4s. per peck; 1s. 6d. per trial box.

The Winner of the 50-Guinea Challenge Cup and the Llewelyn Cup says:—"A splendid cropper, cooking qualities excellent, quite free from disease."

Mr. W. A. Cook, F.R.II.S., says:—"Long Keeper is the best we have tried from anyone; a good cropper and free from disease, first-class cooking quality; a potato come to stay."

At the Royal Horticultural Society's Show, the Morning Post, Journal of Horticulture, Gardeners' Magazine, and the Gentlewoman, says:—"Long Keeper was especially good amongst the 160 varieties exhibited."

CARTERS GRASS SEEDS.

Carters Grass Seeds are used on the estates of

HIS MAJESTY THE KING at WINDSOR and SANDRINGHAM,

and also supplied to

Lord's, The Oval, All-England Tennis Grounds, Ascot and Newmarket Race Courses, and all the leading Golf Clubs at Home and Abroad.

Grass Seeds prescribed for all Soils and Purposes.

For Lawns.
Cricket Grounds.
Croquet Lawns.
Shaded Lawns.
Town Lawns.

For Tennis Courts.

Bowling Greens.

Football Fields.

Polo Grounds.

Racecourses.

For Putting Greens.
Golf Courses.
Archery Grounds.
Cricket Pitches.
Recreation Grounds.

CARTERS FINEST GRASS SEEDS.

As supplied to His Majesty's Golf Grounds, Lawns, and other parts of the Royal Estates. A mixture of the very fine bladed species, which if sown, according to our recommendations, should produce a close thick turf on all good soils, and is especially suitable for all games in which the ball is required to run true.

Price 35s. per bushel of 25 lbs.; 19s. per half-bushel; 1s. 9d. per lb.

CARTERS FINE GRASS SEEDS.

A prescription adapted for cold and ungenerous soils, or in any confined situation. A very useful mixture, but of coarser texture than above.

Price 30s. per bushel of 25 lbs.; 16s. per half-bushel; 1s. 6d. per lb.

Hints when Ordering Grass Seeds. See page 129.

Carters Complete Grass Manures, page 132.

Carters Worm Killer, pages 134 and 135.

(See pages 130 and 131.)

Under the "Carter System" a golfing turf of the finest description, similar to that found on the best sea-side links, can be produced almost anywhere and on almost any class of soil in from six to twelve months, and as golf courses are judged to a large extent by the nature of their turf, this is a point of the utmost importance to those interested in the formation of new courses.

During the last ten years nearly 100 new or enlarged Golf Courses have been sown with Carters Tested Grass Seeds.

Our price for Grass Seeds for "through the green" ranges from 21s. 6d. per bushel to 35s. per bushel, according to the texture of grass desired and the time the links are required for play.

Carters Grass Seeds for Recreation Grounds, Race Courses, and other open Spaces.

We prepare mixtures of hard-wearing grass suitable for this purpose at prices varying from 21s. 6d. to 30s. per bushel.

HINTS WHEN ORDERING GRASS SEEDS.

We would respectfully ask our customers, when ordering grass seeds, to give as much information as possible on the following questions; this will assist us in supplying the most suitable mixture for the particular purpose for which the seed is required.

What is the nature of the soil: heavy, medium, or light? Purpose for which the lawn is required:

Pleasure lawn. Croquet. Tennis. Putting greens. Golf courses "thro' the green." Bowling greens. Cricket pitches or outfield. Polo ground. Recreation grounds. Football fields. Shaded lawns or under trees. Town lawns.

Archery grounds. Race courses, etc.

Is the seed required for a new lawn? If so, send a sample of soil.

Is the seed required for renovating an old lawn? If so, send a sample of existing turf.

Is the ground in good heart?

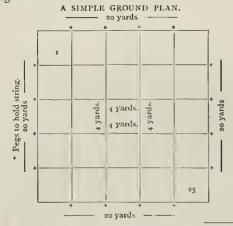

Do you intend to manure the ground? If so, can you procure any well rotted farm or stable manure?

Is the ground well drained? Is water laid on? Quality of seed required.

Notes.—The finest mixture (at 35s. per bushel) is a term used to describe the texture of the turf when grown, and is the very best for pleasure lawns, and lawns devoted to games of skill where the ball is required to run accurately, and for every purpose when best results are required.

The fine mixture (at 30s. per bushel) will also produce a first class turf of coarser texture than the finest; it is most reliable but is intended for ground which may not be worth the heavier expenditure.

To ascertain the nature of the soil, take a handful of damp soil and compress it in the hand, if it binds tightly it can be called a heavy soil, if it binds but not tightly it is a medium soil, if it does not bind at all it is a light soil.

SOWING GRASS SEEDS.

A PLOT 20 YARDS EACH WAY, OR 400 SQUARE YARDS, READY FOR SOWING, MARKED OUT WITH STRING INTO 25 SQUARES OF 4 YARDS EACH WAY, OR 16 SQUARE YARDS.

QUANTITY OF SEED REQUIRED.

One bushel of seeds weighs 25 pounds. The ground should be divided into squares of 4 yards each way, or 16 square yards (see Diagram), and the seed required for that area should not be less than I pound, which is at the rate of I bushel of 25 pounds to an area of 20 yards each way, or 400 square yards.

For renovating purposes, from 4 to 12 lbs, would be required, according to the state of the existing turf for the above area 20 yards square or 400 square yards.

DO YOU KNOW THE CARTER SYSTEM?

Of making Golf Courses, Lawns, &c. Write for Carters Practical Green Keeper, which deals with the making and renovation of grassy lands, post free.

FIRST RECORD.

SUNNINGDALE—FROM HEATHER TO TURF IN 12 MONTHS—BY THE CARTER SYSTEM.
Sunningdale was turned from a waste of heather into a first-class golf course by the "Carter" System in twelve months—The First Golf Course produced entirely from seed. Willie Park, jun., the well-known golf course architect, was responsible for the planning and construction.

SECOND RECORD.

WALTON HEATH-FROM PLOUGH TO PLAY IN 9 MONTHS BY THE CARTER SYSTEM, WALTON HEATH GOLF CLUB, SURREY, 21st December, 1903.

. . . You have converted a waste of heath and furze into a first-class 18-hole golf links, and produced a splendid turf "through the green" and putting greens, which promise to rank with the best in the country.

(Signed) W. HERBERT FOWLER.

THIRD RECORD.

COOMBE HILL—FROM WOODED WASTE TO TURF IN 6 MONTHS—BY THE CARTER SYSTEM.

COOMBE HILL GOLF CLUB, MALDEN, January 23rd, 1911.

We take this opportunity of saying how very pleased we are with the extremely fine quality of the turf with which you have provided us at Coombe, both for the course and greens, and for the very thorough manner in which you carried out the sowing.—Yours truly,

(Signed) GEO. ABERCROMBY, Secretary,

FOURTH RECORD. THE CARTER SYSTEM IN AMERICA.

Gentlemen,

I sowed Carters Putting Green Mixture between the 4th and 8th of September, 1909, cut the grass twenty days later, and opened the greens for playing five weeks after seeding.—Yours very truly,

(Signed) F. C. PICKERING, Greenkeeper.

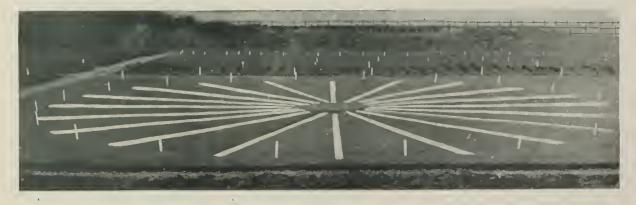

FIFTH RECORD. THE CARTER SYSTEM IN FRANCE.

J. R. HAY GORDON, ESQ.,

DEAR SIR,

We, the undersigned, desire to tender to the Committee of the Nice Golf Club and yourself our sincere thanks for the kindness and hospitality shown to us during our recent visit, a visit we thoroughly enjoyed. Three of us visiting the links again alter an absence of four years, and reviewing the great progress that they have made. we were specially struck with the excellence of the greens. We should like to say that the putting greens you possess reflect the highest credit on those responsible for them. The turf upon them is firmly knit, uniformly good, and of splendid texture; in fact, it is rarely that one has the pleasure of putting over a better or more true surface.

(Signed) JAMES BRAID, A. MASSY, J. H. TAYLOR, J. G. SHERLOCK.

Testing various Varieties of Grass for Putting Greens, Lawns, &c. Each section being a different variety of Grass.

CARTERS COMPLETE GRASS MANURES.

For use in Spring and Autumn.

THEIR ACTION AND HOW TO USE THEM.

Carters Complete Grass Manure (No. 1) is, as its name implies, a complete grass food, that is to say, it contains all that is necessary for the growth of fine grasses, but it does not force or burn them.

DIRECTIONS FOR USE.

When making a new lawn or green, spread the manure evenly over the surface at the rate of 2 ozs. per square yard, and rake it in. The seed can be sown immediately afterwards, but it is better to allow a few days to elapse between the two operations.

For renovating a lawn, spread the manure evenly over the ground at the rate of 2 ozs. per square yard, and rake it in whilst preparing the surface for the seed.

When used to improve existing turf, sow at the rate of 2 ozs. per square yard, mixing the manure with two or three times its own bulk of sifted soil when treating light sandy soils, or sharp sand—sea sand preferred—when treating heavy soils. Prices:—

Tin.	7 lb.	14 lb.	28 lb.	56 lb.	I cwt.	5 cwts.	Io cwts.	15 cwts.	I ton.
								£12 15s.	

Carters Anticlover Manure (No. 2) is also a complete grass food; it is slightly quicker in action than the above, and its constituents are so balanced that it effectively checks the growth of clover, and for this reason it is very valuable for dressing putting greens, tennis courts, croquet lawns, and other lawns in which the growth of clover is objectionable.

DIRECTIONS FOR USE.

Sow at the rate of 2 ozs. per square yard, mixing the manure with two or three times its own bulk of sifted soil when treating light sandy soils, or sharp sand—sea sand preferred—when treating heavy soils. Prices:—

Tin.	7 lb.	14 lb.	28 lb.	56 lb.	I cwt.	5 cwts.	io cwts.	15 cwts.	I ton.
1/-	3/-	5/-	8/-	13/6	21/=	£ 5	£9 10s.	£13 10s.	£17.

Carters General Purposes Manure (No. 3), for rejuvenating large areas of turf for field games, where a strong, tough, hard-wearing turf is required, rather than one of the finest texture.

Very useful for dressing golf courses, "through the green," football, hockey, cricket fields, &c., &c.

DIRECTIONS FOR USE.

Mix the manure with two or three times its own bulk of sifted soil or sand, so as to facilitate its even distribution, and apply it broadcast at the rate of 5 cwts. per acre, either in early autumn or spring, and bush harrow it in. Prices:—

16/-	£3 15s.	£7	£9 15s.	£12.
1 cwt.	5 cwts.	10 cwts.	15 cwts.	I ton.

For other Manures, please see page 286.

Carterite, for exterminating daisies and shallow rooted weeds in lawns, &c. For prices see page 286.

The above prices are carriage paid for England, Scotland, Wales, and Ireland, and F.O.B. London for export orders.

RANSOMES' LAWN MOWERS

THE BEST IN THE WORLD.

AWARDED:

THREE GOLD MEDALS and SEVEN SILVER MEDALS.

"PATENT AUTOMATON" (illustrated)

(With Chain or Wheel Gearing, as preferred).

The best General Purpose Machines made. Will leave a fine velvety surface on the Lawn. Sizes:—8 in. to 24 in.

"AUTOMATON MINOR" (Chain or Gear driven, as preferred).

These Machines are much lighter and cheaper than the celebrated "Patent Gear Automatons," and are specially suitable for small gardens. Sizes: 10 in. to 16 in.

"NEW EMPIRE" (with Ball Bearings), "EMPIRE," "ANGLO-PARIS No. 2," and "LION."

The highest class Side-wheel Machine. Can be recommended with confidence. Sizes:—13 in. to 21 in.

"EMPIRE."

Similar to the "New Empire." A very useful Machine for the Putting Greens of Golf Courses. Sizes:—10 in. to 16 in.

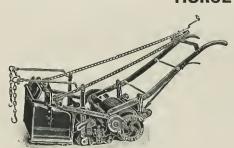

"ANGLO-PARIS No. 2."

For small gardens and ladies' use. Sizes:-6 in. to 20 in.

"LION."

The best cheap Machines. SIZES :- 9 in. to 15 in.

"HORSE AND PONY" MOWERS.

The best large Machines. Used on all the principal Cricket Grounds, Golf Courses, and Public Parks. Sizes:—26 in. to 48 in.

MOTOR LAWN MOWERS.

The first Petrol Motor Mowers brought out. Reputation Established.

Hundreds in successful use. Made in various sizes.

All Machines sent Carriage Paid.

Illustrated Catalogues from Messrs. Carter by return of post, or from

RANSOMES, SIMS & JEFFERIES, Ltd., IPSWICH.

From our practical experience of these Machines, we can recommend them with every confidence to our customers.

MUDDY LAWNS.

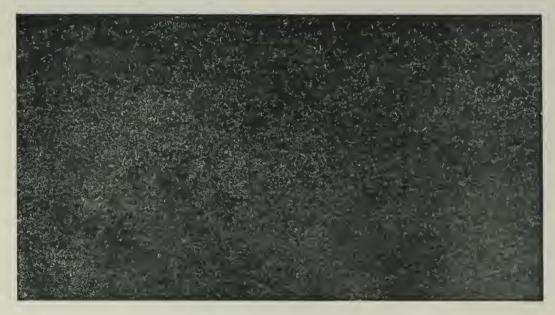

A typical piece of worm infested, soft muddy turf. Requires brushing and rolling daily from September to June, which means damaged turf, roots bruised and exposed, fine grasses sniothered, and ultimate bare patches.

The soft, sticky, muddy, and wet condition of tennis courts and lawns during the Autumn and early Spring is entirely due to the movement of millions of worms which loosen the soil and throw to the surface tons of slimy, sticky, wet mud.

If any attempt is made to make the grass firm by rolling, the casts either stick to the roller and soil is actually taken away from the lawn, or else they roll down hard and smother out the fine grasses. If they are swept off with a broom, the lawn is not only impoverished by loss of soil, but the grass, being smeared over with the slimy mud, becomes unhealthy, and the action of the broom bruises the surface roots of the grass and exposes them to the air, with the result that many of the finest grasses die; and, in both cases, the lawn remains soft, dirty, wet, and cannot be used.

When the worms are exterminated a soft, wet, sticky lawn **improves immediately,** and becomes firm, **clean under foot** and healthy, and games can be played both early in the Spring and quite late in the Autumn, when wormy lawns are absolutely unplayable.

CLEAN LAWNS.

The result of using Carters Worm Killer. Turf clean, firm, and healthy, an occasional light rolling alone necessary to keep it in perfect playing condition.

To put the matter in as few words as possible, the movement of multitudes of worms keeps the soil continually on the move, and kneads it up into a pasty, sticky, soft mass, which is unsuitable for the growth of fine grasses, and puts the lawn out of use from September to May.

When the worms are exterminated the lawns keep **green, clean, firm,** comparatively dry, and games—such as lawn tennis, croquet, bowls, lawn golf, &e—ean be played on many a fine day both in the Spring and Autumn, when under the old conditions play would be impossible on account of the soft and muddy condition of the lawn, brought about by the movement of the worms in the soil throwing their slippery easts on the surface.

The ingredients of Carters Worm Killer are so carefully balanced that not only does it destroy the worms, but its manurial properties **immediately improve** the growth and texture of the turf.

Carters Worm Killer. See also pages 134 and 286.

Spread \frac{1}{2}\text{-lb. over one square yard during mild weather, and well water in. Complete Directions with each package.

Price 3s. per 14 lbs.; 5s. per 28 lbs.; 7s. 6d. per half-cwt.; 12s. 6d. per cwt.; 5 cwt., £3; 10 cwt. £5 10s.; £10 10s. per ton.

THREE GOLD MEDALS AWARDED BY THE R.H.S. TO CARTERS JAPANESE GARDENS.

KING AND QUEEN—VISIT TO THE TEMPLE FLOWER SHOW.—"Their Majesties walked through Messrs. James Carter & Co.'s Japanese Garden, the Queen paying particular attention to the tea house which the firm specially imported."—The Daily Telegraph, 24th May, 1911.

LANDSCAPE GARDENING DEPARTMENT.

DUTCH GARDEN.

HERBACEOUS BORDER.

ROSE GARDEN.

Designed and Constructed by James Carter & Co., for D Wynter, Esq., at Bishopswood, Highgate. We keep an efficient staff of experts for examining sites and preparing Designs and Estimates for

GARDENS, PARKS, LAWNS, ROCK GARDENS,

and all kinds of

ORNAMENTAL GROUNDS,

and to give advice for

RE-MODELLING AND IMPROVING EXISTING GROUNDS.

The works in this department are necessarily of such a character that only men capable of exercising correct judgment, skill, and good taste should be employed in their execution.

We keep on our permanent staff draughtsmen for preparing plans and drawings of Gardens, Greenhouses, Palm-houses, Conservatories, Winter Gardens, and all kinds of Rustic Work.

JAPANESE LANDSCAPE GARDENING

A SPECIALITY.

For Photograph of our Japanese Garden, please see opposite page.

We have been awarded THREE GOLD MEDALS and THREE SILVER CUPS by the Royal Horticultural Society for our Japanese Gardens at the Great Temple, Holland Park, and Olympia Shows, 1909, 1910, and 1911.

JAPANESE DWARF TREES.

Our collection contains historic and ancient specimens of dwarf oaks, thujas, larix, cherry, &c., ranging in price from 21s., and we are always pleased to have examples brought up for inspection at our London establishment, 237 & 238, High Holborn, or at Raynes Park, S.W.

Carters
Japanese

and GARDEN WARE specially imported from

Lanterns

Japan for

Japanese Landscape

Gardening.

A Photographic Album

will be sent on application. Prices range from 8 guineas. Inspection invited at

Raynes Park and High Holborn.

Carters Address for all Correspondence, RAYNES PARK, LONDON, S.W.-1912.

CARTERS POPULAR BOXES OF SEEDS.

The Seeds offered in our Collections are of the best re-selected stocks only, taken from the same sacks as when general orders are given from our Catalogue. We can supply more Seeds for the money when purchased in this form, because we put up these Collections by the hundred, which effects a great saving in labour. They are ready for immediate dispatch, packed in wooden boxes and sent carriage free to any Railway Station in the United Kingdom on receipt of remittance.

It is inconvenient to make alterations in these Collections.

MUCH REDUCED PHOTO OF

CARTERS LONG-SPURRED AQUILEGIA.

Hardy perennials of great beauty and utility in borders, where they will bloom freely when established, early in the summer. The long-spurred type, of which we make a speciality, gives elegant cut flowers. We have now included some new and effective colours. Sow seeds under cover in February for transplanting in spring to a border, when, if the summer is favourable, they may bloom in autumn. If sown in summer sturdy plants will be ready by autumn for transplanting to the border to flower next May and June.

No.	191.	Carters Long-Spurred Blue (CGERULEA). This beautiful large flowered free-blooming Per packet - s. d.

Carters Large-flowered Intermediate Antirrhinum.

This is undoubtedly the finest form, both for bedding and ribbon borders, the dense, well-formed trusses contrasting beautifully with the deep green foliage. We recommend the following varieties as representing the highest forms of this useful plant, now so greatly in vogue.

The trusses are excellent for cutting, and being slightly curved lend themselves to any decorative arrangement. Height, I to 1½ foot.

ANTIRRHINUM or SNAPDRAGON—Continued.

Carters Dwarf Large-flowered Antirrhinum.
No. 173. Carters Dwarf, Choicest Mixed. Height, 6 inches ...

Sow the seed in pans or boxes from February to March, and transplant to bed or border when large enough. If the withering flowers and seed pods are kept picked off, the plants will last in bloom for a long time, and continue again the following year. Can easily be grown as Annuals if sown in the open ground in April Thin out about 12 inches apart.

Carters Dwarf Largeflowered.—A compact strain. Flowers variously coloured. This type makes a good pot plant, and is invaluable in borders or beds. Height, 6 inches. We offer the following colours in the Dwarf Section:—

The most noble flowered Aster in cultivation. With flowing feathery petals; grand for cutting. Height, about 18 inches.

We have measured blooms 6 inches across.

For other varieties, see following pages.

Carters Seedsmen by Appointment to His Majesty the King-High Holborn, London,

ASTER.

Since the introduction of this beautiful garden Flower into England by the late Mr. James Carter, about the year 1830, continuous skilful cultivation has produced the present developments in form and colour.

The whole group may be described as HALF-HARDY ANNUALS, the seeds being best sown under glass in early spring, and the seedlings pricked out into boxes or in frames for planting out or potting as the occasion requires, when they are ready about June.

The Aster in its various tall and dwarf forms makes a grand Bedding Plant, as its fullest beauty appears when the ordinary summer flowers are beginning to look rusty. The blooms are freely produced and last long, and are effective until spoilt by the frosts of autumn. The magnificent Ray varieties, see page 151; White Plume, see page 154; Victoria, see page 152, and the fashionable Single Comet types on page 153, together with the Comet and Chrysanthemum-flowered types described below, should be largely grown in every garden.

Carters Sinensis Single.—A free growing single Aster, suitable for vases and house decoration. Height, 18 inches.

CARTERS EXHIBIT OF CHOICE DOUBLE SEEDLING BEGONIAS AT R.H.S. HOLLAND HOUSE SHOW, JULY, 1909.

"I am writing to say what lovely Begonias I had from the packets of seed I had from you last year. They were much admired by the Ladies and Gentlemen who visited our gardens last summer."—
Mr. Hector, Head Gardener to F. Hobson, Esq.

"I am sending you a specimen bloom of one of your seedling Begonias. I got a 3s. 6d. packet of seed from you in spring, and I sowed half the quantity, and have got one hundred splendid plants in bloom now."—

P. Addison, for P. GASKELL, Esq.

CARTERS CHOICE DOUBLE BEGONIA.

TUBEROUS ROOTED.	s.	ď.						
Begonia, Carters Choicest Double.—This fine strain contains all the largest and best								
forms and most brilliant colours in cultivation. The Begonia is fast becoming a popular summer								
bedding plant, displacing the Geranium in many gardens.								
No. 296. Per packet 1s. 6d., 2s. 6d., 3s. 6d., &	5	0						
Begonia, Carters "Fringed" Double.—A production of great novelty and beauty.								
No. 297. Per packet	5	0						

CARTERS "CROWN JEWELS" BEGONIA BULBS. See page 262.

Carters Correspondence, RAYNES PARK, LONDON, S.W.-1912.

CARTERS CHOICE SINGLE BEGONIA.

TUBEROUS ROOTED.

A VERY POPULAR PLANT FOR POTS AND BEDDING OUT.

Begonias are much superior to Geraniums for bedding, being quite unaffected by heavy rains, a moist atmosphere suiting them.

Begonia, Carters "Crown Jewels" Mixed Single, Including Fringed vars. as illustration—

It is impossible to praise too much this superb strain of this highlyfavoured flower; it is simply perfection, and needs but finished culture to attain pleasing results, alike for size and quality of the flowers, combined with brilliance in colours. Grand for bedding out.

BEDDING BEGONIAS-PERPETUAL FLOWERING, SMALL BLOOMS IN CLUSTERS. FIBROUS ROOTED.

Crimson Bedding. - Dwarf compact variety, flowers crimson, foliage deep blood red with metallic sheen.

The seed should be sown in heat at end of winter to produce strong flowering plants in the summer, in pans of very fine soil. Prick off the seedlings into pans and pot off later. Care should be used when sowing, as the seed is very

fine. We can also supply tubers ready to start into growth in early spring. See page 262.

These Begonias are invaluable for growing in beds and groups; also for pot culture. They come into bloom very early, and last all the season.

For Double varieties, see page 159. For dry roots, see page 262.

ORNAMENTAL GRASSES FOR DECORATIONS.

Cultivation.—The annual varieties should be sown out of doors during April where they are intended to flower, or for earlier work sow under glass and plant out. The perennial varieties are best sown during summer, and planted out in borders in spring. The flower heads should be cut in a young stage and hung upside down to dry, as they are then more lasting for decorative purposes.

Hints on Culture.—Balsams may be sown from the beginning to the middle of April in pans or on a slight hot bed, in a light rich loam compost, covering the seed about half an inch, keeping the soil moist, but not wet. When the plants have formed the second pair of leaves they may be transplanted, four round the edge of a 6-inch pot, and gradually hardened off for transplanting out of doors; or they may be planted in a cold pit, 4 inches apart, as near the glass as possible, giving more air as the season advances until June, when they may be turned into the open borders, the warmest situations being the most suitable. If for pot culture, they must be divided and transplanted into single pots, once or twice into larger pots, picking off the flowers in the earlier stages of growth to give greater vigour.

Carters Seedsmen by Appointment to His Majesty the King-High Holborn, London.

CALENDULA COCKADE ORANGE.

CALENDULA (GARDEN MARIGOLD).—Annual. Very showy border plant, lasting the whole of the summer without any attention whatever beyond keeping the seed vessels picked off. Not at all particular to either soil or surroundings, and may be described as everybody's flower. Sow in spring where plants are intended to flower.

CARNATION AND PICOTEE.

A popular and lovely flower, always in fashion. In colour and form unique, with a pleasing fragrance in many types. Whether grown in pots for conservatory decoration or in the garden bcds for summer display, its charms are equally attractive. Our seed is saved with the greatest care, and should produce a large percentage of the very best flowers, but unfortunately, as with other florists' flowers, it cannot be guaranteed that every one will come double.

Carters Choice Double Carnation.

No. 388. A splendid mixture of Selfs, Flakes, Bizarres, Fancies, and Yellow Grounds,

All varieties mixed,

1s. 6d., 2s. 6d., and 3s. 6d. per packet.

Sow in spring in cool frame, prick out, and plant out in good soil when strong enough.

CARTERS ANNUAL CARNATION.

CARTERS ANNUAL CARNATIONS.

Bloom in six months from seed.

Carnations are favourites with all lovers of flowers. This new strain will bring them within the reach and the cultivation of everybody, as it is one of the most valuable introductions of modern times.

Sow under glass in January and February, and transplant as soon as ready. They commence to flower in July, producing a wealth of large blooms of great variety in colour until cut off by the frost, thus producing a supply after the perennial varieties are over. Being equally valuable for indoor cultivation, some can be potted and placed in a cool greenhouse, when they will provide a succession of bloom during the winter months. They produce a very large percentage of double flowers. and include a most varied assortment of Fancy, Yellow Ground, Bizarre, as well as Selfs, rich with delightful fragrance and diversity of colour.

No. 389.

CENTAUREA, OR GIANT SWEET SULTAN.

The flowers of this greatly improved annual are at least twice the size of the older varieties. It is most deliciously scented, with long flower stalks to facilitate cutting, and when cut will last in water for a fortnight. In this respect alone it exceeds any other annual we can call to mind. We give this flower the highest possible recommendation. For ordinary Sweet Sultans, see page 255. Height 1½ foot.

May be sown in pots and pricked out for early flowering, or in open borders in spring for general work.

CHRYSANTHEMUM ANNUAL.

Of all Annuals these pretty flowers hold a leading position, and many of them have been raised on our Seed Farms. All are beautiful in beds and borders and good for window boxes, or cutting. Sow seed in spring in boxes for early flowering, and in the open for general work. Some varieties make useful pot plants; for this purpose they should be sown under glass. 1½ foot.

CARTERS BRILLIANT PRIZE CINERARIAS GROWING FOR SEED AT OUR NURSERIES.

Carters Brilliant Prize Cineraria.—The only strain awarded four Gold Medals by the Royal Botanic Society.

Our house has long been famed for its Cinerarias, and extra care has been taken in the selection of the plants this season. The colours are simply lovely, consisting of vivid self and brilliant bordered varieties, in an unequalled diversity of shades.

Sow seed in pans filled with a good light sandy compost in spring up to the beginning of June, and place in a cool frame. Transfer to small pots as soon as the seedlings have developed their leaves, and pot on as the plants require it. They should be grown in a cold frame until frost necessitates their removal to a greenhouse. Even in winter they should not receive much artificial heat. Will come into bloom from Christmas to May.

AWARDED TWO SILVER CUPS BY THE ROYAL HORTICULTURAL SOCIETY IN 1910 AND 1911.

"The Cinerarias raised from your seed sown in August are now in full bloom and make a wonderful show."-R. NESBITT, Esq.

CARTERS CACTUS CINERARIA.

variety has now obtained general approval, especially for decorative arrangements, for which purpose it has proved marvellously effective, being a valuable adjunct to the much admired Carters *Brilliant Prize*. It should be raised and treated in the same manner as the other greenhouse varieties.

No. 446. Carters Choicest Mixed per packet, 1s. 6d., 2s. 6d., 3s. 6d., and 5s.

CARTERS DECORATIVE CINERARIAS.

break in Cinerarias; the edges of the florets recurve like a single Cactus Dahlia. The colours include white, blue, blush, violet, mauve, and some have a white zone surrounding the dark disk, the florets being tipped with violet, blue, &c. The flowers when cut last a long time, and by their lightness and elegance make charming table decorations.

A grand mixture including all shades of colours.

No. 429. Carters Choicest Mixed per packet, 1s. 6d., 2s. 6d., 3s. 6d., and 5s.

CARTERS STELLATA CINERARIA.

CLARKIA.

CLARKIA BRILLIANT PRINCESS.

Well-known HARDY ANNUAL, of great decorative value and easy culture. Seed should be sown in spring in the open border. The Elegans type are excellent for vases, as the long spikes continue to bloom for many days. Sown during autumn and grown on in a cool-house, Clarkias make magnificent plants 4 to 5 feet high for greenhouse decoration or winter garden.

Duke of Connaught.—Deep cherry colour. 508. " 500. 510. Fairy Queen. - Pale rose, compact habit. Mont Blanc. - Magnificent, pure white. 511. 512. Each, price per packet, Princess Ida.—Blush, with dark rose base, 513. 1s., 1s. 6d., and 2s. 6d. Princess May.—A dainty soft pink.
Rosy Morn.—Bright rose, dark claret base. 514. 515. Sunray. - From dark to light rose, flamed scarlet. 516. The Sultan.—The richest coloured Cyclamen; intense crimson. 517. Complete Collection, as above, 13 varieties for Six varieties (purchaser's selection) 518. Cyclamen, mixed, older varietics ., 520. per packet, 1s., 1s. 6d., &

CARTERS CRESTED CYCLAMEN.—A very pretty type of flower, contrasting conspicuously when mingled with a collection of the ordinary type. The flowers are also very lasting Choicest mixed.

No. 522. Per packet, price ts. 6d., 2s. 6d., and 5s. each.

CARTERS BUTTERFLY CYCLAMEN.—The colours are surprisingly varied and heautiful. The petals of the flowers are broad across the top, and the edges finely curled or waved, on a long and slender stalk. Choicest mixed.

No. 521. Per packet, price 1s. 6d., 2s. 6d., and 5s. each.

Sow at any time (spring and autumn to be preferred) in pots or pans, in peaty loam and sand, covering the soil scarcely a quarter of an inch, place on warm shelf near the glass in greenhouse keeping the soil moist but well drained. The sed takes from four to eight weeks to germinate. When the bulbs are the size of a pea transplant singly into small pots, transferring to larger pots as the plants develop. An average of 60° is the temperature best suited for producing well-developed flowers, and good ventilation without draught is a safeguard from disease. We also supply dry bulbs at the end of the summer (see page 271).

Novelty. — Carters Raynes Park Gem. — Novelty.

Height 1 ft., very floriferous, Colour a glowing dark scarlet.

We find this variety succeeds best when planted in pots or very firmly in light soil not too rich in character, allowing $2\frac{1}{2}$ feet between the plants. When cultivated in rich soil the plants are liable to produce a large amount of foliage at the expense of flowers.

Each plant forms a compact bush, and its large handsome blossoms are thrown well above the foliage. If planted out in June a brilliant display will be produced from the middle of August onwards. Plants in small 60 pots will be ready for delivery by middle of May. Orders may now be booked.

Price 2s. each, or 18s. per dozen.

Dahlia.—Carters Cross-fertilised Strains. Our strain has been specially hybridised and fertilised with various species, and should produce some novel kinds. Sow the seed in early spring, in heat, and pot off. Plant out as soon as large enough in June. Plants raised very early will bloom the same season. We can supply plants in May, see page 271.

CARTERS PERENNIAL DELPHINIUM.

DELPHINIUMS.

The Perennial Delphiniums are best sown in summer, as they then make strong plants to flower following season. They can also be sown early in spring, and are very effective in borders during the early summer the following

CARTERS ANNUAL DELPHINIUM BLUE BUTTERFLY.

DELPHINIUM.

Carters Annual **Delphinium Blue** Butterfly (see illustration). — The greatest acquisition in blue annual flowers for many years. The Royal Horticultural Society, when granting it the Award of Merit, stated in their report that it is "a dainty annual of bushy branching habit, and very floriferous." The seed should be sown early, in heat, and grown on in pots until ready for bedding out. Late sowings do not make effective plants until too late in the season.

Height 15 inches.

No. 539. Per packet, price 6d., 1s., and 1s. 6d.

DIANTHUS CHINENSIS (Indian Pink). Biennial. We consider the *Heddiwigi* section of the Dianthus introduced by our house from the East, and the parent of many of the best types, to be one of the finest additions to our annual flora for the last fifty years, and the varieties detailed on the next page are the improved results from the original importation. Sow in spring in boxes or pots, and transplant to where intended to bloom. Seeds of all the improved types may be also sown at the end of summer, and grown on in pots through the winter under fairly cool treatment. They will make robust plants at the end of spring, and become useful in the decoration of the conservatory. (See opposite page.)

DIANTHUS.—Continued.

NEW ESCHSCHOLTZIA.

Carters New Hybrids.

Following on our previous successes in introducing new colours in Eschscholtzlas, we again have much pleasure in bringing to the notice of our customers these new hybrids. They are the outcome of the following artificial crossings:-

CARMINE KING (x) MANDARIN. CARMINE KING (x) CALIFORNICA. DAINTY QUEEN (x) CALIFORNICA. MANDARIN (x) WHITE.

The plants of the first generation of these crosses were allowed to fertilise themselves and the new hybrids we now offer for the first time are the result. They contain many shades and tints of colour not yet seen in Eschscholtzias, intervening between the pale rosea and the intense Mikado, and between the lemon Californica and the brilliant Carmine King, giving a play of colour at once interesting and brilliant.

No. 1576. Price per packet, 1s.

No. 635. The Mikado. Award of Merit, R.H.S.

The Mikado has brought a new colour into the Eschscholtzias, the result of a cross between Mandarin, which we introduced in 1879, and Carmine King, our great novelty of 1906. The blend of these two colours has produced a brilliant orange-crimson suffused with the lustre of the Carmine King. To a small percentage the colour favours almost entirely the carmine parent.

Price per packet, 1s.

it was awarded a First Class Certificate by the Royal Horticultural Society

No 1491. Carters Double Orange.

Per packet-s. d. An improvement on the original form which we introduced for the first time in 1879, when

No. 581. Carters Carmine King,

This was introduced by us in 1906 after having received an Award of Merit from the Royal Horticultural Society. Plants in flower have excited admiration wherever seen, the lustrous earmine colour being quite novel in Eschscholtzia ... 6d. & I o

No. 584. Carters Diana.

This is a most dainty flower. The eolour is a rosy white, while the petals are fluted in a most novel manner, giving the flower quite a fantastic and attractive appearance ... 6d. & I o

No. 1490. Dainty Queen.

A beautiful shade in Eschscholtzias. Colour a tender blush or pale coral pink, slightly deeper towards the edges, with a groundwork of delicate cream; same colour inside as outside the flower. The blossoms stand well above the bright green foliage, giving it a singularly attractive appearance 6d. & 1 o

CARTERS PYRAMID FORGET-ME-

NOTS (see Photograph).—We offer these charming pyramidal types of Forget-me-nots with confidence that they will be greatly appreciated by our customers for spring bedding purposes. The plants assume an upright habit of growth, and when in bloom, resemble miniature pyramids of floral beauty. These new Forgetme-nots are especially valuable for planting in combination with Tulips, as their upright habit does not check the growth of the flower spikes from the bulbs or make a bed appear so crowded as when plants of more exuberant growth are used as a ground work. The seeds should be sown out of doors on a partially shaded border towards the end of summer. Height I foot.

Culture.—Sow in well-drained pans from January to March (or in the autumn), fill the pans with soil consisting of a mixture of half peat and half leaf mould, with a small quantity of pulverised charcoal and silver sand sifted very fine, to within half an inch of the rim; water with fine rose, then sow the seed thinly, taking care not to cover it with soil; place in a temperature of 75 deg., and cover the pans with a piece of shaded glass, gradually removing the same as the seedlings progress. When large enough to handle, prick off no pans at about one inch apart, then pot off into single pots. Many will soon attain the requisite strength to go into 5 inch or 48 pots, and will bloom in August and September of the same year. The potting-off soil should consist of one-half good loam, one-half fibrous peat, with a good sprinkling of sand and broken charcoal.

For price of Gloxinia Bulbs, see fage 271.
"The Gloxinias, the seed of which I had from you, have been splendid, the very best I have ever had."—J. G. Crossman, Esq., Nuteroft.

GODETIA. CARTERS DOUBLE PINK.

[&]quot;The Godetias I had from you last spring are a fine show just now, and have been much admired."—Mrs. RAE.

GODETIA.

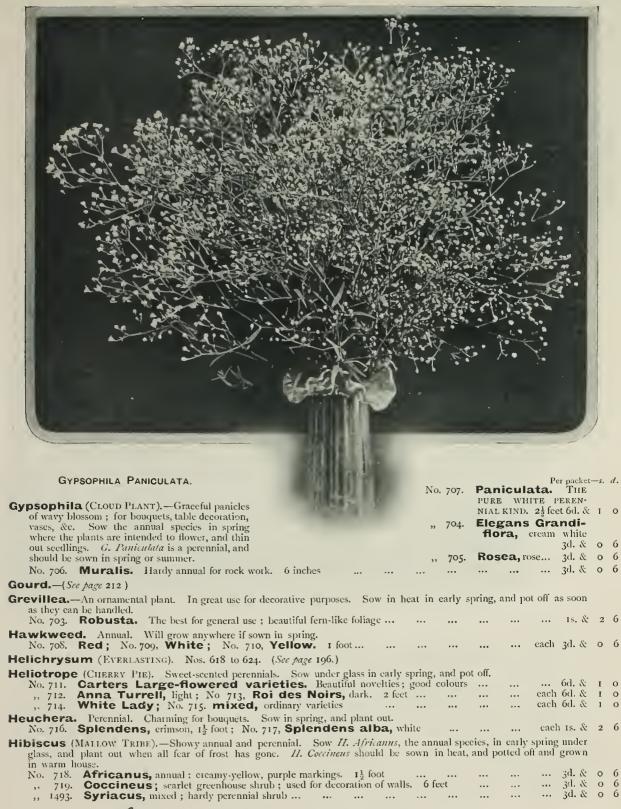

One of the showlest of all annual flowers,

We have grown them in large areas for many years and were awarded the First Class Certificate of the Royal Horticultural Society for that beautiful variety, Lady Satin Rose, perhaps the finest annual flower ever raised. The Godetia makes an excellent cut flower.

HOLLYHOCK.

Owing to the ravages of the Hollyhock rust or brand, the cultivation of this stately plant has been given up in many gardens.

Now that so many beautiful forms are to be obtained quite true from seed, this delightful subject should again become popular, as seedlings are less prone to the disease than plants raised from cuttings. We therefore recommend our customers to again give this useful plant a place in their borders.

Where plants have suffered from rust in previous years, seedlings should be sprayed with Bordeaux Mixture early in spring, and again when the flower spikes are forming.

Seed is usually sown in summer, and the plants grown on to flower next season, but some prefer to sow in boxes or on a hot-bed early in the year, prick the young plants out, and plant out in April to bloom same summer. We can supply plants in spring.

LOBELIA.

Very popular garden plants. The compact-growing varieties are sown in winter under glass, and transplanted into boxes for growing on to be ready by the bedding-out season. The spreading varieties are suitable for hanging baskets and window box edgings, whilst the true perennial species are grown as pot plants or single specimens in beds for summer decoration.

Ornamental Gourds which require about the same cultivation as Vegetable Marrows, should be largely grown in Flower Gardens and Pleasure Grounds.

Trained over a Pergola, as illustrated above, they form a distinct, interesting, and beautiful feature. The smaller fruiting Apple, Orange, Pear, and Egg-shaped kinds produce a charming effect when trained over arches, while the majority of varieties have a very charming effect when tied up to poles.

The Pumpkin, Squash, and Turk's Cap varieties are eaten very largely on the Continent and in the United States.

NEW FLOWERS AND VEGETABLES.

Since 1857 our House has been responsible for considerably over two hundred introductions to the Floral World, and this number is now being rapidly approached by the number of New Varieties of Vegetables emanating from our establishment, and pronounced of sterling merit by competent judges. As far as space will allow these novelties are to be easily identified by The Royal Horticultural Society's Reports, as in most cases we prefer to Catalogue only those new kinds that are fortunate enough to be launched with a

FIRST CLASS CERTIFICATE OF THE ROYAL HORTICULTURAL SOCIETY.

CARTERS COMPACT STRIPED.

FRENCH MARIGOLD.

Carters Gold Edged .- A beautiful annual of compact but vigorous habit; flowers a velvety maroon, with gold edge; very constant, and owing to its deep root is able to withstand drought; makes a handsome edging plant. Height, I foot.

> Per packet-s. d. No. 842 6d., 1s., & 2 6

Carters Compact Striped. -Beautiful large double blossom, dwarf variety, about 1 foot; continues blooming until the end of summer.

Per packet-s. d.

No. 845 6d., 1s., & 1 6

For other varieties, see opposite page.

SWEET-SCENTED GARDENS.

The following is taken from correspondence addressed to the Editor of The Daily Mail:—

"This latter plant, although but little known, should be in the garden of every lover of sweet things. During the day it is scentless and insignificant looking, but towards dusk it emits a delicious perfume that continues all night."—A Lover of Scented Gardens .- Mathiola, s'e opposite page.

FRENCH MARIGOLD.

This showy annual can be sown in spring and thinned out where expected to bloom; they may also be sown in March in boxes or pots under glass, then transplanted into other boxes, three inches apart, to make sturdy stuff for planting out in June or earlier. Marigolds are profuse bloomers, particularly so if all dead flowers are cut off.

are cut on.

CARTERS PERFECTION MIGNONETTE,

A giant red-flowered variety with a delicious scent.

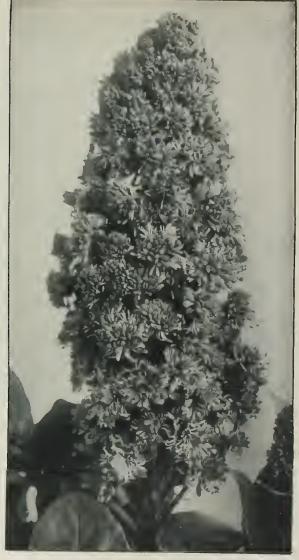

This fine strain is a very great improvement, and owing to its robust habit the seedlings require plenty of room, when they will make bushy plants resembling Intermediate Stocks. The spikes of bloom are larger than any other variety, and the habit much less straggling. If the seed-pods are kept pinched off, the beauty of the plant will extend over a long period, and with care in this respect will continue until cut down by frost.

No. 859. Per packet, 6d., 1s., 1s. 6d., and 2s. 6d.

(For other varieties, see opposite page.)

in spring under glass.

Half-hardy annual. To those who know only the original kind, the present magnificent specimens will come as a delightful surprise, the blossoms being of grand size and richly coloured. Besides being of service in beds and borders, they make nice pot plants.

Sow in early spring, in pans under glass, and prick off into boxes, and plant out when hardened. For pot work, the seedlings should be pricked out, and potted off in good light compost, and kept in warm frame.

		(For other varieties, see pages 220 and 221.)

DWARF NASTURTIUM.—Continued.

Nasturtiums, both climbing and dwarf, are of the easiest culture, and anyone desirous of having a display of the most brilliant flowers, without any trouble beyond sowing the seed, should select this delightful family, as they will give off their best efforts through the brightest of the summer, merely needing the seed-balls picked off. If these are permitted to mature, the beauty of the plant is soon lost.

Although the colours of the dwarf varieties contain many more shades and tints than the climbing section, both may be grown near the ground if the situation requires it, but the Climbing Nasturtium shows off its best features when climbing over a fence or clambering up rustic woodwork.

Those who recollect the ordinary garden Nasturtium of "sixty years since" can best appreciate the immense advance we have made in the colour, habit, and beauty of these most invaluable adjuncts to every garden; and we are gratified to think that the greater number of new varieties now in cultivation are the result of our own persistent care and attention at our Seed Farms in Essex, where in 1858 we raised and exhibited the Scarlet Tom Thumb variety, and received a certificate for it from the Floral Committee of the Royal Horticultural Society. They make the most elegant of edging plants to floral walks.

"We had some Nasturtium last year for the beds and they were admired a great deal,"

Carters Seedsmen by Appointment to His Majesty the King-High Holborn, London.

-Mr. W. Kings, Gardener to T. O. Lloyd, Esq., Warwick.

[&]quot;Your Nasturtium seed was a pretty mixture and was much admired."—SOPHIA OLNEY, TOTTERIDGE.

CLIMBING NASTURTIUMS AND TROPÆOLUMS.

The Climbing Nasturtium has long been a popular annual flowering plant, as when once the seed is sown it requires no further attention. It is invaluable for covering unsightly spots, as when the position does not admit of its climbing, it is equally at home as a creeper. The seeds must not be sown until all chances of frost are over.

Carters Address for all Correspondence, RAYNES PARK, LONDON, S. W.-1912.

Per packet-s. d

(See Photograph opposite for Reference Numbers.)

No. 947. Carters International Prize (See Nos. 1 and 3.)—A superb mixture of the largest and best types in every class. Will produce enormous blooms in all the richest colourings and markings. As the name suggests it is the best of all English and Continental strains, grown under our personal supervision, and acclimatised in this country 1s., 1s. 6d., 2s. 6d., &

Carters Giant Curled (See No. 8.)—Large flowers of striking form and immense 948. fullness, giving them the appearance of being somewhat double. They are variously coloured in all the richest shades, markings, and lacings, and prettily fimbriated. Quite a new class of the greatest beauty...1s., 1s. 6d., 2s. 6d., &

Carters Prize Show (See No. 6).—The largest blotched and richly belted types. Very fine for exhibition or cultivation in pots 1s., 1s. 6d., 2s. 6d., & Carters Fancy Striped (See No. 5).—Elegantly striped, splashed, and mottled, a 950.

very curious combination of colours that cannot fail to elicit astonishment. The flowers are large and freely produced, and the habit of the plant dwarf and compact ... is., is. 6d., &

Carters Peacock (See No. 7).—The only variety possessing the true Peacock blue 951. colours. Introduced by our House 6d., 1s., & Lord Beaconsfield (See No. 4).—A lovely Pansy, the lower petals being a rich dark

952. velvet blue and the upper ones a silvery blue 6d., 1s., & President Carnot (See No. 2).—One of the preitiest grown. All blue flower with a 953.

wide belt of white round the outer edges. Very effective in beds and borders 6d., 1s., & Fairy Queen.-Rich lavender blue, edged with white; very effective and profuse

954. bloomer, but not so large in size as Carters International Prize

Silver Edged.—Deep maroon, with pure white margin; very effective and profuse 955. bloomer, but not so large in size as Carters International Prize

The following selection includes all the largest of the self-coloured varieties:-Per packet-s. ... 6d. & Carters Blue.—True blue; distinct shade; very large No. 956. **Jet Black.**—The first and best; rich velvet texture; extra fine strain 6d & 957. Pure White.—A lovely flower, without eye; very pure ... 6d. & 958. Rich Yellow.—Bright, rich, and pure; a very effective shade 6d. & 959. Rich Maroon Red.—A beautiful and showy thing; quite distinct 6d. & 960.

Rich Purple.—Large and showy; bold massive flowers; very fine ... 6d. & 961. Royal Standard.—Golden Yellow... ... 6d. & 962. Emperor William.—Blue, with dark eye... 6d. & 963.

Mixed Pansy.—Ordinary ... 3d., 6d., & 967.

It is now more than half a century since the late Mr. James Carter took this plant in hand with a view to its improvement in size and range of colourings, and one of our earliest successes was Jet Black Pansy (see No. 957). We also introduced the Peacock Pansy (see No. 951). Both are still amongst the best in cultivation.

Cultivation.—The Pansy will succeed in any soil that is not too hot and dry, and if a special compost is made for them it should consist of one-third rich loam, one-third leaf mould, and one-third well-decayed dung. In early spring the seed should be sown in frames or in boxes for summer and autumn blooming, and later on sowings may be made about July out of doors in a partially shaded place, transplanting in October or November into where they are intended to flower the following season. The final position should be an open one, and the plants not less than 6 inches apart. There should be no check in their progress either by cold winds, very hard frosts, or long droughts. Nor should they be watered during the hottest months with very cold water. We have classed each type so that Pansy lovers have an opportunity of securing a large and varied choice, all representing the very best strains in cultivation.

International Prize Pansy.—"I have grown the above Pansy for 3 years and have had blooms this spring 4½ inches across. They have been admired by all who have seen them."—Mr. H. SLOCOMBE, The Gardens, The Rockery.

International Prize Pansy.—"The above are the admiration of all who see them."-The Rcv. J. NEAL, Kingsdon Manor.

Pansies .- "The ones we had last year are lovely and admired by everyone."-Mr. R. Cox, Fairford.

[&]quot;Mrs. DENNEY wishes to tell Messrs. Carter what a great success her Pansies, from their seed, have been."

[&]quot;The Pansies I got from you last year have turned out lovely."—Mr. D. McKichan, Garelockhead.

[&]quot;I am enclosing a few blooms of your International Prize Pansies grown from seed supplied by your firm; they are very beautiful again this year and have been very much admired by all that have seen them."—Mr. W. EDWARDS, Grove Lodge.

CARTERS EMPRESS PETUNIA.

Carters Empress Petunia for Conservatory or Bedding.—We have been many years perfecting this magnificent type, which now embraces many delicate shades of colour, the majority taking the lovely form as shown in the photograph above, which represents a natural bloom. The elegant pencilling in the throat is quite a feature of this modern introduction. It also possesses such a robust but compact habit that it is valuable as a hedding plant, where the fine flowers have a rich effect.

No. 968.—Price per packet, Is., Is. 6d., 2s. 6d., and 5s. each.

(For other Petunias see opposite page.)

Carters Seedsmen by Appointment to His Majesty the King-High Holborn, London.

CARTERS GRAND STRAINS OF PETUNIA.

As frequently exhibited at the Royal Horticultural Society Shows, and awarded, in conjunction with other Improved Flowers,

PETUNIAS.

-L. T. PAWLE, Esq., Rowsham.

[&]quot;Last year I took First Prize for your Single Petunias in open competition."-Mr. J. W. JONES, Pembroke Dock.

[&]quot;It may interest you to know that a bed of Petunia grown from your seed was much admired this summer, and has continued to be a mass of flowers until to-day, October 18th, when 12 degrees of frost brought their gay display to a conclusion."

PHLOX DRUMMONDI. CARTERS ANNUAL LARGE FLOWERED.

The great advance recently made in both the size and colourings of this popular annual should ensure its again becoming a favourite for growth in beds and borders. It makes a most effective edging if the growths of the taller types are kept pegged down. Another point of importance in the culture of this pretty flower is the fact that it does not like being watered with cold pipe water, especially overhead; it spoils the foliage and ruins the truss. This section may be expected to reach the height of r foot.

A BED OF CARTERS CLUSTER POLYANTHUS PRIMROSES.

THE STRAIN GROWN IN THE ROYAL LONDON PARKS.

Polyanthus Cluster Primrose.—The superb strain we here offer of these lovely spring flowers improves in extent of colours each year, and there is no other flower which produces such a chaste, brilliant, and enduring effect during the early spring months, either singly or in masses in beds, about the same time as the Hyacinths and Tulips. Sow in spring or summer, in prepared seed bed, and transplant when large enough.

CARTERS GARDEN PRIMROSE.

The Primrose is one of those plants that resents too much coddling, and sometimes when great care is taken over the seeds they refuse to grow. The simplest plan is to sow them in the open ground, in a partially shaded place, from May to July. Just scratch the seed in with a rake and firm the surface, when under the influence of genial showers they will soon come up. The Blue Primrose may be sown in borders at the same season.

GOLD MEDAL FOR SWEET PEAS.

The Large Gold Medal (1911) of the National Sweet Pea Society was again awarded to Carters Large Flowered Sweet Pea.

- "I like to tell you that the Sweet Pea seeds I had from you in the spring have done splendidly. When all the neighbourhood are complaining of such a bad Sweet Pea season, they are 8 feet high and full of bloom."—Mrs. Eden.
- "I have ordered my Sweet Peas from you, as a packet I had from you last year was the best mixed packet sent me, when I tried selections from several leading firms."—MRS. H. V. BASTOW.

Carters "Shirley" Poppy (SILK OR GHOST POPPY).—This lovely garden annual Poppy has probably received its various names from its delicate texture and almost shadowy forms. The shades of colour are endless and we again offer a strain of unusual beauty, which has been rigidly selected from the stock of the original nominator, the Rev. W. WILKS, Secretary to the Royal Horticultural Society. It makes a delightful border plant, and is fine for sowing at the sides of grassy walks or along paths where nature's growths give a wilderness-like effect to the surroundings.

No. 1031. Price per packet, 6d., 1s., and 1s. 6d.

Carters Seedsmen by Appointment to His Majesty the King-High Holborn, London.

POPPY (PAPAVER), DOUBLE ANNUAL VARIETIES.

These showy hardy flowers continue to absorb the attention of the greatest number of amateur gardeners, and deserve the position from their varied and intrinsic beauty. Sow thinly in patches, rows, or beds in spring where the plants are intended to bloom during early summer. The show may be extended if the seed pods are kept cut off. When used as cut flowers, they should be picked early in the morning before opening out.

CARTERS DOUBLE PRIMULAS.

1s., 2s. 6d., and 3s. 6d. per packet.

No to81. Carters "Carmine Empress." Rich colour, the deepest of all the double varieties.

""", 1082. Carters "Daybreak." Colour varying from apricot to terra-cotta.

""", 1083. Carters "Dark Rose" (Prince of Wales).

""", 1084. Carters "Snowflake." A useful variety for early blooms.

""", 1086. Carters "Striped." Prettily striped and flaked.

""", 1087. Collection of above 6 Choice varieties, in separate packets, 5s.

""", 1088. Carters Prize "Double" Primula, Superb Mixture, 1s., 2s. 6d., and 3s. 6d. per packet.

,, 1089. Carters Prize "Fern-Leaved" Single Primula, Mixed, 1s. and 2s. 6d. per packet.

Culture.—Sow in pans of finely sifted soil in spring, and pot off singly into thumb pots when large enough to handle. They require to be raised in heat and kept growing in cool house or frame through the summer. A cool bottom for pots to stand on is essential. Use a compost of leaf mould and rich fibrous loam when shifting into larger pots.

Carters Primula Stellata (Star Primula). See Photograph above. This is both delightful and graceful when in flower, and it makes a useful decorative plant on the conservatory stage in spring. Free flowering. Treatment for Primula sinensis will suit this species well.

CARTERS SCABIOUS.

This bright-flowering plant is usually treated as an annual in our gardens. During recent years it has been greatly improved both in habit and range of colours, and is fast becoming one of the most popular of border flowers. When given plenty of room and the seed-vessels are kept regularly picked off, it will last through the whole of the summer. Owing to its sweetness the bees are very fond of it and its floral favours also attract all the most beautiful types of butterflies to the neighbourhood.

Sow the seed in heat in February and March in a pan or small box, and transplant the seedlings three inches apart in larger boxes; harden off as spring advances, and set out in the border towards end of May. They may

also be sown where intended to grow

CARTERS LARGE-FLOWERED SCHIZANTHUS.

CARTERS SCHIZANTHUS FOR POTS AND HANGING BASKETS.

AND MOST ADMIRED FOR CONSERVATORY DECORATION.

Culture of Schizanthus in Baskets.-Seed should he sown in July, August, or September in well-drained boxes or pans in a compost of three parts sandy loam, one part leaf soil, one-sixth part silver sand, all run through a 3-in. sievc. The boxes should then be filled with the mixture to within \(\frac{1}{2} \)-inch of the top and given a good watering in preparation for the seed, which should be sown evenly and covered with sufficient soil to bury the seed. Then place the boxes in a cold frame or greenhouse, covering them with paper to keep the light from them until the seedlings appear, when the shading may be removed. Bright sunlight must be avoided at this stage. When the seedlings are ready to pot, they should be placed singly in thumb pots, well drained, and returned to the frame or greenhouse close to the glass; water should not be given for a draw two if the call ic in a project condition, but given for a day or two if the soil is in a moist condition, hut a light syringing is beneficial on bright days. When the plants are two inches high, take out the points to encourage lateral growth, and as this advances place neat little stakes to the plants. When the pots are full of roots they should be transferred into 48's or 50's and returned to the greenhouse for the winter. Plenty of air must be given at all times, and the temperature should be 50° by day and 45° at night. About the end of February the plants will be ready for baskets. The number of plants depend on the size of the basket; 12-in., 15-in., 18-in. are the most suitable sizes of baskets. A 12-in. will take six plants, five round and one in the centre, and the other sizes in proportion; the baskets should be well lined with moss and filled with a compost of three parts fibrous loam, one part well-rotted manure and silver sand, with a little dusting of bone meal. They should now be suspended helow a greenhouse roof and allowed to grow freely, fastening the growth to the baskets until they are covered; the tips can be pinched for a little time to make them uniform; at this stage a little artificial manure will he beneficial until the plants show flower, when it can be discontinued and only clear water applied.

Carters Large-flowered.—An improved strain, as exhibited by us at the Temple Show. A lovely annual greenhouse plant.

CARTERS CHOICE HYBRIDS STREPTOCARPUS.

Streptocarpus. Perennial. A novel race of free-blooming greenhouse pot plants, now in universal demand; bright, cheerful, lasting. The mixture we offer is a carefully fertilised strain, containing all the best colours, including a very large and rich blue. Sow in pans of rich soil in early spring, in heat, and pot off into small pots when large enough to handle. Keep the seed pans moist.

CARTERS LARGE-FLOWERED SWEET PEAS.

CARTERS SELECTED LARGE-FLOWERED WHITE SWEET PEA, 3d., 6d., & 1s. PER PACKET.

CARTERS SELECTED LARGE-FLOWERED SWEET PEAS.

(See photograph opposite.)

With a view to assisting those of our customers who are not quite conversant with Sweet Peas in their now extremely numerous varieties, we offer our selection of large-flowered varieties as under.

Although all good for exhibition, we chiefly have in mind their suitability for garden decoration and cutting purposes. With this end in view, the varieties we have selected will be found to be of giant-flowered types borne in threes and fours on very long stems. All are bright colours and pleasing shades, which do not scorch in the sun. The plants are of robust habit, and if the bloom is judiciously cut will produce large quantities of beautiful flowers until late Autumn.

Carters Address for all RAYNES PARK, LONDON, S.W. - 1912.

Carters Seedsmen by Appointment to His Majesty the King-High Holborn, London.

WALLFLOWERS.

(See Photograph opposite.)

The Wallflower is a very old friend in English gardens, but is not grown to the extent it deserves. Now that so many improved forms and bright colours are available, it should be found a place where any collections of spring-flowering plants are brought together. For quite two months, April and May, it adds its best charms, and makes beds and borders quite cheery by its presence and fragrance. The spindly straggling plants too commonly met with are only a mere apology for the effects well-cultivated examples, such as plants from the following highly selected strains, are capable of achieving. The double varieties, although very pretty when well grown, do not always come up to the high standard anticipated, and only occasionally give that real solid satisfaction that can be relied upon with the singles. For real usefulness we recommend the following selections of uniform height and habit, broad petalled, and decisive colours. They flower early, last well, and are off the ground in convenient time for summer bedding. The seeds may be sown from April to August in a partially shaded but airy place. If sown on poor firm soil plants of stubby growth and hardy nature will be produced whilst those sown later in rich ground are often killed in winter. All may be transplanted to blooming quarters from August to November, according to circumstances.

SINGLE VARIETIES.

CARTERS DWARF SWEET-SCENTED LARGE-FLOWERED WALLFLOWERS.

CARTERS MAMMOTH DOUBLE ZINNIA.

The Zinnia is one of the many popular garden flowers introduced into general cultivation in this country by the late Mr. James Carter, and as far back as 1860 our House was awarded a First Class Certificate by the Royal Horticultural Society for our strain of the double-flowered type. When well grown, the Zinnia is one of the showiest of the half-hardy Annuals, its treatment being similar to that of the Aster.

CARTERS BEAUTIFUL AND HARDY LILIES.

CARTERS LILIUM AURATUM.

(The beautiful goldenrayed Lily of Japan.)

This grand Lily has now been brought to such a popular price that it should be largely grown in every garden. In soils suitable to its taste it will thrive in increased vigour each season in borders, and should be extensively cultivated in such spots. It can be seen in its full beauty in association with ornamental shrubs and bold-leaved herbaceous plants. It flowers rather later in summer than some of its relations.

All bulbs are carefully sorted by hand, and are examined personally before despatch.

Fine Gigantic Roots,

2s. cach; 21s. per doz.

Large Roots,

CARTERS LILIUM LANCIFOLIUM RUBRUM.

Next to the *Lilium auratum* we must place the *lancifolium* or *speciosum*, so exquisite in form and so easily cultivated. Specimens may frequently be seen flowering abundantly from pots in the squares and on balconies in the very centre of London and other large cities late in summer, and coming at a time of year when flowers are somewhat scarce makes it doubly welcome. It thrives well out in the border, and, with its pure chaste white, orange, crimson-spotted, and rose-spotted flowers, is very attractive.

CARTERS BUTTERFLY.

AMERICA.

THE BRIDE.

CARTERS IMPROVED BUTTERFLY GLADIOLUS.

By carefully selecting those varieties planted specially for hybridisation, we claim to now offer absolutely the largest flowered and the grandest mixture of Gladiolus that has ever been produced.

Carters Improved Butterfly Gladiolus (see Photograph) now contains beautiful shades of carmine, scarlet, pink, cream, blue, and many others of the more delicate colours.

We strongly recommend this choice mixture to our customers, as we feel sure when once grown they will discard all other mixtures and give this the place of honour in their garden.

Strong Flowering Bulbs. Price 140s. per 1,000; 15s. per 100; 2s. per doz.

GLADIOLUS SCARLET BRENCHLEYENSIS.

Large handsome spikes of brilliant scarlet.

Extra Large Bulbs.—85s. per 1,000; 9s. per 100; 1s. 3d. per doz. Good Flowering Bulbs.—60s. per 1,000; 6s. 6d. per 100; 1s. per doz.

NEW GLADIOLUS.

Carters Blue King.-A superb Gladiolus. Colour deep blue or indigo; flowers as large as the Gandavensis section; flowering at latter part of July. Height 3 to 4 ft., and often producing 24 flowers on each spike.

7s, 6d. per doz.; 9d. each.

Princeps.—This superb variety is without doubt one of the finest of the Gladiolus, both in point of size and colouring; the blooms are of rich crimson with white stripes on lower petals, and are of immense size. Price 7s. 6d. per doz.; 9d. each.

Hollandia.—The pink Brenchleyensis. Strongly recommended. This is a sport from the popular scarlet variety. Colour a most delicate pink, inclined to pale primrose. Summer flowering. Price 20s. per 100; 3s. per doz.

America see Photograph, page 266). Autumn Flowering. A beautiful soft flesh pink, very light and much like Enchantress Carnation, except slightly tinged with lavender, which gives it the delicate colouring of the most beautiful Ledias. Price 7s. 6d. per doz.; 9d. each.

HYACINTHUS CANDICANS.

Very effective white bell-shaped flowers, they make a splendid background for Gladiolus. Height about 4 feet. Per 100, 7s. 6d.; per doz., 1s. 3d.

LILY OF THE VALLEY.

Carters Finest Selected Crowns, for forcing. - In bundles of 25, per 1,000, 90s.; per 100, 9s. 6d.; per 25, 2s. 6d.

Good Flowering Crowns.

per 1,000, 65s.; per 100, 7s.; per 25, 2s. Fortin's Giant, the largest and most beautiful strain. This variety, however, will not force, and can only be brought on slowly to ensure its reaching perfection. Price, 16s. per 100; per doz. 2s. 3d.

Imported Clumps, for open ground.—Very finc, per doz., 12s. 6d.; each 1s, 3d.

By availing ourselves of the modern method of cold storage we are enabled to

supply forcing roots of this pretty decorative plant through the winter months. One advantage these retarded roots have over those handled in the ordinary way is the quick time in which the flowers are produced. We have seen dormant crowns put into strong heat and brought into beautiful bloom within three weeks, but we recommend six weeks as the average time for a perfect flower spike.

We have made arrangements by which a continuous supply during winter may

Giant Flowering Retarded Crowns FOR ALL SEASONS. per 1,000, 95s.; per 100, 10s. 6d.; per bundle of 25, 2s. 6d.

MONTBRETIAS.

We anticipate a great future for these charming autumn-flowering tuberous plants, and when more generally known, they will meet with universal cultivation. Easily grown in the open border. Plant from January to March.

A CURIOUS PLANT FROM CENTRAL ASIA.

MONARCH OF THE EAST. (As originally named and offered by us.)

This remarkable plant exhibits one of those extraordinary traits in nature that few are able to understand, for the magnificent flower actually comes out of the dry bulb without being placed in soil and water.

The flower sheath sometimes reaches a length of nearly two feet, is of a red-brown colour, tipped with red and yellow, whilst the inner parts of the flower are equally as brilliant. The bulb of this extraordinary plant needs only to be placed in some fancy receptacle, without water, in a warm room, or on the mantelshelf, when, without showing either leaves or roots, the flower makes its appearance, early in the year, thriving entirely upon the nourishment contained within the bulb. Large bulbs, 9d. each. 7/6 per doz.

Decorated China Bowls for placing these bulbs in, price 6d., 9d., and 1s. each.

DOUBLE SWEET-SCENTED TUBEROSES.

BEAUTIFUL PURE WHITE FLOWERS.

The Sweet-scented Double White Tuberose (Polianthes Tuberosa) has become exceedingly popular. It possesses both a character and a perfume distinct from any other flower, and can be induced to bloom at various seasons. At one time they were only obtainable from the South of Europe; now they are specially cultivated in different parts of the world, and can easily be forced into bloom for the Easter festivals. Those who do not cultivate these flowers for winter decoration can procure the bulbs in the spring, when they will come into flower during the summer. The double-flowered Tuberose may be had in succession by potting the tubers and standing them in a cold frame, covering them 4 in. deep with cocoanut fibre refuse; but they will start much more quickly and with greater certainty in a gentle bottom heat. Loam and welldecayed manure, in about equal parts with a little coarse sand, is the most suitable compost in which to grow them. The pots may be taken out of the frame as soon as the flower stems appear above the leaves; they are then staked and removed to the greenhouse, and placed near the glass.

Carters Extra Large Bulbs,

17s. 6d. per 100; 2s. 9d. per doz.

FLOWERING SPIKE OF DOUBLE SWEET-SCENTED TUBEROSE.

TIGRIDIA. (Tiger or Shell Flower.)

Some beautiful hybrids of this showy flower have appeared during recent years. The bulbs, which are supplied in a dry state, are usually planted in pots in April, or in groups in the garden in a rich sunny border. For outdoor culture they are generally potted in good mixed soil in autumn, and not over watered during growth. They maintain a succession of bloom throughout the summer and early autumn.

RANUNCULUS.

CARTERS COCKADE RANUNCULUS.

Price, 75s. per 1,000; 8s. 6d. per 100; 1s. 3d. per doz.

in a splendid variety of colours, immense double flowers, is fitting in all respects to be cultivated by the side of the "Empress Poppy" Anemone, and equally superior with that variety to any other class of Ranunculus.

CARTERS COCKADE RANUNCULUS. Carters Cockade,

The flowers are double, of immense size, and combine every possible shade of colour peculiar to this interesting and easily-cultivated flower. It is impossible to over-estimate their value to all lovers of hardy border flowers.

This beautiful early summer border, plant belongs to the buttercup family. The types now popular in the class under consideration would, from their gay appearance both in form and colour, be hardly recognised as a relation to this modest denizen of the field. The cultural directions are practically the same as advised for Anemones.

CYCLAMEN PERSICUM GRANDIFLORUM, in variety.

Flowering plants in 5-inch pots, 18s. and 24s. per doz.

CARTERS "INVINCIBLE PRIZE" GLOXINIA BULBS.

Our Invincible Prize strain stands unequalled, and has on several occasions gained the Highest Awards at Exhibitions. For full particulars of Seeds of our "Invincible" Strain, see pages 200 and 201.

STRAWBERRY PLANTS.

We grow a large quantity of this popular fruit, and our season's plants are very fine this year. If fruit is desired next summer, it is best to plant out as early as possible, so that they may become established before winter. From open ground, is. per doz.; 5s. 6d. per 1co. In pots, 3s. per doz.; 18s. per 100.

Bedford Champion, second early, distinct and vigorous. Bicton Pine, large white fruit. British Queen, fine large variety.

Dr. Hogg, large fruit, one of the best.

Givons' Late Prolific, vigorous and free cropping, fruits very large. Keen's Seedling, early, good for forcing. King of the Earlies, very early, medium size. Latest of All, very late, good flavour. Leader, large, mid season, good eropper.

Monarch, second early, good flavour.

Noble, early, large fruit, and very free. Perfection, medium-size fruit, very prolific. President, second early, grand cropper, and useful for Royal Sovereign, early, good cropper.

Scarlet Queen, large fruit and good cropper. Sir. C. Napier, late, large fruit, good for pot-culture. Sir J. Paxton, early, strong grower, and prolific. The Bedford, mid-season fruit of exceptional merit. Vicomtesse H. de Thury, early, good for forcing. Waterloo, late, large fruit.

Other varieties not offered above can be supplied at usual prices.

CLEMATIS.

Strong Plants in Pots, 1s. 6d., 2s., and 2s. 6d. 18s. and 24s. per doz.

EXPLANATIONS.—Sections or Type: Jackmani, J; Lanuginosa, L; Florida, F; Monta.a, M; P tens, P; Viticella, V; Coccinea, G. The Clematis is grouped into several sections, according to the peculiar characteristics in habit of growth, time of flowering, and kinds of flowers. The Jackmani class have large flowers in profuse masses from July to October on the new wood. Florida class, double-flowered summer blooms on the old wood. Lanuginosa class, large flowers produced successionally on short, summer lateral shoots from June to October. Montana class, medium-sized flowers in clusters, on the old wood in the spring. Viticella class, large flowers freely produced on the new wood from July to October. Patens class, large flowers produced on the old wood from May to June. Flammula class, small flowers borne prolusely on the new wood in summer.

June. Flammula class, small flowers borne profusely on the new

CARNATIONS.

These charming flowers should be largely grown in every garden. The brilliant colours and delicate scent strongly apparent in many varieties render them objects of great beauty, Choice named Border varieties, for outdoor cultivation 7s. 6d. and 12s. per doz. Detailed List on application.

PINKS.

Choice named varieties. These are specially suitable for Cut Flowers. 5s. per doz. Detailed List on application.

NEW PERPETUAL FLOWERING CARNATIONS.

(A) signifies American. (B) British.

In 5 inch pots, each 3s. 6d.

Admiration (A). A beantiful shade of rosy flesh pink, with a wonderful satin finish. The flowers are of the same size as *Enchantress*, to which variety it is closely allied, but is of a very superior form and colour. It produces a very early crop of bloom, borne on strong stems; habit is quick and free.

Bay State (A), white, pencilled carmine; bold noble flowers, and a great addition to this class; the habit of growth is distinctly good. We have watched this variety for several years, and are now pleased to be able to list it.

Black Chief (B). This is a large, deep velvety crinison of most excellent build; the petals being clean cut, the flowers are evenly formed, with a sweet, rich scent. The growth is very robust, making almost double the size plant during the season than any other crimson, with clean, healthy foliage; the stems are long and always stiff. It will flourish well under all systems of cultivation, and is a variety we strongly recommend.

Conquest (A), light pink, overlaid almost to the edge of the petal with deep rose pink. The onter petals stand out well, showing off the beautiful combination of colours which make this one of the best fancy varieties; habit of growth is free and early.

Delight (A). A delightful shell pink, with a trace of salmon in it; the flowers are of medium size, with a good scent and perfect build, smooth edged petals, borne on long, stiff stems; it comes into bloom early and is continuous, the growth being clean and healthy.

Fortuna (B). A pale chrome-yellow, and a decided ad lition to this class of colour, although the flowers are not large; habit of growth is strong and free.

Lady Dainty (B) is a delightful fancy variety, being white, daintily overlaid pale purple. It is the result of a cross between a purple seedling of great merit and Lady Bountiful, having a very similar habit to its seed parent.

May Day (A). A delightful flesh pink, almost identical in shade with Fair Maid, but the flowers are of better form, with absolute non-bursting calys; the growth and productiveness is also greatly in advance of that

In small pots, each 2s. cd.

In small pots, each 2s. Cd.

Mrs. Chas. Knopf (A) is a seedling from Enchantress, and is a slightly deeper shade of flesh pink; the flowers are gigantic, said to average 4 in., with better guard petals than its parent, while the calyx is a little stronger; the habit of growth is very strong and free.

Mrs. T. M. Crook (B) is one of the most distinct and beautiful fancy varieties, having a ground colour of pale crimson, heavily veiled with a profusion of rich crimson. The flowers are made up of large flat petals, with a very full scent; a remarkable free flowering variety.

Regal Mauve (B) is a distinct shade of mauve, rendered so popular by Her Most Gracions Majesty Queen Alexandra; habit of growth is very quick and early.

Rival (B), a new shade of colour, being a salmon cerise, not cerise but of a salmon shade. The flowers are large, with good guard petals and high well-ball centre. It has two meritorious seedlings for its parents. The habit of growth, stem, and calys leave nothing to be desired.

Roseate Dawn (B) is a glorious pale shade of old rose. The flowers are up to the average size, with a full high-built centre and large fringed onter petals, clove-scented. The habit of growth is robust.

Royal Purple (B) A rich shade of purple, forming a delightful contrast to other colours. The habit of growth is robust.

The habit of growth is colours. The habit of growth is robust.

Royal Purple (B) A rich shade of purple, forming a delightful contrast to other colours. The habit of growth is strong, with good foliage and very free.

trast to other coours. The flowers are very large and full, and very free.

Ruby (A) is a light shade of crimson. The flowers are very large and full, with fringed petals; a very free and quick grower.

Scarlet Glow (A), of extraordinary bright shade, which never becomes dull, with well-rounded flowers and of great lasting capacity.

Shasta (A) is a pure glistening white at all seasons of the year. The flowers are of good size, and compact round form; a very early and free flowering variety.

llowers are of good size, and compact forms for the following variety.

Sangamo (A), a brilliant pink, very attractive. It is of strong, healthy upright growth, and free branching habit, which enables it to produce a larger crop of flowers than almost any other variety.

Sarah A. Hill (A). This is said to be the largest white ever introduced; the flower is of the true American type, with deeply fimbriated petals of recallous substance.

excellent substance.

J. Whitcombe Riley (A) is the first true pure yellow variety. The colour is deep and rich even under artificial light. The habit of growth is very free, and can be described as a yellow Lawson.

GENERAL COLLECTION OF CARTERS TREE CARNATIONS.

Selection left to us, 24s. per tloz. in 5-inch pols.

Detailed List on application.

MALMAISON CARNATIONS. NEW and CHOICE VARIETIES.

Each—s.	ď.		d.
Baldwin, dark pink; exceptionally large well-built flowers with clear cut petals	0	and 3	0
possessing one of the strongest clove scents 2 Duchess of Westminster, clear rose pink, with a	0	» 3	0
salmon shade; a very early variety 2 C. P. Little, a true yellow variety of Malmaison type;	0	31 3	0
a variety long sought after, and the result of many years labour. Flowers of good size and rich bright colour 1 rene. Enormous flowers of a delightful pink, with a	0	», 7	6
salmon sheen. It has a fine constitution, the growth being always healthy, clean, and remarkably free 2 Lady Mary Hope is a clear deep terra cotta, a perfect	6	,, 3	6
colonr. Flowers large and full; stems stiff and erect, and the habit free and good, being an easy variety to grow to Lois Sturt. A clear pale huff, an absolutely new shade of colour in this class. Flowers are of distinctly good	6	31 15	o
form, and of duinty appearance; stem and habit—leave nothing to be desired	6	· , 5	0

Maggic Nettlefield. A blush pink, with a slightly deeper pink vein in the petal. The flowers average 5 inches in diameter, and are very rtchly perfumed with the true old clove seent. A fancy variety of great					
merit	3	6	and	5	0
Nell Gwynne. The only pure white Malmaison. The growth is strong, and flowers of good size					
Sunrise. A straw yellow, flaked delicate pink on the petals. The flowers are of gigantic size, borne upon long, perfect stems, a good free grower, very similar to The Colonel					
Sunset. This is a great novelty. The flowers are a rich apricot, flaked reddish-bronze on the petals, giving a mique effect, reminding one of a golden sunset; habit of growth very free					
The Colonel is a large cherry-red · perfect in form and petalage. A great favourite with all who have seen it growing

Barters Bird Seeds

A mixture of nearly 20 varieties of seeds in suitable proportions, as recommended by the most eminent fanciers. All the seeds are of the finest quality, extra machine screened; bright, sweet, perfectly clean, free from deleterious substances, and of the highest nutritive properties.

Sold in sealed packets only, 1d., 2d., 4d., and 6d.
Also packed in sealed bags, 7 lbs. 2s. 3d., 14 lbs. 4s. 6d., and 28 lbs. 9s.

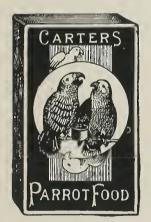

And in ornamental tins, holding about 7 lbs., 2s. 6d.

CARTERS GRIT SAND.

A genuine hygienic Grit, in combination with the natural phosphates, Silicious and Saline elements, without which no cage bird can be preserved in health. This preparation includes Shell and Grit actually taken from the sea-shore.

Sold in bags, 1d., 3d., 6d., and 1s.

CARTERS PARROT FOOD.

A mixture of Secds especially selected for Parrots, Cockatoos, &c., and of the same high standard of excellence for which the Bird Seeds have so long been famed.

Sold in sealed packets only, 3d. and 6d.

Also packed in sealed bags, 7 lbs. 2s. 6d., 14 lbs. 4s. 6d., 28 lbs. 9s.

And in ornamental tins, 2s. 6d.

The facilities which the firm possess for cleaning Sceds are unequalled by any house in the kingdom, and the finest equipment of Seed Cleaning Machinery is employed to take out all injurious Weed Seeds as well as all dust and dirt, thus ensuring the highest standard of excellence.

SOLD BY ALL CORN MERCHANTS, GROCERS, AND STORES.

Carriage Extra, unless enclosed with other goods.

Carters Seedsmen by Appointment to Itis Majesty the King-High Holborn, Londow,

THE SWEET FRAGRANCE OF OLD-FASHIONED **ENGLISH FLOWERS.**

GREATLY REDUCED PHOTOGRAPH.

10/10 Bottlo, in cut glass, contains about glass, contains about 2½ ounces perfume.

The 15,6 size, in cut glass, contains about 8 ounces perfume.

5/9 Bottle, in cut

2/10 Bottle

1/10 Bottle contains about 1 ounce perfume.

Our natural Flower Scents are the concentrated essences of living flowers extracted with such skill and care that the perfumes contain unimpaired the delicate and odoriferous constituents of the petals. They do not become stale or stain the fabrics.

A Lady writes: - "The Night Scented Stock is the most delicious and lasting I have ever used, and I have been devotedly fond of fine delicate odours during a long life."

The delicious perfume of the Night Scented Stock has the unique and fragrant sweetness of this flower and the novelty and truth to nature and durability of the essence has ensured for it the position of a first favourite.

The little flower (Mathiola bicornis), see pages 214 and 215, which yields this exquisite perfume is cultivated almost exclusively for its lovely aroma. During the day the flower is an almost inconspicuous object, but as night approaches it unfolds its petals and fills the evening air with a subtle fragrance.

Newlands Manor, Lymington, Hants.

"Messrs. CARTER.—Please send me a bottle of your 'Night Scented Stock.' It is exactly like the flower, and I can imagine myself in my summer moonlight garden on the coldest winter day if I have some of the scent on my handkerchief. Yours faithfully, MARY CORNWALLIS WEST.

"P.S.--Please send also a bottle to my daughter, the Duchess of Westminster, Eaton, Chester."

Clove Carnation. Freesia. Gardenia. Heliotrope.

Honeysuckle.

Hyacinth. Lilac.

Lily-of-the-Valley. Mignonette.

Moss Rose.

Narcissus. Night Scented Stock.

Parma Violet. Sweet Pea Blossom.

Wallflower.

White Clover. White Rose. Wood Violet.

All the above are supplied in bottles, and, with the exception of the small size, are packed in decorated cardboard boxes, suitable for presents.

Price 1s. 10d., 2s. 10d., 5s. 9d., 10s. 10d., 15s. 6d. each, packing and carriage free.

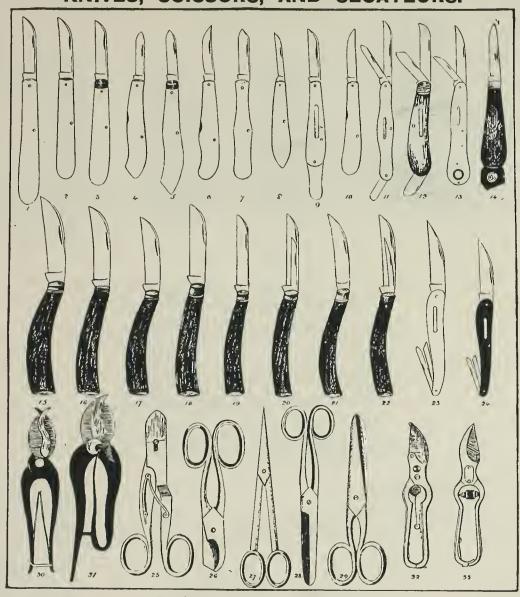

All the above Perfumes in bulk can be supplied in \(\frac{1}{4}\)-lb., \(\frac{1}{2}\)-lb., and 1-lb. plain bottles. Prices on application.

LAVENDER WATER.

Large Bottles. Price 1s. 10d., 2s. 10d., 5s. 8d., 11s. each, packing and carriage free.

THE "T.P." SEED RAISER.

Specially introduced for the cultivation of Sweet Peas.

The whole idea of these seed raisers is to enable the gardener to grow a much larger number of seeds in a much smaller space, and under better conditions than he can do with the old-fashioned earthen pot.

The seed raiser is collapsible and made of cardboard, absolutely free from any injurious acids. Each raiser is 13 inches across, and 41 inches d cp, and forty eight of these seed raisers exactly fit into one wooden box, which forms the whole outfit.

DREADNOUGHT "T.P." SEED RAISERS.

These seed raisers are made 3 inches square and 4½ inches deep and are specially suited for Carnations, Chrysanthemum Cuttings, &c., or for bringing on larger plants raised from seedlings, such as choice Delphiniums, Lupins, &c. There are twelve "Dreadnought" Raisers in cath box in tead of 48.

PRICES (Ordinary size "T.P.'s" or Dreadnoughts).

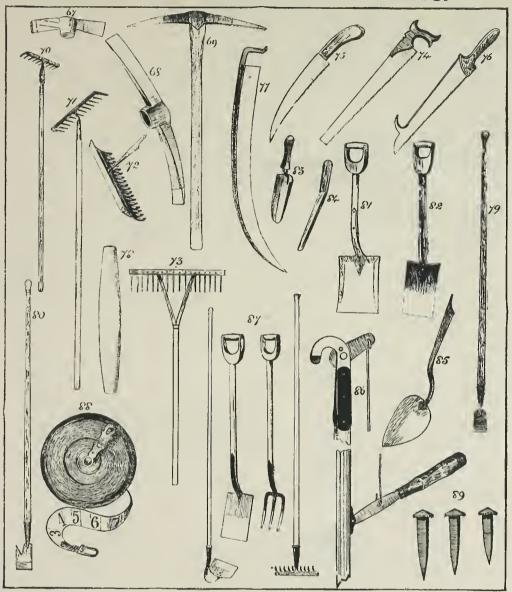

Wooden Box with seed raisers complete ... 2s. (Postage 4d. extra, 6d. two boxes.)

Refills of the Collapsible Seed Pots ... 1s. 3d. per 100. (Postage 4d. extra.) Refills of the Collapsible "Dreadnoughts" ... 1s. per 24. (Postage 4d. extra.)

CARTERS SOIL CAPACITY VASES.

THE ALICANTE VASE

is made in two sizes-14 in. and 18 in. internal diameter.

The design of the Alicante Vase is of that free style which harmonises with all classes of architecture. When placed on the piers and buttresses of balustrades and terrace walls it imparts a dignity to the house, and in the garden, on the lawn, or in the centre of cross walks and beds, a massive well-filled Vase adds a charm to the flower garden.

Packing and Carriage Extra.

Carters Seedsmen by Appointment to His Majesty the King-High Holborn, London.

TERMS OF BUSINESS.

FREE CARRIAGE OF GOODS.

(Except in cases where the cost of Carriage on the parcel, through heing nunsually bulky in proportion to value, absorbs the profit on the transaction, when we reserve to ourselves the right to send unpaid.)

We deliver SEEDS, POTATOES, PLANTS, and BULBS, CARRIAGE PAID to any RAILWAY

STATION IN ENGLAND and WALES, IRELAND, and SCOTLAND, where practicable, also FREE by PARCEL POST to Purchaser's door where possible.

We occasionally hear of charges being made by the Railway Companies, notwithstanding that our address label bears the imprint in RED letters "Carriage Paid." In cases where a Charge for the Railway Carriage is made, notwithstanding that the Package is labelled "Carriage Paid," Purchasers should on no account pay the demand, but refer the Carriers to us. Charges for delivery from Stations (if any) must be borne by the Consignee.

Glass and other Goods liable to breakage are sent out securely packed, but beyond that we cannot be responsible for damage in transit. Notice of damage should be at once made to, and

compensation claimed from, the Carriers.

CONDITIONS OF GUARANTEE OF QUALITY.

We guarantee our Seeds according to the quality purchased to be of the highest average standard of vitality of the season, and it is open to the purchaser to confirm this by submitting the samples to professional analysis at his own expense. We cannot, however, be in any way responsible for the produce of Seeds sold under this guarantee, or for errors of description; and it must therefore be clearly understood that our responsibility ceases upon the final acceptance of the Goods.

ORDERS.

ALL ORDERS SHOULD BE WRITTEN SEPARATELY FROM GENERAL LETTERS OF LETTERS OF INOUIRY.

Please write your name and address in full, also nearest Railway Station or Shipping Port to which the Goods are to be forwarded.

All letters are opened under the direction of one of our principals, and the orders are given out for execution under personal supervision. Plant orders are sometimes delayed by severe or hot weather, and they at all times take longer to execute than Bulb or Seed orders, in consequence of the time required in lifting and packing, especially in the autumn after the long accumulation of orders.

NEW CUSTOMERS.

We beg respectfully to state that on opening an account it is necessary for us to receive Cash with the order, or a reference to a Banker or some one known to our House.

CASH DISCOUNT.

We allow 5 per cent, discount off the total amount of invoice on all goods paid for with order, or within fourteen days from the date of invoice (but at no later period), UNLESS OTHER TERMS ARE SPECIFIED OR ARRANGED.

TERM OF CREDIT.

OUR FULLEST TERM OF CREDIT IS THREE MONTHS FROM DATE OF INVOICE, AND WITHOUT DISCOUNT, and our books are made up quarterly—i.e., March 1st, June 1st, September 1st, and December 1st. Five per cent. interest will be charged upon overdue accounts.

REMITTANCES.

Postal Orders, Post Office Orders, or Cheques on any Bank are acceptable, and should be drawn in favour of James Carter & Co., and crossed "London and South Western Bank, Limited."

EMPTY PACKAGES, HAMPERS, BOXES, SACKS, BAGS, &C.

Are charged at cost price, and full price will be allowed on them when returned immediately carriage paid and in good condition. These should be in every case marked—"Empties from ——"; a letter by post informing us of their despatch is also necessary. Booking charges must be prepaid, and a receipt should be taken, so that the value may be recovered if they are lost or mis-sent. Coin, other valuables, or important communications should on no account be enclosed with returned empties. On receipt of a post-card we will send labels

ATTENTION TO CUSTOMERS.

It is our carnest desire that all the requirements and directions of Customers be scrupulously attended to by our assistants, AND WE PRACTISE THE UTMOST PERSONAL SUPERVISION TO SEE THAT THEY ARE CARRIED OUT. We would, therefore, respectfully request that we be informed if at any time there is cause for dissatisfaction that we may have it rectified at the earliest possible moment.

CHANGE OF

ADDRESS.

Please notify to us any change of Permanent Address, in order that we may be able to forward our Catalogues with regularity. The favour of your kind recommendation of our House to those of your friends requiring Seeds for the Garden or Farm, or Plants and Flower Roots for the Garden or Conservatory, is respectfully solicited. We shall be pleased, at all times, to forward our Catalogues to any address we may be favoured with.

Carters Correspondence, RAYNES PARK, LONDON, S.W. - 1713,
